Abstracts

Key insights from the Global Acrylonitrile Butadiene Styrene Market-

The Global Acrylonitrile Butadiene Styrene market is valued at \$30.4 billion in 2020

Automotive and Transportation is the largest Application for Acrylonitrile Butadiene Styrene

Asia Pacific is the largest market for Acrylonitrile Butadiene Styrene

The \$30.4 billion Acrylonitrile Butadiene Styrene industry presents strong investment and growth opportunities over the near to long term outlook period. The 2020 edition of the market report presents a comprehensive analysis of the global Acrylonitrile Butadiene Styrene market from 2020 to 2028. The Acrylonitrile Butadiene Styrene market research report presents detailed Acrylonitrile Butadiene Styrene market analysis, and forecasts to 2028. Detailed insights into global and regional Acrylonitrile Butadiene Styrene market statistics, Acrylonitrile Butadiene Styrene companies and growth prospects across verticals are included.

Acrylonitrile Butadiene Styrene Market Overview and Developments in 2020

The report presents a snapshot of recent market trends in the Acrylonitrile Butadiene

Styrene industry. Further, potential market drivers, major challenges, opportunities, major developments, competitive strategies, porter's five forces analysis, and other analysis are included in the research.

Impact of COVID-19 on Global Acrylonitrile Butadiene Styrene market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Acrylonitrile Butadiene Styrene manufacturers and vendors. However, we expect the negative impact of COVID-19 on Acrylonitrile Butadiene Styrene to be compensated over the medium to long term future.

Acrylonitrile Butadiene Styrene Market Size and Outlook by application to 2028

This chapter presents an insight into different Acrylonitrile Butadiene Styrene applications and their contribution to global market growth. The growth in global Acrylonitrile Butadiene Styrene market size is forecast to continue despite the economic challenges. The report forecasts the Acrylonitrile Butadiene Styrene market revenue across different applications, which include- Automotive and Transportation, Consumer Goods, Electrical and Electronics, Appliances, Construction, and Others. Of these, Automotive dominates the global Acrylonitrile Butadiene Styrene market.

Global Acrylonitrile Butadiene Styrene Company Profiles

The report presents business profiles of major companies operating in the industry including LG Chemicals, BASF SE, SABIC Corporation, Asahi Kasei Corporation, Chi Mei Corporation, Formosa Plastics.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth. Manufacturing companies can also benefit from rising domestic demand in chemical end-use sectors. The majority of the companies are realigning their strategies to orient their business operations to changing market volatility, regulatory policy changes, geopolitical issues, changing end-user preferences, and others.

Sources and Methodology

The data and analysis presented in this report are sourced from a wide range of sources such as associations, manufacturers, suppliers, distributors, consumer companies, and government sources.

Scope of the research

Global and regional Acrylonitrile Butadiene Styrene Market Size estimates in revenue terms from 2019 to 2028

Segmentation analysis across types, applications, and geographies

Strategic analysis through trends, drivers, challenges, opportunities, porter's five forces analysis

Market Developments including M&A, new product development, and competitive analysis

Potential strategies of leading companies
