Abstracts

In this year's "E-Grocery Market Size Outlook and Opportunities in the post-pandemic world- Global E-Grocery Industry Trends, Growth Strategies, Market Shares, Companies, and Forecasts for countries" report, we examine the growth opportunities in the E-Grocery industry from 2022 to 2030 and key strategies for companies to boost their market shares. The E-Grocery market report highlights opportunities available in the post-pandemic era and how companies might be able to achieve them.

E-Grocery Market Overview, 2022

The global E-Grocery market is identified as one of the high prospect markets in the post-pandemic future. Consumers across the income spectrums are exhibiting strong optimism and spending, driving up E-Grocery sales in 2022. In particular, the year 2022 is enabling E-Grocery companies to widen their product portfolio as increasing consumer demand is observed across developed and developing markets.

Global E-Grocery Market Segment Analysis and Outlook

The report analyzes the global and regional E-Grocery markets across diverse segments to present insights into the most potential categories. To enable readers to understand most potential segments for investment in the long-term and short-term future across different markets, the report presents the E-Grocery market analysis by types, E-Grocery market analysis by applications, E-Grocery market outlook by end-user, and E-Grocery market outlook by geography.

Global E-Grocery Market Trends, Drivers, Challenges, and Opportunities

Top E-Grocery Market Trends for the next ten years to 2030- The global E-Grocery market is undergoing a period of unprecedented demand and interest with consumption patterns evolving rapidly by geography. As companies aim for creating value through long-term strategy, the report presents a detailed analysis of short-term and long-term trends set to shape the future of the global E-Grocery markets.

Key Market Drivers shaping the future of E-Grocery Markets- To enable companies to unlock new avenues for sustainable profitable growth, the report presents detailed insights into the key driving forces shaping the future of the global E-Grocery industry.

Further, recent industry changes illustrate the growth in E-Grocery that has brought disruption. To stay at the forefront of the industry, understanding these challenges and overcoming them remains vital. The report identifies the current challenges and needs in the E-Grocery markets.

E-Grocery Market Size Outlook in Post-COVID-19: Implications for Companies

The report analyzes the changes in the industry brought about by the COVID-19 Pandemic and presents the E-Grocery market outlook across three case scenarios.

The majority of the E-Grocery companies reacted to COVID-19 through disciplined cost management, improving operational efficiency, product innovation, brand building, digitalization, and sustainability initiatives. Robust mitigation and adaptation plan to improve supply chain resilience were widely observed.

With a robust market outlook from 2022 to 2030, companies are focusing on scaling direct access to consumers and investing in personalization in their marketing activities to achieve greater engagement and loyalty.

Further, the long-term E-Grocery market size outlook also considers the impact of the Russia-Ukraine war, possible looming global recession, trade issues between the US and China, the possibility of new virus variants, and other conditions.

North America E-Grocery Market Size and Market Share Outlook to 2030

The report analyzes the current status and North American E-Grocery market outlook to 2030. Leading market types, applications, and potential countries in North America are analyzed in the report. Further, the E-Grocery market size forecasts are provided for the United States (the US), Canada, and Mexico countries in the report.

Europe E-Grocery Market Size and Market Share Outlook to 2030

Western European countries of Germany, France, Spain, the United Kingdom (the UK), and Italy contribute significantly to the global E-Grocery market size in 2022. In addition, the Rest of the Europe countries also present a robust growth outlook with improving macroeconomic conditions, and companies expanding their operations in these countries.

Asia Pacific E-Grocery Market Size and Market Share Outlook to 2030

Emerging countries in the Asia Pacific remain the most potential growth markets for companies planning business expansions. Rapid urbanization, increasing disposable incomes, consumer spending increases, and the launch of new products shape the future of E-Grocery markets in Asia Pacific countries. The report analyzes China, India, Japan, and South Korea markets and the Rest of Asia Pacific countries including their market size in 2022 and forecast to 2030.

The Middle East and Africa E-Grocery Market Size and Market Share Outlook to 2030

The landscape of the Middle East economy is shifting as consumer preferences continue to emerge. The E-Grocery report assesses the potential market size of the Middle East market and its growth outlook to 2030. Among countries, Saudi Arabia, United Arab Emirates (The UAE), and other Middle East markets are analyzed in the report.

The Africa E-Grocery industry continues to offer exciting opportunities to build large, profitable businesses for companies launching products to cater to domestic consumers. The report presents the current status and outlook of Egypt, South Africa, and other countries through 2030.

Leading E-Grocery Company Profiles and Business Strategies

Emerging E-Grocery market competition is increasing as more companies are strengthening their operations and targeting wide customer segments. As companies can gain an advantage from anticipating their competitors' strategic moves, the E-Grocery report presents key insights into competitor profiles, their strategies, product profiles, financial profiles, and other information.

Critical Success Factors such as innovating new products, delivering innovations quickly, and scaling them across brands, categories, and geographies, using data and technology to unlock efficiencies and growth opportunities are widely observed in the E-Grocery industry.

The E-Grocery market intelligence report analyzes the leading five companies in the

industry. We analyze over 15 companies but present the five players in the multi-client study. Customers can opt for free customization by requesting their preferred competitor profiles.
