Global Edible Peanut Oil and Soybean Oil Market Size is valued at \$134.5 Billion in 2024 and is forecast to register a growth rate (CAGR) of 4.9% to reach \$197.2 Billion by 2032.

The edible peanut oil and soybean oil market is poised for growth as health-conscious consumers seek healthier cooking oils. Over the forecast period, the trend towards plant-based diets will drive demand for peanut and soybean oils, known for their beneficial fatty acid profiles and versatility in various cuisines. The rise in home cooking and baking, spurred by the pandemic, will further increase consumption, while the focus on sustainable agriculture and non-GMO products will influence purchasing decisions. Additionally, innovations in oil extraction and processing will enhance product quality, making these oils more appealing to health-conscious consumers.

Edible Peanut Oil and Soybean Oil Market Drivers, Trends, Opportunities, and Growth Opportunities

The comprehensive report presents unique market trends and challenges shaping the outlook for industry stakeholders. The Future of Edible Peanut Oil and Soybean Oil survey report provides the market size outlook across types, applications, and segments globally and regionally. It also offers data-driven insights and actionable recommendations for companies in the Edible Peanut Oil and Soybean Oil industry.

Key market trends defining the global Edible Peanut Oil and Soybean Oil demand in 2025 and Beyond

The Edible Peanut Oil and Soybean Oil industry remains an attractive hub for both domestic and global vendors. As we enter 2025, demand from end-user sectors, changes in consumption patterns, new product launches, and widening distribution channels will play major roles.

Edible Peanut Oil and Soybean Oil Market Segmentation- Industry Share, Market Size, and Outlook to 2032

Rising demand for diverse products and applications fuels the increased investments in niche segments. Leading companies focus on generating a large share of their future revenue growth by expanding into these niche segments. The report presents a market size outlook across segments, supporting companies scaling up production with a focus on potential countries.

Key strategies adopted by companies within the Edible Peanut Oil and Soybean Oil industry

Leading Edible Peanut Oil and Soybean Oil companies are boosting investments to capitalize on untapped potential and future possibilities across niche market segments and surging demand conditions. In particular, companies that leverage advanced technologies to achieve operational excellence are set to gain significant revenues. The report details the key strategies adopted by the top 10 Edible Peanut Oil and Soybean Oil companies.
