## Abstracts

The global Gastroenterology Ambulatory Surgery Center market size is poised to register 7.6% growth from 2024 to 2032, presenting significant growth prospects for companies operating in the industry. The industry study analyzes the global Gastroenterology Ambulatory Surgery Center market across By Service (Diagnostic Services, Surgical Services), By Ownership (Hospital-Affiliated, Freestanding, Others)

The gastroenterology ambulatory surgery center (ASC) market is experiencing significant growth driven by increasing demand for outpatient procedures, advancements in endoscopic techniques, and rising prevalence of gastrointestinal disorders. Gastrointestinal ASCs offer specialized facilities equipped with state-of-the-art endoscopy suites, diagnostic imaging technologies, and minimally invasive surgical equipment, catering to the growing needs of patients and providers for high-quality, cost-effective gastrointestinal care. With the shift towards value-based healthcare models, patient convenience, and same-day surgery options, there is a rising trend towards ambulatory surgery centers for gastrointestinal procedures such as colonoscopy, gastroscopy, and endoscopic retrograde cholangiopancreatography (ERCP). Further, the integration of telemedicine, remote monitoring, and digital health platforms is enhancing care coordination, patient engagement, and outcomes tracking in gastroenterology ASCs, driving market growth and innovation towards 2030.
