Market Dynamics- Impact Analysis and Post-COVID Outlook of Equestrian Products and Supplies Industry

Optimistic economic conditions are observed in H2-2023 across multiple scenarios. The current edition of the Equestrian Products and Supplies Market Study identifies brighter views for 2023 and an increasingly optimistic global outlook over the forecast period.

However, the market is also constrained by challenges of geopolitical instability and conflicts with the Russia-Ukraine war and inflation conditions in the US and other markets, and rising interest rates continue to restrain the market growth prospects.

The four case scenarios considered for countries in the study are -

Sluggish economic growth, with emphasis on savings and low expenditure

Despite growth fluctuations, consumer confidence remains robust and gains continue for companies

Investments in technology deployment and productive investments

Stronger consumer demand and higher investments supporting solid growth

Equestrian Products and Supplies Market Trends- Emerging markets present strong growth prospects

According to the World Bank, over 85% of the world's population lives in the Asia Pacific, the Middle East and Africa (MEA), or South America. An increasing volume of companies are expanding their production and marketing bases to these countries as the consumption power of individuals continues to strengthen.

Several new market entrants are targeting niche economically attractive Equestrian Products and Supplies segments when expanding into these markets. We anticipate the Equestrian Products and Supplies sales growth in developing countries to continue to accelerate rapidly over the forecast period.
