Abstracts

Key insights from the Global Medical Ceramics Market-

The Global Medical Ceramics market is valued at \$17 billion in 2020

Orthopedics is the largest application for Medical Ceramics

Bio-inert is the dominant color type of Medical Ceramics

North America is the largest market for Medical Ceramics

The \$17 billion Medical Ceramics industry presents strong investment and growth opportunities over the near to long term outlook period. The 2020 edition of the market report presents a comprehensive analysis of the global Medical Ceramics market from 2020 to 2028. The Medical Ceramics market research report presents detailed Medical Ceramics market analysis, and forecasts to 2028. Detailed insights into global and regional Medical Ceramics market statistics, Medical Ceramics companies and growth prospects across verticals are included.

Medical Ceramics Market Overview and Developments in 2020

The report presents a snapshot of recent market trends in the Medical Ceramics industry. Further, potential market drivers, major challenges, opportunities, major

developments, competitive strategies, porter's five forces analysis, and other analysis are included in the research.

Impact of COVID-19 on Global Medical Ceramics market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Medical Ceramics manufacturers and vendors. However, we expect the negative impact of COVID-19 on Medical Ceramics to be compensated over the medium to long term future.

Medical Ceramics Market Size and Outlook by Type to 2028

This chapter presents an insight into different Medical Ceramics types and their contribution to global market growth. The growth in global Medical Ceramics market size is forecast to continue despite the economic challenges. The report forecasts the Medical Ceramics market revenue across different Types, which include- Bio-inert, Bio-active, Bioresorbable. Of these, Bio-inert dominates the global Medical Ceramics market.

Medical Ceramics Market Share and Outlook by End-User Industry to 2028

The research suggests that there is a strong case for the development of new applications of Medical Ceramics worldwide. Different application segments analyzed in the report are Orthopedics, Implants, Dental Devices, Surgical/ Diagnostic Instruments, Others. The study identifies that Orthopedics application has the most substantial value-creation potential.

Global Medical Ceramics Company Profiles

The report presents business profiles of major companies operating in the industry including DePuy Synthes, Kyocera Corporation, Morgan Advanced Materials, Straumann Group, The 3M Company, Zimmer Biomet.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth. Manufacturing companies can also benefit from rising domestic demand in chemical end-use sectors.
