## **Abstracts**

Key insights from the Global Nanocoatings Market-

The Global Nanocoatings market is valued at \$9.5 billion in 2020

Construction is the largest end-user for Nanocoatings

Anti-microbial coatings are the largest type of nanocoatings

North America is the largest market for Nanocoatings

The \$9.5 billion Nanocoatings industry presents strong investment and growth opportunities over the near to long term outlook period. The 2020 edition of the market report presents a comprehensive analysis of the global Nanocoatings market from 2020 to 2028. The Nanocoatings market research report presents detailed Nanocoatings market analysis, and forecasts to 2028. Detailed insights into global and regional Nanocoatings market statistics, Nanocoatings companies and growth prospects across verticals are included.

## Nanocoatings Market Overview and Developments in 2020

The report presents a snapshot of recent market trends in the Nanocoatings industry. Further, potential market drivers, major challenges, opportunities, major developments, competitive strategies, porter's five forces analysis, and other analysis are included in the research.

### Impact of COVID-19 on Global Nanocoatings market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Nanocoatings manufacturers and vendors. However, we expect the negative impact of COVID-19 on Nanocoatings to be compensated over the medium to long term future.

### Nanocoatings Market Size and Outlook by Type to 2028

This chapter presents an insight into different Nanocoatings types and their contribution to global market growth. The growth in global Nanocoatings market size is forecast to continue despite the economic challenges. The report forecasts the Nanocoatings market revenue across different Types, which include- Anti-microbial, Anti-fingerprint, Anti-fouling, Easy to clean, Self-cleaning. Of these, Anti-microbial coatings dominate the global Nanocoatings market.

### Nanocoatings Market Size and Outlook by Application to 2028

A long-term perspective indicates that Construction industry dominates the Nanocoatings market. The industry is classified into different Applications including Construction, Food and packaging, Pharmaceutical and Healthcare, Semiconductors and Electronics, Automotive, Energy and Power, Others.

### Global Nanocoatings Company Profiles

The report presents business profiles of major companies operating in the industry including Bio-Gate AG, Buhler GmbH, Cima NanoTech Inc, Eikos Inc, Inframat Corporation, Nanogate AG.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth. Manufacturing companies can also benefit from rising domestic demand in chemical end-use sectors. The majority of the companies are realigning their strategies

to orient their business operations to changing market volatility, regulatory policy changes, geopolitical issues, changing end-user preferences, and others.

#### Sources and Methodology

The data and analysis presented in this report are sourced from a wide range of sources such as associations, manufacturers, suppliers, distributors, consumer companies, and government sources.

#### Scope of the research

Global and regional Nanocoatings Market Size estimates in revenue terms from 2019 to 2028

Segmentation analysis across types, applications, and geographies

Strategic analysis through trends, drivers, challenges, opportunities, porter's five forces analysis

Market Developments including M&A, new product development, and competitive analysis

Potential strategies of leading companies
