Benzene Market Overview and Developments in 2020

The report presents a snapshot of recent market trends in the Benzene industry. Further, potential market drivers, major challenges, opportunities, major developments, competitive strategies, porter's five forces analysis, and other analysis are included in the research.

Impact of COVID-19 on Global Benzene market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Benzene manufacturers and vendors. However, we expect the negative impact of COVID-19 on Benzene to be compensated over the medium to long term future.

Benzene Market Size and Outlook by Intermediate Product to 2028

This chapter presents an insight into different Benzene types and their contribution to global market growth. The growth in global Benzene market size is forecast to continue despite the economic challenges. The report forecasts the Benzene market revenue across different Intermediate Products, which include- Ethylbenzene, Cumene, Cyclohexane, Nitrobenzene, Linear alkylbenzene, Maleic Anhydride, and Others. Of these, Ethylbenzene dominates the global Benzene market.

Global Benzene Company Profiles

The report presents business profiles of major companies operating in the industry including BASF SE, BP Plc, China National Petroleum Corporation, ExxonMobil Corporation, Royal Dutch shell Plc, Total SA.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth.
