Impact of COVID-19 on Global Bisphenol A market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in

business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Bisphenol A manufacturers and vendors. However, we expect the negative impact of COVID-19 on Bisphenol A to be compensated over the medium to long term future.

Bisphenol A Market Share and Outlook by End-User Industry to 2028

The research suggests that there is a strong case for the development of new applications of Bisphenol A worldwide. Different application segments analyzed in the report are Polycarbonates, Epoxy resins, others. The study identifies that Polycarbonates application has the most substantial value-creation potential.

Global Bisphenol A Company Profiles

The report presents business profiles of major companies operating in the industry including Agilent Technologies Inc, Bayer Material Science, The Dow Chemical Company, LG Chemical Co., Mitsui Chemicals Inc, Mitsubishi Chemical Holdings Corporation.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth. Manufacturing companies can also benefit from rising domestic demand in chemical end-use sectors. The majority of the companies are realigning their strategies to orient their business operations to changing market volatility, regulatory policy changes, geopolitical issues, changing end-user preferences, and others.
