Key insights from the Global Formaldehyde Market-

Formaldehyde Resins accounted for the largest share of the Formaldehyde market

Automotive is the dominant application of Formaldehyde

Asia Pacific is the largest market for Formaldehyde

The Formaldehyde industry presents strong investment and growth opportunities over the near to long term outlook period. The 2020 edition of the market report presents a comprehensive analysis of the global Formaldehyde market from 2020 to 2028. The Formaldehyde market research report presents detailed Formaldehyde market analysis, and forecasts to 2028. Detailed insights into global and regional Formaldehyde market statistics, Formaldehyde companies and growth prospects across verticals are included.

Formaldehyde Market Overview and Developments in 2020

The report presents a snapshot of recent market trends in the Formaldehyde industry.

Further, potential market drivers, major challenges, opportunities, major developments, competitive strategies, porter's five forces analysis, and other analysis are included in the research.

Impact of COVID-19 on Global Formaldehyde market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Formaldehyde manufacturers and vendors. However, we expect the negative impact of COVID-19 on Formaldehyde to be compensated over the medium to long term future.

Formaldehyde Market Size and Outlook by type to 2028

This chapter presents an insight into different Formaldehyde types and their contribution to global market growth. The growth in global Formaldehyde market size is forecast to continue despite the economic challenges. The report forecasts the Formaldehyde market revenue across different types, which include- Formaldehyde Resins, Acetal Resins, 1,4 butanediol (BDO), Methylene diphenyl diisocyanate (MDI) Pentaerythritol, Others.

Formaldehyde Market Size and Outlook by application to 2028

A long-term perspective indicates that Automotive dominates the Formaldehyde market. The industry is classified into different applications including Automotive, Electrical Appliances, Building and Construction.

Global Formaldehyde Company Profiles

The report presents business profiles of major companies operating in the industry including BASF SE, Celanese Corporation, Dynasol LLC, Georgia-Pacific Chemicals LLC, Hexion Inc, Johnson Matthey Plc.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth. Manufacturing companies can also benefit from rising domestic demand in chemical end-use sectors. The majority of the companies are realigning their strategies to orient their business operations to changing market volatility, regulatory policy changes, geopolitical issues, changing end-user preferences, and others.

Sources and Methodology

The data and analysis presented in this report are sourced from a wide range of sources such as associations, manufacturers, suppliers, distributors, consumer companies, and government sources.

Scope of the research

Global and regional Formaldehyde Market Size estimates in revenue terms from 2019 to 2028

Segmentation analysis across types, applications, and geographies

Strategic analysis through trends, drivers, challenges, opportunities, porter's five forces analysis

Market Developments including M&A, new product development, and competitive analysis

Potential strategies of leading companies
