## **Abstracts**

### **2020 Dilated Cardiomyopathy PIPELINE HIGHLIGHTS**

Dilated Cardiomyopathy is one of the widely researched conditions during 2020 with 9 companies actively focusing on realizing pipeline's potential. Development of Dilated Cardiomyopathy medicines is identified as integral to the strategy of the majority of companies operating in the industry.

Global Dilated Cardiomyopathy market presents promising new product pipeline with NME Projects, pivotal trials, and rapidly phase-advancing therapeutic candidates. Increasing number of companies are assessing the feasibility of developing treatment options for Dilated Cardiomyopathy.

Good progress is anticipated during 2020 and 2021 with Dilated Cardiomyopathy pipeline molecules advancing from pre-clinical investigation to completion of advanced Phase clinical trials. Dilated Cardiomyopathy pipeline continues to expand and progress with novel mechanisms and diverse routes of administration being tested by companies.

### **Dilated Cardiomyopathy DRUG DEVELOPMENT PIPELINE OVERVIEW**

The "Dilated Cardiomyopathy pipeline Research Monitor, 2020" report is an analytical research study on the progress achieved by pipeline companies during the year along with its historical development, current status, and outlook.

This Dilated Cardiomyopathy pipeline review explores high-potential early to late-stage pipeline projects with a continued focus on new insights, accelerated processes, and pipeline progression.

The competitive intelligence report on Dilated Cardiomyopathy presents detailed insights into therapeutic drug pipeline development, industry news, deals, and analysis across the length and breadth of the Dilated Cardiomyopathy pipeline. Information on

R&D pipeline updates, results of key clinical trials are also included in the report.

#### Dilated Cardiomyopathy DRUG PROFILES

Dilated Cardiomyopathy development pipeline including projects in early- and late-stage development are detailed in the report. Details of clinical trial data and submissions to regulatory authorities are also provided. For the drug candidates included in the report, the following information is provided-

Current Status of Development including phase advancements, regulatory approvals of phases, acquisitions, licensing and technology transfers, product launches in various markets, and others.

Phase of development

Mechanism of Action

Route of Administration

Companies involved including originator, licensing companies, developer, investors, and others

New molecular entity details

Orphan drug designation and other special status provided by regulators

#### Dilated Cardiomyopathy COMPANY PROFILES

Both small size and large size pharmaceutical companies are investing their resources in Dilated Cardiomyopathy drug development operations. Further, financial institutions are extending support to small pharmaceutical companies, universities, and other researchers for the development of treatment of Dilated Cardiomyopathy. Partnerships and acquisitions are also increasingly observed in the pipeline.

This research report presents an analysis of 9 Dilated Cardiomyopathy companies including company overview, key snapshot, contact information, and their strategies on accelerating Dilated Cardiomyopathy pipeline development. Mid-stage and early portfolios of these companies are analyzed in detail in the report.

Companies analyzed in the report include- Berlin Cures Holding AG, Celixir Ltd, Cumberland Pharmaceuticals, Heartseed Inc, Martin Pharmaceuticals Inc, MyoKardia In, Pfizer Inc, Renovacor Inc, Shionogi & Co Ltd

## **REASONS TO BUY**

The current market conditions are forcing companies and investors worldwide to prioritize their investments and accelerate pipeline candidates only through careful quantitative assessment.

This research work assists decision makers in pharmaceutical companies towards successful pipeline development through critically evaluated pipeline data

Buyers can identify most promising drug candidates for treatment of Dilated Cardiomyopathy

It allows users to strengthen their pipeline through acquisitions, licensing and collaborations

Users can estimate possible delays in the delivery of pipeline or launch of new products

Stay ahead of competition through understanding their pipeline progression, strategies and outlook

The report details all the pipeline candidates under investigation in various stages of development from Phase I through to Phase III to enable business development managers to understand the impact of new launches.

Optimize your licensing and technology transfer strategies through identification of prospect partners

## Contents

### **1. INTRODUCTION TO DILATED CARDIOMYOPATHY**

- 1.1 Dilated Cardiomyopathy- Disease overview
- 1.2 Dilated Cardiomyopathy- Market Size
- 1.3 Dilated Cardiomyopathy- Companies Involved

### **2. DILATED CARDIOMYOPATHY PIPELINE SNAPSHOT- 2020**

- 2.1 Dilated Cardiomyopathy Pipeline by Phase
- 2.2 Dilated Cardiomyopathy Pipeline by Mechanism of Action
- 2.3 Dilated Cardiomyopathy Pipeline by Route of Administration
- 2.4 Dilated Cardiomyopathy Pipeline- New Molecular Entities
- 2.5 Dilated Cardiomyopathy Pipeline- Orphan Drug Designation/ Special Designation

### **3. DILATED CARDIOMYOPATHY DRUG PROFILES**

- 3.1 Current Status
- 3.2 Dilated Cardiomyopathy Drug Snapshot
- 3.3 Dilated Cardiomyopathy Therapeutic Candidates- Originator/Licensor
- 3.4 Route of Administration
- 3.5 Mechanism of Action
- 3.6 NME
- 4.1 Berlin Cures Holding AG Dilated Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.2 Celixir Ltd Dilated Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.3 Cumberland Pharmaceuticals Dilated Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.4 Heartseed Inc Dilated Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.5 Martin Pharmaceuticals Inc Dilated Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.6 MyoKardia In Dilated Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.7 Pfizer Inc Dilated Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.8 Renovacor Inc Dilated Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.9 Shionogi & Co Ltd Dilated Cardiomyopathy Pipeline Insights and Clinical Trials

### **5. DILATED CARDIOMYOPATHY MARKET NEWS AND UPDATES**

## 6. APPENDIX

6.1 Sources and Methodology

6.2 Contact Information

## I would like to order

Product name: Dilated Cardiomyopathy pipeline Research Monitor, 2020- Drugs, Companies, Clinical Trials, R&D pipeline updates, status and outlook

Product link: <https://marketpublishers.com/r/D3877644D17EEN.html>

Price: US\$ 1,599.00 (Single User License / Electronic Delivery)
