Key insights from the Global Ethylene Glycol Market-

The Global Ethylene Glycol market is valued at \$35 billion in 2020

Monoethylene Glycol accounted for the largest share of the Ethylene Glycol market

North America is the largest market for Ethylene Glycol

The \$35 billion Ethylene Glycol industry presents strong investment and growth opportunities over the near to long term outlook period. The 2020 edition of the market report presents a comprehensive analysis of the global Ethylene Glycol market from 2020 to 2028. The Ethylene Glycol market research report presents detailed Ethylene Glycol market analysis, and forecasts to 2028. Detailed insights into global and regional Ethylene Glycol market statistics, Ethylene Glycol companies and growth prospects across verticals are included.

Ethylene Glycol Market Overview and Developments in 2020

The report presents a snapshot of recent market trends in the Ethylene Glycol industry.

Further, potential market drivers, major challenges, opportunities, major developments, competitive strategies, porter's five forces analysis, and other analysis are included in the research.

Impact of COVID-19 on Global Ethylene Glycol market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Ethylene Glycol manufacturers and vendors. However, we expect the negative impact of COVID-19 on Ethylene Glycol to be compensated over the medium to long term future.

Ethylene Glycol Market Size and Outlook by type to 2028

This chapter presents an insight into different Ethylene Glycol types and their contribution to global market growth. The growth in global Ethylene Glycol market size is forecast to continue despite the economic challenges. The report forecasts the Ethylene Glycol market revenue across different types, which include- Monoethylene Glycol (MEG), Diethylene Glycol (DEG), Triethylene Glycol (TEG). Of these, Monoethylene Glycol dominates the global Ethylene Glycol market.

Ethylene Glycol Market Share and Outlook by End-User Industry to 2028

The research suggests that there is a strong case for the development of new applications of Ethylene Glycol worldwide. Different application segments analyzed in the report are Polyester Fiber, Polyethylene Terephthalate (PET), Anti-Freeze, Film, other Applications.

Global Ethylene Glycol Company Profiles

The report presents business profiles of major companies operating in the industry including Dow Chemical Company, Akzo Nobel NV, BASF SE, Exxon Mobil Corporation, Farsa Chemical, Huntsman International.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth. Manufacturing companies can also benefit from rising domestic demand in chemical end-use sectors. The majority of the companies are realigning their strategies to orient their business operations to changing market volatility, regulatory policy changes, geopolitical issues, changing end-user preferences, and others.

Sources and Methodology

The data and analysis presented in this report are sourced from a wide range of sources such as associations, manufacturers, suppliers, distributors, consumer companies, and government sources.

Scope of the research

Global and regional Ethylene Glycol Market Size estimates in revenue terms from 2019 to 2028

Segmentation analysis across types, applications, and geographies

Strategic analysis through trends, drivers, challenges, opportunities, porter's five forces analysis

Market Developments including M&A, new product development, and competitive analysis

Potential strategies of leading companies
