Abstracts

Key insights from the Global Residential Architectural Coatings Market-

The Global Residential Architectural Coatings market is valued at \$50 billion in 2020

Water Borne Coatings is the dominant application of Residential Architectural Coatings

Acrylic Resin is the largest type of Residential Architectural Coatings

Asia Pacific is the largest market for Residential Architectural Coatings

The \$50 billion Residential Architectural Coatings industry presents strong investment and growth opportunities over the near to long term outlook period. The 2020 edition of the market report presents a comprehensive analysis of the global Residential Architectural Coatings market from 2020 to 2028. The Residential Architectural Coatings market research report presents detailed Residential Architectural Coatings market analysis, and forecasts to 2028. Detailed insights into global and regional Residential Architectural Coatings market statistics, Residential Architectural Coatings companies

and growth prospects across verticals are included.

Residential Architectural Coatings Market Overview and Developments in 2020

The report presents a snapshot of recent market trends in the Residential Architectural Coatings industry. Further, potential market drivers, major challenges, opportunities, major developments, competitive strategies, porter's five forces analysis, and other analysis are included in the research.

Impact of COVID-19 on Global Residential Architectural Coatings market revenue

The worldwide crisis of COVID-19 is leading to calls for action from a wide range of stakeholders including manufacturers, vendors, distributors, and consumers. Decline in business for at least three months during 2020 coupled with lower demand from a few major markets has put pressure on the profitability of Residential Architectural Coatings manufacturers and vendors. However, we expect the negative impact of COVID-19 on Residential Architectural Coatings to be compensated over the medium to long term future.

Residential Architectural Coatings Market Size and Outlook by Technology to 2028

This chapter presents an insight into different Residential Architectural Coatings types and their contribution to global market growth. The growth in global Residential Architectural Coatings market size is forecast to continue despite the economic challenges. The report forecasts the Residential Architectural Coatings market revenue across different Technologies, which include- XX. Of these, XX dominates the global Residential Architectural Coatings market.

Residential Architectural Coatings Market Size and Outlook by Resin Type to 2028

A long-term perspective indicates that Acrylic resin dominates the Residential Architectural Coatings market. The industry is classified into different Resin Types including Acrylic, Polyester, Alkyd, Epoxy, Polyurethane, Others.

Residential Architectural Coatings Market Share and Outlook by End-User Industry to 2028

The research suggests that there is a strong case for the development of new applications of Residential Architectural Coatings worldwide. Different application segments analyzed in the report are interior, and exterior.

Global Residential Architectural Coatings Company Profiles

The report presents business profiles of major companies operating in the industry including AkzoNobel NV, BASF SE, Benjamin Moore, PPG Industries Inc, Sherwin-

Williams Company, Valspar Corporation.

The business overview, SWOT profile and product information are provided for all the companies.

The report identifies that the development of new applications and product portfolio is one of the key strategies to overcome identified challenges and for supporting continued growth. Manufacturing companies can also benefit from rising domestic demand in chemical end-use sectors. The majority of the companies are realigning their strategies to orient their business operations to changing market volatility, regulatory policy changes, geopolitical issues, changing end-user preferences, and others.

Sources and Methodology

The data and analysis presented in this report are sourced from a wide range of sources such as associations, manufacturers, suppliers, distributors, consumer companies, and government sources.

Scope of the research

Global and regional Residential Architectural Coatings Market Size estimates in revenue terms from 2019 to 2028

Segmentation analysis across types, applications, and geographies

Strategic analysis through trends, drivers, challenges, opportunities, porter's five forces analysis

Market Developments including M&A, new product development, and competitive analysis

Potential strategies of leading companies
