Impact of COVID-19 on Global Agricultural Inoculants market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Agricultural Inoculants manufacturers and vendors. However, we expect the negative impact of COVID-19 on Agricultural Inoculants to be compensated over the medium to long term future.

Agricultural Inoculants Market Size and Outlook by Type to 2028

A long-term perspective indicates that Seed Inoculation dominates the Agricultural Inoculants market. The industry is classified into different types including Seed Inoculation, Soil Inoculation, and others.

Global Agricultural Inoculants Company Profiles

The report presents business profiles of major companies operating in the industry including Corteva Inc, Syngenta AG, BASF SE, Novozymes AS, Bayer AG, and Advanced Biological Marketing Inc.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth.
