Abstracts

The global Emergency Department Information System market size is poised to register 15.8% growth from 2024 to 2032, presenting significant growth prospects for companies operating in the industry. The industry study analyzes the global Emergency Department Information System market across By Application (Computerized Physician Order Entry (CPOE), Clinical Documentation, Patient Tracking & Triage, E-Prescribing, Others), By Deployment (On-Premises, Software-As-A-Services (SaaS)), By Software (Enterprise Solutions, Best of Breed (B.O.B.) Solutions), By End-User (Small Hospitals, Mid-sized Hospitals, Large Hospitals)

The emergency department information system (EDIS) market is characterized by the increasing demand for integrated and interoperable healthcare IT solutions, advancements in electronic health records (EHR) and clinical decision support systems (CDSS), and the growing emphasis on patient flow optimization and emergency care quality improvement. By 2030, the market is poised to witness steady growth, driven by

innovations in EDIS software platforms, triage algorithms, and telemedicine integration. Further, expanding applications in emergency medical services (EMS), disaster response, and public health surveillance are expected to drive market expansion, enabling emergency physicians, nurses, and paramedics to streamline workflows, enhance patient safety, and improve clinical outcomes through EDIS solutions that offer real-time data access, decision support, and communication tools for efficient and coordinated emergency care delivery in hospital emergency departments and prehospital settings.

Emergency Department Information System Market Drivers, Trends, Opportunities, and Growth Opportunities

This comprehensive study discusses the latest trends and the most pressing challenges for industry players and investors. The Emergency Department Information System market research analyses the global market trends, key drivers, challenges, and opportunities in the industry. In addition, the latest Future of Emergency Department Information System survey report provides the market size outlook across types, applications, and other segments across the world and regions. It provides data-driven insights and actionable recommendations for companies in the Emergency Department Information System industry.

Key market trends defining the global Emergency Department Information System demand in 2024 and Beyond

The industry continues to remain an attractive hub for opportunities for both domestic and global vendors. As the market evolves, factors such as emerging market dynamics, demand from end-user sectors, a growing patient base, changes in consumption patterns, and widening distribution channels continue to play a major role.

Emergency Department Information System Market Segmentation- Industry Share, Market Size, and Outlook to 2032

The Emergency Department Information System industry comprises a wide range of segments and sub-segments. The rising demand for these product types and applications is supporting companies to increase their investment levels across niche segments. Accordingly, leading companies plan to generate a large share of their future revenue growth from expansion into these niche segments. The report presents the market size outlook across segments to support Emergency Department Information System companies scaling up production in these sub-segments with a focus on

expanding into emerging countries.

Key strategies adopted by companies within the Emergency Department Information System industry

Leading Emergency Department Information System companies are boosting investments to capitalize on untapped potential and future possibilities across niche market segments and surging demand conditions in key regions. Further, companies are leveraging advanced technologies to unlock opportunities and achieve operational excellence. The report provides key strategies opted for by the top 10 Emergency Department Information System companies.

Emergency Department Information System Market Study- Strategic Analysis Review

The Emergency Department Information System market research report dives deep into the qualitative factors shaping the market, empowering you to make informed decisions-

Industry Dynamics: Porter's Five Forces analysis to understand bargaining power, competitive rivalry, and threats that impact long-term strategy formulation.

Strategic Insights: Provides valuable perspectives on key players and their approaches based on comprehensive strategy analysis.

Internal Strengths and Weaknesses: Develop targeted strategies to leverage strengths, address weaknesses, and capitalize on market opportunities.

Future Possibilities: Prepare for diverse outcomes with in-depth scenario analysis. Explore potential market disruptions, technology advancements, and economic changes.

Emergency Department Information System Market Size Outlook- Historic and Forecast Revenue in Three Cases

The Emergency Department Information System industry report provides a detailed analysis and outlook of revenue generated by companies from 2018 to 2023. Further, with actual data for 2023, the report forecasts the market size outlook from 2024 to 2032 in three case scenarios- low case, reference case, and high case scenarios.

Emergency Department Information System Country Analysis and Revenue Outlook to 2032

The report analyses 22 countries worldwide including the key driving forces and market size outlook from 2021 to 2032. In addition, region analysis across Asia Pacific, Europe, the Middle East, Africa, North America, and South America is included in the study. For each of the six regions, the market size outlook by segments is forecast for 2032.

North America Emergency Department Information System Market Size Outlook- Companies plan for focused investments in a changing environment

The US continues to remain the market leader in North America, driven by a large consumer base, the presence of well-established providers, and a strong healthcare infrastructure. Leading companies focus on new product launches in the changing environment. The US healthcare expenditure is expected to grow to \$4.8 trillion in 2024 (around 3.7% growth in 2024), potentially driving demand for various Emergency Department Information System market segments. Similarly, Strong market demand is encouraging Canadian Emergency Department Information System companies to invest in niche segments. Further, as Mexico continues to strengthen its relations and invest in technological advancements, the Mexico Emergency Department Information System market is expected to experience significant expansion, offering lucrative opportunities for both domestic and international stakeholders.

Europe Emergency Department Information System Market Size Outlook-Companies investing in assessing consumers, categories, competitors, and capabilities

The German industry remains the major market for companies in the European Emergency Department Information System industry with consumers in Germany, France, the UK, Spain, Italy, and others anticipated to register a steady demand throughout the forecast period, driving the overall market prospects. In addition, the proactive approach of vendors in identifying and leveraging new growth prospects positions the European Emergency Department Information System market for an upward trajectory, fostering both domestic and international interest. Leading brands operating in the industry are emphasizing effective marketing strategies, innovative product offerings, and a keen understanding of consumer preferences.

Asia Pacific Emergency Department Information System Market Size Outlook- an attractive hub for opportunities for both local and global companies

The increasing prevalence of indications, robust healthcare expenditure, and increasing investments in healthcare infrastructure drive the demand for Emergency Department Information System in Asia Pacific. In particular, China, India, and South East Asian Emergency Department Information System markets present a compelling outlook for 2032, acting as a magnet for both domestic and multinational vendors seeking growth opportunities. Similarly, with a burgeoning population and a rising middle class, India offers a vast consumer market. Japanese and Korean companies are quickly aligning their strategies to navigate changes, explore new markets, and enhance their competitive edge. Our report utilizes in-depth interviews with industry experts and comprehensive data analysis to provide a comprehensive outlook of 6 major countries in the APAC region.

Latin America Emergency Department Information System Market Size Outlook- Continued urbanization and rising income levels

Rising income levels contribute to greater purchasing power among consumers, spurring consumption and creating opportunities for market expansion. Continued urbanization and rising income levels are expected to sustainably drive consumption growth in the medium to long term.

Middle East and Africa Emergency Department Information System Market Size Outlook- continues its upward trajectory across segments

Robust demand from Middle Eastern countries including Saudi Arabia, the UAE, Qatar, Kuwait, and other GCC countries supports the overall Middle East Emergency Department Information System market potential. Fueled by increasing healthcare expenditure of individuals, growing population, and high prevalence across a few markets drives the demand for Emergency Department Information System.

Emergency Department Information System Market Company Profiles

The global Emergency Department Information System market is characterized by intense competitive conditions with leading companies opting for aggressive marketing to gain market shares. The report presents business descriptions, SWOT analysis, growth strategies, and financial profiles. Leading companies included in the study are Cerner Corp, EMIS Group plc, Epic Systems Corp, Evident (CPSI Company), Logibec Inc, MEDHOST LLC, Medical Information Technology Inc (MEDITECH), Medsphere Systems Corp, The T System Inc, Veradigm LLC.

Recent Emergency Department Information System Market Developments

The global Emergency Department Information System market study presents recent market news and developments including new product launches, mergers, acquisitions, expansions, product approvals, and other updates in the industry.

Emergency Department Information System Market Report Scope

Parameters: Revenue, Volume Price

Study Period: 2023 (Base Year); 2018- 2023 (Historic Period); 2024- 2032 (Forecast Period)

Contents

1. EXECUTIVE SUMMARY

- 1.1 Emergency Department Information System Market Overview and Key Findings, 2024
- 1.2 Emergency Department Information System Market Size and Growth Outlook, 2021-2030
- 1.3 Emergency Department Information System Market Growth Opportunities to 2030
- 1.4 Key Emergency Department Information System Market Trends and Challenges
 - 1.4.1 Emergency Department Information System Market Drivers and Trends
 - 1.4.2 Emergency Department Information System Market Challenges
- 1.5 Competitive Landscape and Key Players
- 1.6 Competitive Analysis- Growth Strategies Adopted by Leading Emergency Department Information System Companies

2. EMERGENCY DEPARTMENT INFORMATION SYSTEM MARKET SIZE OUTLOOK TO 2030

- 2.1 Emergency Department Information System Market Size Outlook, USD Million, 2021- 2030
- 2.2 Emergency Department Information System Incremental Market Growth Outlook, %, 2021- 2030
- 2.3 Segment Snapshot, 2024

3. EMERGENCY DEPARTMENT INFORMATION SYSTEM MARKET- STRATEGIC ANALYSIS REVIEW

- 3.1 Porter's Five Forces Analysis
 - * Threat of New Entrants
 - * Threat of Substitutes
 - * Intensity of Competitive Rivalry
 - * Bargaining Power of Buyers
 - * Bargaining Power of Suppliers
- 3.2 Value Chain Analysis
- 3.3 SWOT Analysis

4. EMERGENCY DEPARTMENT INFORMATION SYSTEM MARKET SEGMENTATION ANALYSIS AND OUTLOOK

4.1 Market Segmentation and Scope

4.2 Market Breakdown by Type, Application, and Other Segments, 2021-2030

By Application

Computerized Physician Order Entry (CPOE)

Clinical Documentation

Patient Tracking & Triage

E-Prescribing

Others

By Deployment

On-Premises

Software-As-A-Services (SaaS)

By Software

Enterprise Solutions

Best of Breed (B.O.B.) Solutions

By End-User

Small Hospitals

Mid-sized Hospitals

Large Hospitals

4.3 Growth Prospects and Niche Opportunities, 2023- 2030

4.4 Regional comparison of Market Growth, CAGR, 2023-2030

5. REGION-WISE MARKET OUTLOOK TO 2030

5.1 Key Findings for Asia Pacific Emergency Department Information System Market, 2025

5.2 Asia Pacific Emergency Department Information System Market Size Outlook by Type, 2021- 2030

5.3 Asia Pacific Emergency Department Information System Market Size Outlook by Application, 2021- 2030

5.4 Key Findings for Europe Emergency Department Information System Market, 2025

5.5 Europe Emergency Department Information System Market Size Outlook by Type, 2021- 2030

5.6 Europe Emergency Department Information System Market Size Outlook by Application, 2021- 2030

5.7 Key Findings for North America Emergency Department Information System Market, 2025

5.8 North America Emergency Department Information System Market Size Outlook by Type, 2021- 2030

5.9 North America Emergency Department Information System Market Size Outlook by Application, 2021- 2030

5.10 Key Findings for South America Emergency Department Information System Market, 2025

5.11 South America Pacific Emergency Department Information System Market Size Outlook by Type, 2021- 2030

5.12 South America Emergency Department Information System Market Size Outlook by Application, 2021- 2030

5.13 Key Findings for Middle East and Africa Emergency Department Information System Market, 2025

5.14 Middle East Africa Emergency Department Information System Market Size Outlook by Type, 2021- 2030

5.15 Middle East Africa Emergency Department Information System Market Size Outlook by Application, 2021- 2030

6. COUNTRY-WISE MARKET SIZE OUTLOOK TO 2030

6.1 US Emergency Department Information System Market Size Outlook and Revenue Growth Forecasts

6.2 US Emergency Department Information System Industry Drivers and Opportunities

6.3 Canada Market Size Outlook and Revenue Growth Forecasts

6.4 Canada Emergency Department Information System Industry Drivers and Opportunities

6.6 Mexico Market Size Outlook and Revenue Growth Forecasts

6.6 Mexico Emergency Department Information System Industry Drivers and Opportunities

6.7 Germany Market Size Outlook and Revenue Growth Forecasts

6.8 Germany Emergency Department Information System Industry Drivers and Opportunities

6.9 France Market Size Outlook and Revenue Growth Forecasts

6.10 France Emergency Department Information System Industry Drivers and Opportunities

6.11 UK Market Size Outlook and Revenue Growth Forecasts

6.12 UK Emergency Department Information System Industry Drivers and Opportunities

6.13 Spain Market Size Outlook and Revenue Growth Forecasts

6.14 Spain Emergency Department Information System Industry Drivers and Opportunities

6.16 Italy Market Size Outlook and Revenue Growth Forecasts

6.16 Italy Emergency Department Information System Industry Drivers and

Opportunities

6.17 Rest of Europe Market Size Outlook and Revenue Growth Forecasts

6.18 Rest of Europe Emergency Department Information System Industry Drivers and Opportunities

6.19 China Market Size Outlook and Revenue Growth Forecasts

6.20 China Emergency Department Information System Industry Drivers and Opportunities

6.21 India Market Size Outlook and Revenue Growth Forecasts

6.22 India Emergency Department Information System Industry Drivers and Opportunities

6.23 Japan Market Size Outlook and Revenue Growth Forecasts

6.24 Japan Emergency Department Information System Industry Drivers and Opportunities

6.26 South Korea Market Size Outlook and Revenue Growth Forecasts

6.26 South Korea Emergency Department Information System Industry Drivers and Opportunities

6.27 Australia Market Size Outlook and Revenue Growth Forecasts

6.28 Australia Emergency Department Information System Industry Drivers and Opportunities

6.29 South East Asia Market Size Outlook and Revenue Growth Forecasts

6.30 South East Asia Emergency Department Information System Industry Drivers and Opportunities

6.31 Rest of Asia Pacific Market Size Outlook and Revenue Growth Forecasts

6.32 Rest of Asia Pacific Emergency Department Information System Industry Drivers and Opportunities

6.33 Brazil Market Size Outlook and Revenue Growth Forecasts

6.34 Brazil Emergency Department Information System Industry Drivers and Opportunities

6.36 Argentina Market Size Outlook and Revenue Growth Forecasts

6.36 Argentina Emergency Department Information System Industry Drivers and Opportunities

6.37 Rest of South America Market Size Outlook and Revenue Growth Forecasts

6.38 Rest of South America Emergency Department Information System Industry Drivers and Opportunities

6.39 Middle East Market Size Outlook and Revenue Growth Forecasts

6.40 Middle East Emergency Department Information System Industry Drivers and Opportunities

6.41 Africa Market Size Outlook and Revenue Growth Forecasts

6.42 Africa Emergency Department Information System Industry Drivers and

Opportunities

7. EMERGENCY DEPARTMENT INFORMATION SYSTEM MARKET OUTLOOK ACROSS SCENARIOS

7.1 Low Growth Case

7.2 Reference Growth Case

7.3 High Growth Case

8. EMERGENCY DEPARTMENT INFORMATION SYSTEM COMPANY PROFILES

8.1 Profiles of Leading Emergency Department Information System Companies in the Market

8.2 Business Descriptions, SWOT Analysis, and Growth Strategies

8.3 Financial Performance and Key Metrics

Cerner Corp

EMIS Group plc
