Key insights from the Global Bio based Propylene Glycol Market-

The Global Bio based Propylene Glycol market is valued at \$0.6 billion in 2020

Unsaturated polyester resins are the dominant type in Bio-based propylene glycol

North America is the largest user of Bio-based propylene glycol

The \$0.6 billion Bio based Propylene Glycol industry presents strong investment and growth opportunities over the near to long term outlook period. The 2020 edition of the market report presents a comprehensive analysis of the global Bio based Propylene Glycol market from 2020 to 2028. The Bio based Propylene Glycol market research report presents detailed Bio based Propylene Glycol market analysis, and forecasts to 2028. Detailed insights into global and regional Bio based Propylene Glycol market statistics, Bio based Propylene Glycol companies and growth prospects across verticals are included.

Bio based Propylene Glycol Market Overview and Developments in 2020

The report presents a snapshot of recent market trends in the Bio based Propylene Glycol industry. Further, potential market drivers, major challenges, opportunities, major developments, competitive strategies, porter's five forces analysis, and other analysis are included in the research.

Impact of COVID-19 on Global Bio based Propylene Glycol market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Bio based Propylene Glycol manufacturers and vendors. However, we expect the negative impact of COVID-19 on Bio based Propylene Glycol to be compensated over the medium to long term future.

Bio based Propylene Glycol Market Share and Outlook by End-User Industry to 2028

The research suggests that there is a strong case for the development of new applications of Bio based Propylene Glycol worldwide. Different application segments analyzed in the report are Unsaturated polyester resins, Functional fluids, Pharmaceuticals, Cosmetics, Food and Beverages industry, Detergents, Others. The study identifies that Unsaturated polyester resins application has the most substantial value-creation potential.

Global Bio based Propylene Glycol Company Profiles

The report presents business profiles of major companies operating in the industry including The DOW Chemical Company, Lyondell Basell Industries N.V., Archer Daniels Midland Company, BASF SE, Huntsman Corporation, DuPont, Royal Dutch Shell Plc.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth. Manufacturing companies can also benefit from rising domestic demand in chemical end-use sectors. The majority of the companies are realigning their strategies to orient their business operations to changing market volatility, regulatory policy changes, geopolitical issues, changing end-user preferences, and others.

Sources and Methodology

The data and analysis presented in this report are sourced from a wide range of sources such as associations, manufacturers, suppliers, distributors, consumer companies, and government sources.

Scope of the research

Global and regional Bio based Propylene Glycol Market Size estimates in revenue terms from 2019 to 2028

Segmentation analysis across types, applications, and geographies

Strategic analysis through trends, drivers, challenges, opportunities, porter's five forces analysis

Market Developments including M&A, new product development, and competitive analysis

Potential strategies of leading companies
