## **Abstracts**

The global Dental Floss market size is poised to register 6.5% growth from 2024 to 2032, presenting significant growth prospects for companies operating in the industry. The industry study analyzes the global Dental Floss market across By Product (Waxed Floss, Unwaxed Floss, Dental Tape, Others), By Distribution Channel (Offline, Online)

With the increasing emphasis on oral hygiene and preventive dental care and the growing awareness of the importance of interdental cleaning in plaque and gingivitis prevention, there is a rising demand for dental floss products that enable effective removal of food debris and plaque biofilm from interproximal surfaces, promoting gum health and reducing the risk of periodontal disease and dental caries. Market growth is driven by factors such as expanding oral care product portfolios, rising consumer disposable income, and advancements in floss design and material technologies for improved cleaning efficacy and user comfort. Additionally, the expanding applications of dental floss in home oral hygiene routines, professional dental cleanings, and orthodontic maintenance, as well as the development of flavored and biodegradable floss options and eco-friendly packaging solutions, contribute to market expansion. Further, the emphasis on oral health education, behavior change interventions, and personalized hygiene recommendations, along with efforts to address barriers to flossing compliance and promote sustainable oral care practices, is expected to further accelerate market growth in the coming years.
