Abstracts

Key insights from the Global Insecticides Market-

The Global Insecticides market is valued at \$18 billion in 2020

Cereals and Grains is the largest crop type using Insecticides

Organophosphorous Compounds are the dominant type of Insecticides

Asia Pacific is the largest market for Insecticides

The \$18 billion Insecticides industry presents strong investment and growth opportunities over the near to long term outlook period. The 2020 edition of the market report presents a comprehensive analysis of the global Insecticides market from 2020 to 2028. The Insecticides market research report presents detailed Insecticides market analysis, and forecasts to 2028. Detailed insights into global and regional Insecticides market statistics, Insecticides companies and growth prospects across verticals are included.

Insecticides Market Overview and Developments in 2020

The report presents a snapshot of recent market trends in the Insecticides industry. Further, potential market drivers, major challenges, opportunities, major developments, competitive strategies, porter's five forces analysis, and other analysis are included in the research.

Impact of COVID-19 on Global Insecticides market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Insecticides manufacturers and vendors. However, we expect the negative impact of COVID-19 on Insecticides to be compensated over the medium to long term future.

Insecticides Market Size and Outlook by Type to 2028

This chapter presents an insight into different Insecticides types and their contribution to global market growth. The growth in global Insecticides market size is forecast to continue despite the economic challenges. The report forecasts the Insecticides market revenue across different Types, which include- Organophosphorous Compounds, Pyrethroids, Neonicotinoids, Methyl Carbamates, others. Of these, Organophosphorous Compounds dominate the global Insecticides market.

Insecticides Market Share and Outlook by End-User Industry to 2028 The research suggests that there is a strong case for the development of new applications of Insecticides worldwide. Different application segments analyzed in the report are Cereals and Grains, Fruits and Vegetables, Pulses, Oilseeds, others. The study identifies that Cereals and Grains application has the most substantial valuecreation potential.

Global Insecticides Company Profiles

The report presents business profiles of major companies operating in the industry including BASF SE, Bayer CropScience AG, DuPont de Nemours, Inc, FMC Corporation, The DOW Chemical Company, Syngenta AG.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth. Manufacturing companies can also benefit from rising domestic demand in chemical end-use sectors. The majority of the companies are realigning their strategies

to orient their business operations to changing market volatility, regulatory policy changes, geopolitical issues, changing end-user preferences, and others.

Sources and Methodology

The data and analysis presented in this report are sourced from a wide range of sources such as associations, manufacturers, suppliers, distributors, consumer companies, and government sources.

Scope of the research

Global and regional Insecticides Market Size estimates in revenue terms from 2019 to 2028

Segmentation analysis across types, applications, and geographies

Strategic analysis through trends, drivers, challenges, opportunities, porter's five forces analysis

Market Developments including M&A, new product development, and competitive analysis

Potential strategies of leading companies
