Abstracts

Key insights from the Global Bio-polyamide Market-

The Global Bio-polyamide market is valued at \$0.2 billion in 2020

PA-6 and PA 66 are the dominant type among Bio polyamide

Industrial plastics are the dominant applications

Automotive is the largest application segment

Europe is the largest user of Bio polyamide

The \$0.2 billion Bio-polyamide industry presents strong investment and growth opportunities over the near to long term outlook period. The 2020 edition of the market report presents a comprehensive analysis of the global Bio-polyamide market from 2020 to 2028. The Bio-polyamide market research report presents detailed Bio-polyamide market analysis, and forecasts to 2028. Detailed insights into global and regional Bio-polyamide market statistics, Bio-polyamide companies and growth prospects across verticals are included.

Bio-polyamide Market Overview and Developments in 2020

The report presents a snapshot of recent market trends in the Bio-polyamide industry. Further, potential market drivers, major challenges, opportunities, major developments, competitive strategies, porter's five forces analysis, and other analysis are included in the research.

Impact of COVID-19 on Global Bio-polyamide market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Bio-polyamide manufacturers and vendors. However, we expect the negative impact of COVID-19 on Bio-polyamide to be compensated over the medium to long term future.

Bio-polyamide Market Size and Outlook by type to 2028

This chapter presents an insight into different Bio-polyamide types and their contribution to global market growth. The growth in global Bio-polyamide market size is forecast to continue despite the economic challenges. The report forecasts the Bio-polyamide market revenue across different types, which include- PA-6, PA-66, others.

Bio-polyamide Market Size and Outlook by Application to 2028

A long-term perspective indicates that Industrial plastics dominate the Bio-polyamide market. The industry is classified into different Applications including Industrial plastics, Fibers.

Bio-polyamide Market Share and Outlook by End-User Industry to 2028

The research suggests that there is a strong case for the development of new applications of Bio-polyamide worldwide. Different application segments analyzed in the report are Automotive, Textiles, Industrial goods, Films and coatings, Semiconductors and Electronics, Others. The study identifies that Automotive application has the most substantial value-creation potential.

Global Bio-polyamide Company Profiles

The report presents business profiles of major companies operating in the industry including Arkema, BASF SE, Evonik Industries, Honeywell, Royal DSM N.V.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth. Manufacturing companies can also benefit from rising domestic demand in chemical end-use sectors. The majority of the companies are realigning their strategies to orient their business operations to changing market volatility, regulatory policy changes, geopolitical issues, changing end-user preferences, and others.

Sources and Methodology

The data and analysis presented in this report are sourced from a wide range of sources such as associations, manufacturers, suppliers, distributors, consumer companies, and government sources.

Scope of the research

Global and regional Bio-polyamide Market Size estimates in revenue terms from 2019 to 2028

Segmentation analysis across types, applications, and geographies

Strategic analysis through trends, drivers, challenges, opportunities, porter's five forces analysis

Market Developments including M&A, new product development, and competitive analysis

Potential strategies of leading companies

Contents

1 TABLE OF CONTENTS

- 1.1 List of Tables
- 1.2 List of Figures

2. RESEARCH FRAMEWORK

- 2.1 Report Guidance
- 2.2 Market Segmentation
- 2.3 Research Methodology
 - 2.3.1 Assumptions of the Study
 - 2.3.2 Primary and Secondary Research
 - 2.3.2 Market Breakdown and Data Triangulation

3 INTRODUCTION TO BIO POLYAMIDE MARKET, 2020

- 3.1 Market Panorama
- 3.2 Overview

4 BIO POLYAMIDE INDUSTRY INSIGHTS

- 4.1 Drivers
- 4.2 Challenges
- 4.3 Opportunities
- 4.4 Porter's Five Forces Analysis
- 4.5 Leading Companies

5. EXECUTIVE SUMMARY

- 5.1 PA-6 and PA 66 are the dominant type among Bio polyamide
- 5.2 Industrial plastics are the dominant applications
- 5.3 Automotive is the largest application segment
- 5.4 Europe is the largest user of Bio polyamide

6 BIO POLYAMIDE MARKET SIZE AND OUTLOOK BY TYPE, 2019- 2028

- 6.1 PA-6

6.2 PA-66

6.3 Others

7 BIO POLYAMIDE MARKET SIZE AND OUTLOOK BY APPLICATION, 2019- 2028

7.1 Industrial plastics

7.2 Fibers

8 BIO POLYAMIDE MARKET SIZE AND OUTLOOK BY END USER, 2019- 2028

8.1 Automotive

8.2 Textiles

8.3 Industrial goods

8.4 Films and coatings

8.5 Semiconductors and Electronics

8.6 Others

9 BIO POLYAMIDE MARKET SIZE AND OUTLOOK BY REGION, 2019- 2028

9.1 Premium Insights

9.2 Asia Pacific Bio polyamide Market Outlook

9.3 Europe Bio polyamide Market Outlook

9.4 North America Bio polyamide Market Outlook

9.5 Middle East and Africa Bio polyamide Market Outlook

9.6 South and Central America Bio polyamide Market Outlook

10 COMPANY PROFILES

10.1 Arkema

10.2 BASF SE

10.3 Evonik Industries

10.4 Honeywell

10.5 Royal DSM N.V.

11. APPENDIX

11.1 About Publisher

11.2 Sources and Methodology
