Abstracts

Key insights from the Global Biostimulants Market-

The Global Biostimulants market is valued at \$3 billion in 2020

Acid based is the dominant ingredient

Row crops are the dominant crop type application

Europe is the largest user of Biostimulants

The \$3 billion Biostimulants industry presents strong investment and growth opportunities over the near to long term outlook period. The 2020 edition of the market report presents a comprehensive analysis of the global Biostimulants market from 2020 to 2028. The Biostimulants market research report presents detailed Biostimulants market analysis, and forecasts to 2028. Detailed insights into global and regional Biostimulants market statistics, Biostimulants companies and growth prospects across verticals are included.

Biostimulants Market Overview and Developments in 2020

The report presents a snapshot of recent market trends in the Biostimulants industry. Further, potential market drivers, major challenges, opportunities, major developments,

competitive strategies, porter's five forces analysis, and other analysis are included in the research.

Impact of COVID-19 on Global Biostimulants market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Biostimulants manufacturers and vendors. However, we expect the negative impact of COVID-19 on Biostimulants to be compensated over the medium to long term future.

Biostimulants Market Size and Outlook by Active ingredient to 2028

This chapter presents an insight into different Biostimulants types and their contribution to global market growth. The growth in global Biostimulants market size is forecast to continue despite the economic challenges. The report forecasts the Biostimulants market revenue across different active ingredients, which include- Acid based biostimulants, Extract based biostimulants. Of these, Acid based dominates the global Biostimulants market.

Biostimulants Market Size and Outlook by Crop Type to 2028

A long-term perspective indicates that Row Crops dominates the Biostimulants market. The industry is classified into different Crop Types including Row crops, Fruits and vegetables, others.

Global Biostimulants Company Profiles

The report presents business profiles of major companies operating in the industry including Agrinos AS, Arysta LifeScience Corporation, Biostadt India Limited, Koppert B.V., Valagro SpA.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth.
