Abstracts

Key insights from the Global Biofertilizers Market-

The Global Biofertilizers market is valued at \$1.9 billion in 2020

Seed treatment is the dominant use for Bio-fertilizers

Nitrogen-fixing bio-fertilizers are the largest types of bio-fertilizers

North America is the largest user of Bio-fertilizers

The \$1.9 billion Biofertilizers industry presents strong investment and growth opportunities over the near to long term outlook period. The 2020 edition of the market report presents a comprehensive analysis of the global Biofertilizers market from 2020 to 2028. The Biofertilizers market research report presents detailed Biofertilizers market analysis, and forecasts to 2028. Detailed insights into global and regional Biofertilizers market statistics, Biofertilizers companies and growth prospects across verticals are included.

Biofertilizers Market Overview and Developments in 2020

The report presents a snapshot of recent market trends in the Biofertilizers industry. Further, potential market drivers, major challenges, opportunities, major developments, competitive strategies, porter's five forces analysis, and other analysis are included in the research.

Impact of COVID-19 on Global Biofertilizers market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Biofertilizers manufacturers and vendors. However, we expect the negative impact of COVID-19 on Biofertilizers to be compensated over the medium to long term future.

Biofertilizers Market Size and Outlook by application to 2028

This chapter presents an insight into different Biofertilizers types and their contribution to global market growth. The growth in global Biofertilizers market size is forecast to continue despite the economic challenges. The report forecasts the Biofertilizers market revenue across different applications, which include- Soil Treatment, Seed Treatment. Of these, Seed treatment dominates the global Biofertilizers market.

Biofertilizers Market Size and Outlook by XX to 2028

A long-term perspective indicates that Nitrogen-fixing biofertilizers dominate the Biofertilizers market. The industry is classified into different types including Nitrogen-fixing biofertilizers, Phosphate solubilizing biofertilizers, Potash mobilizing biofertilizers, Zinc mobilizing biofertilizers.

Global Biofertilizers Company Profiles

The report presents business profiles of major companies operating in the industry including Biome Bioplastics, Novozymes A/S, Rizobacter Argentina S.A., Lallemand Inc, Gujarat State Fertilizers & Chemicals Ltd, National Fertilizers Limited, Biomax.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth. Manufacturing companies can also benefit from rising domestic demand in chemical end-use sectors.
