Abstracts

Key insights from the Global Bio-ketones Market-

The Global Bio-ketones market is valued at \$12 billion in 2020

Paints and Coatings are the dominant users for Bio-Ketones

North America is the largest user of Bio-Ketones

The \$12 billion Bio-ketones industry presents strong investment and growth opportunities over the near to long term outlook period. The 2020 edition of the market report presents a comprehensive analysis of the global Bio-ketones market from 2020 to 2028. The Bio-ketones market research report presents detailed Bio-ketones market analysis, and forecasts to 2028. Detailed insights into global and regional Bio-ketones market statistics, Bio-ketones companies and growth prospects across verticals are included.

Bio-ketones Market Overview and Developments in 2020

The report presents a snapshot of recent market trends in the Bio-ketones industry. Further, potential market drivers, major challenges, opportunities, major developments, competitive strategies, porter's five forces analysis, and other analysis are included in the research.

Impact of COVID-19 on Global Bio-ketones market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Bio-ketones manufacturers and vendors. However, we expect the negative impact of COVID-19 on Bio-ketones to be compensated over the medium to long term future.

Bio-ketones Market Size and Outlook by type to 2028

This chapter presents an insight into different Bio-ketones types and their contribution to global market growth. The growth in global Bio-ketones market size is forecast to continue despite the economic challenges. The report forecasts the Bio-ketones market revenue across different types, which include- Bio-MEK, Bio-PEEK, Bio-acetone, and Others.

Bio-ketones Market Size and Outlook by Application to 2028

A long-term perspective indicates that Paints and Coatings dominate the Bio-ketones market. The industry is classified into different Applications including Paints and Coatings, Aerospace, Automotive, Construction, Others.

Global Bio-ketones Company Profiles

The report presents business profiles of major companies operating in the industry including Fitz Chem LLC, Solvay, BASF SE, Eastman Chemicals, Sigma-Aldrich Co. LLC, Genomatica.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth. Manufacturing companies can also benefit from rising domestic demand in chemical end-use sectors. The majority of the companies are realigning their strategies to orient their business operations to changing market volatility, regulatory policy changes, geopolitical issues, changing end-user preferences, and others.

Sources and Methodology

The data and analysis presented in this report are sourced from a wide range of sources such as associations, manufacturers, suppliers, distributors, consumer companies, and government sources.

Scope of the research

Global and regional Bio-ketones Market Size estimates in revenue terms from 2019 to 2028

Segmentation analysis across types, applications, and geographies

Strategic analysis through trends, drivers, challenges, opportunities, porter's five forces analysis

Market Developments including M&A, new product development, and competitive analysis

Potential strategies of leading companies
