Canned Lentils Market Outlook

The global Canned Lentils market is expected to register a growth rate of 4.1% during the forecast period from \$3.4 Billion in 2024 to \$4.7 Billion in 2032. The Canned Lentils market is a thriving business that is poised to keep growing and presents potential growth opportunities for companies across the industry value chain.

The comprehensive market research report presents 12-year historic and forecast data on Canned Lentils segments across 22 countries from 2021 to 2032. Key segments in the report include By Type (Brown Lentils, Green Lentils, Puy Lentils, Black Lentils, Red Lentils, Yellow Lentils), Application (Food Processing, Food Service, Residential, Others), Distribution Channel (Online, Offline). Over 70 tables and charts showcase findings from our latest survey report on Canned Lentils markets.

Canned Lentils Market Insights, 2025

The canned lentils market in 2025 is expanding as lentils gain recognition for their high protein, fiber, and micronutrient content, fitting well into plant-based and health-focused diets. Canned lentils offer ready-to-eat convenience, making them attractive for busy consumers and foodservice operators seeking quick, nutritious ingredients. The market

responds to growing vegetarian, vegan, and flexitarian populations demanding pulse-based products that support sustainable agriculture and lower environmental impact. Innovations include organic certification, low-sodium and seasoning-enhanced variants, as well as blends with other legumes and vegetables for diverse culinary applications. Lentils sourced from major producers such as Canada, India, and Australia are canned using advanced technologies that maintain texture and flavor. Retail growth is supported by increasing consumer education on pulses' health benefits, and e-commerce facilitates wider distribution. Foodservice channels utilize canned lentils for soups, salads, and ethnic dishes, driving volume and variety. Packaging improvements focus on recyclable materials and portion-sized cans to meet sustainability and convenience trends.

Five Trends that will define global Canned Lentils market in 2025 and Beyond

A closer look at the multi-million global market for Canned Lentils identifies rapidly shifting consumer preferences across categories. By focusing on growth and resilience, leading Canned Lentils companies are prioritizing their investments across categories, markets, and geographies. The report analyses the most important market trends shaping the new landscape to support better decisions for the long and short-term future.

What are the biggest opportunities for growth in the Canned Lentils industry?

The Canned Lentils sector demonstrated remarkable resilience over the past year across developed and developing economies. Further, the market presents significant opportunities to leverage the existing momentum towards actions by 2030. On the other hand, recent macroeconomic developments including rising inflation and supply chain disruptions are putting pressure on companies. The chapter assists users to identify growth avenues and address business challenges to make informed commercial decisions with unique insights, data forecasts, and in-depth market analyses.

Canned Lentils Market Segment Insights

The Canned Lentils industry presents strong offers across categories. The analytical report offers forecasts of Canned Lentils industry performance across segments and countries. Key segments in the industry include By Type (Brown Lentils, Green Lentils, Puy Lentils, Black Lentils, Red Lentils, Yellow Lentils), Application (Food Processing, Food Service, Residential, Others), Distribution Channel (Online, Offline). The largest types, applications, and sales channels, fastest growing segments, and the key factors

driving each of the categories are included in the report.

Forecasts of each segment across five regions are provided from 2021 through 2032 for Asia Pacific, North America, Europe, South America, Middle East, and African regions. In addition, Canned Lentils market size outlook is provided for 22 countries across these regions.

Market Value Chain

The chapter identifies potential companies and their operations across the global Canned Lentils industry ecosystem. It assists decision-makers in evaluating global Canned Lentils market fundamentals, market dynamics, and disruptive trends across the value chain segments.

Scenario Analysis and Forecasts

Strategic decision-making in the Canned Lentils industry is multi-faceted with the increased need for planning across scenarios. The report provides forecasts across three case scenarios low growth, reference case, and high growth cases.

Asia Pacific Canned Lentils Market Analysis A Promising Growth Arena for Business Expansion

As companies increasingly expand across promising Asia Pacific markets with a combined population of over 4.5 billion, the medium-to-long-term future remains robust. The presence of the fastest-growing economies such as China, India, Thailand, Indonesia, and Vietnam coupled with strengthening middle-class populations and rising disposable incomes drive the market. In particular, China and India are witnessing rapid shifts in consumer purchasing behavior. China is recovering steadily with optimistic forecasts for 2025. Further, Japanese and South Korean markets remain stable with most companies focusing on new product launches and diversification of sales channels.

The State of Europe Canned Lentils Industry 2025 Focus on Accelerating Competitiveness

As companies opt for an integrated agenda for competitiveness, the year 2025 presents optimistic scenarios for companies across the ecosystem. With signs of economic recovery across markets, companies are increasing their investments. Europe is one of

the largest markets for Canned Lentils with demand from both Western Europe and Eastern European regions increasing over the medium to long-term future. Increasing omnichannel shopping amidst robust consumer demand for value purchases shapes the market outlook. The report analyses the key Canned Lentils market drivers and opportunities across Germany, France, the United Kingdom, Spain, Italy, Russia, and other Europe.

The US Canned Lentils market Insights Executives are most excited about opportunities for the US Canned Lentils industry.

Easing inflation coupled with strengthening consumer sentiment is encouraging aggressive actions from the US Canned Lentils companies. Market players consistently focusing on innovation and pursuing new ways to create value are set to excel in 2025. In addition, the Canadian and Mexican markets offer lucrative growth pockets for manufacturers and vendors. Focus on private-brand offerings and promotions, diversified sales channels, expansion into niche segments, adoption of advanced technologies, and sustainability are widely observed across the North American Canned Lentils market.

Latin American Canned Lentils market outlook rebounds in line with economic growth.

Underlying demand remains higher among urban consumers with an optimistic economic outlook across Brazil, Argentina, Chile, and other South and Central American countries. Increased consumer spending has been reported since H2-2024 and the prospects remain strong for 2025. Aggressive ecosystem moves to create new sources of income are widely observed across markets in the region. Marketing activities focused on customer insights, operations, and support functions are quickly gaining business growth in the region.

Middle East and Africa Canned Lentils Markets New Opportunities for Companies
Harnessing Diversity

Rapid growth in burgeoning urban locations coupled with a young and fast-growing population base is attracting new investments in the Middle East and African Canned Lentils markets. Designing expansion and marketing strategies to cater to the local consumer base supports the market prospects. In addition to Nigeria, Algeria, South Africa, and other markets, steady growth markets in Ethiopia, Rwanda, Ghana, Tanzania, the Democratic Republic of Congo, and others present significant prospects for companies. On the other hand, Middle Eastern Canned Lentils markets including the

UAE, Saudi Arabia, Qatar, and Oman continue to offer lucrative pockets of growth.

Competitive LandscapeHow Canned Lentils companies outcompete in 2025?

The ability to respond quickly to evolving consumer preferences and adapt businesses to niche consumer segments remains a key growth factor. The report identifies the leading companies in the industry and provides their revenue for 2024. The market shares of each company are also included in the report. Further, business profiles, SWOT analysis, and financial analysis of each company are provided in detail. Key companies analyzed in the report include Absolute Organic Pty Ltd, ANGT LLC, BioLinked d.o.o., Del Monte Foods, Inc., Food Lion, LLC, Global Organics Ltd., Goya Foods, Inc., Health Valley, Inc., Ripe 'n Raw Organics, LLC, Rosa Food Products Co., Inc., Westbrae Natural, Windmill Organics, .
