Key insights from the Global Acetic Anhydride Market-

The Global Acetic Anhydride market is valued at \$5.6 billion in 2020

Cellulose Acetate is the largest Application for Acetic Anhydride

IC manufacturing is the dominant global applications

North America is the largest market for Acetic Anhydride

The \$5.6 billion Acetic Anhydride industry presents strong investment and growth opportunities over the near to long term outlook period. The 2020 edition of the market report presents a comprehensive analysis of the global Acetic Anhydride market from 2020 to 2028. The Acetic Anhydride market research report presents detailed Acetic Anhydride market analysis, and forecasts to 2028. Detailed insights into global and regional Acetic Anhydride market statistics, Acetic Anhydride companies and growth prospects across verticals are included.

Acetic Anhydride Market Overview and Developments in 2020

The report presents a snapshot of recent market trends in the Acetic Anhydride industry. Further, potential market drivers, major challenges, opportunities, major

developments, competitive strategies, porter's five forces analysis, and other analysis are included in the research.

Impact of COVID-19 on Global Acetic Anhydride market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Acetic Anhydride manufacturers and vendors. However, we expect the negative impact of COVID-19 on Acetic Anhydride to be compensated over the medium to long term future.

Acetic Anhydride Market Share and Outlook by End-User Industry to 2028

The research suggests that there is a strong case for the development of new applications of Acetic Anhydride worldwide. Different application segments analyzed in the report are Cellulose Acetate, Pharmaceuticals, TAED (tetraacetylenediamine), Polytetramethylene Ether Glycol (PTMEG). The study identifies that Cellulose Acetate application has the most substantial value-creation potential.

Global Acetic Anhydride Company Profiles

The report presents business profiles of major companies operating in the industry including BP Plc, BASF SE, Celanese Corporation, China National Petroleum Corporation, DuPont, Eastman Chemical Company.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth. Manufacturing companies can also benefit from rising domestic demand in chemical end-use sectors. The majority of the companies are realigning their strategies to orient their business operations to changing market volatility, regulatory policy changes, geopolitical issues, changing end-user preferences, and others.

Sources and Methodology

The data and analysis presented in this report are sourced from a wide range of sources such as associations, manufacturers, suppliers, distributors, consumer companies, and government sources.

Scope of the research

Global and regional Acetic Anhydride Market Size estimates in revenue terms from 2019 to 2028

Segmentation analysis across types, applications, and geographies

Strategic analysis through trends, drivers, challenges, opportunities, porter's five forces analysis

Market Developments including M&A, new product development, and competitive analysis

Potential strategies of leading companies
