## Abstracts

### 2020 Hepatic Encephalopathy PIPELINE HIGHLIGHTS

Hepatic Encephalopathy is one of the widely researched conditions during 2020 with 12 companies actively focusing on realizing pipeline's potential. Development of Hepatic Encephalopathy medicines is identified as integral to the strategy of the majority of companies operating in the industry.

Global Hepatic Encephalopathy market presents promising new product pipeline with NME Projects, pivotal trials, and rapidly phase-advancing therapeutic candidates. Increasing number of companies are assessing the feasibility of developing treatment options for Hepatic Encephalopathy.

Good progress is anticipated during 2020 and 2021 with Hepatic Encephalopathy pipeline molecules advancing from pre-clinical investigation to completion of advanced Phase clinical trials. Hepatic Encephalopathy pipeline continues to expand and progress with novel mechanisms and diverse routes of administration being tested by companies.

### Hepatic Encephalopathy DRUG DEVELOPMENT PIPELINE OVERVIEW

The "Hepatic Encephalopathy pipeline Research Monitor, 2020" report is an analytical research study on the progress achieved by pipeline companies during the year along with its historical development, current status, and outlook.

This Hepatic Encephalopathy pipeline review explores high-potential early to late-stage pipeline projects with a continued focus on new insights, accelerated processes, and pipeline progression.

The competitive intelligence report on Hepatic Encephalopathy presents detailed insights into therapeutic drug pipeline development, industry news, deals, and analysis across the length and breadth of the Hepatic Encephalopathy pipeline. Information on

R&D pipeline updates, results of key clinical trials are also included in the report.

#### Hepatic Encephalopathy DRUG PROFILES

Hepatic Encephalopathy development pipeline including projects in early- and late-stage development are detailed in the report. Details of clinical trial data and submissions to regulatory authorities are also provided. For the drug candidates included in the report, the following information is provided-

Current Status of Development including phase advancements, regulatory approvals of phases, acquisitions, licensing and technology transfers, product launches in various markets, and others.

Phase of development

Mechanism of Action

Route of Administration

Companies involved including originator, licensing companies, developer, investors, and others

New molecular entity details

Orphan drug designation and other special status provided by regulators

#### Hepatic Encephalopathy COMPANY PROFILES

Both small size and large size pharmaceutical companies are investing their resources in Hepatic Encephalopathy drug development operations. Further, financial institutions are extending support to small pharmaceutical companies, universities, and other researchers for the development of treatment of Hepatic Encephalopathy. Partnerships and acquisitions are also increasingly observed in the pipeline.

This research report presents an analysis of 12 Hepatic Encephalopathy companies including company overview, key snapshot, contact information, and their strategies on accelerating Hepatic Encephalopathy pipeline development. Mid-stage and early portfolios of these companies are analyzed in detail in the report.

Companies analyzed in the report include- AlfaSigma SpA, Axcella Health Inc, Cosmo Pharmaceuticals NV, Gilead Sciences Inc, Grifols SA, Kaleido Biosciences Inc, KannaLife Sciences Inc, MallInckrodt Plc, Rebiotix Inc, TenNor Therapeutics, Umecrine Cognition AB, Versantis AG

## **REASONS TO BUY**

The current market conditions are forcing companies and investors worldwide to prioritize their investments and accelerate pipeline candidates only through careful quantitative assessment.

This research work assists decision makers in pharmaceutical companies towards successful pipeline development through critically evaluated pipeline data

Buyers can identify most promising drug candidates for treatment of Hepatic Encephalopathy

It allows users to strengthen their pipeline through acquisitions, licensing and collaborations

Users can estimate possible delays in the delivery of pipeline or launch of new products

Stay ahead of competition through understanding their pipeline progression, strategies and outlook

The report details all the pipeline candidates under investigation in various stages of development from Phase I through to Phase III to enable business development managers to understand the impact of new launches.

Optimize your licensing and technology transfer strategies through identification of prospect partners

### **1. INTRODUCTION TO HEPATIC ENCEPHALOPATHY**

- 1.1 Hepatic Encephalopathy- Disease overview
- 1.2 Hepatic Encephalopathy- Market Size
- 1.3 Hepatic Encephalopathy- Companies Involved

### **2. HEPATIC ENCEPHALOPATHY PIPELINE SNAPSHOT- 2020**

- 2.1 Hepatic Encephalopathy Pipeline by Phase
- 2.2 Hepatic Encephalopathy Pipeline by Mechanism of Action
- 2.3 Hepatic Encephalopathy Pipeline by Route of Administration
- 2.4 Hepatic Encephalopathy Pipeline- New Molecular Entities
- 2.5 Hepatic Encephalopathy Pipeline- Orphan Drug Designation/ Special Designation

### **3. HEPATIC ENCEPHALOPATHY DRUG PROFILES**

- 3.1 Current Status
- 3.2 Hepatic Encephalopathy Drug Snapshot
- 3.3 Hepatic Encephalopathy Therapeutic Candidates- Originator/Licensors
- 3.4 Route of Administration
- 3.5 Mechanism of Action
- 3.6 NME
- 4.1 AlfaSigma SpA Hepatic Encephalopathy Pipeline Insights and Clinical Trials
- 4.2 Axcella Health Inc Hepatic Encephalopathy Pipeline Insights and Clinical Trials
- 4.3 Cosmo Pharmaceuticals NV Hepatic Encephalopathy Pipeline Insights and Clinical Trials
- 4.4 Gilead Sciences Inc Hepatic Encephalopathy Pipeline Insights and Clinical Trials
- 4.5 Grifols SA Hepatic Encephalopathy Pipeline Insights and Clinical Trials
- 4.6 Kaleido Biosciences Inc Hepatic Encephalopathy Pipeline Insights and Clinical Trials
- 4.7 KannaLife Sciences Inc Hepatic Encephalopathy Pipeline Insights and Clinical Trials
- 4.8 Mallinckrodt Plc Hepatic Encephalopathy Pipeline Insights and Clinical Trials
- 4.9 Rebiotix Inc Hepatic Encephalopathy Pipeline Insights and Clinical Trials
- 4.10 TenNor Therapeutics Hepatic Encephalopathy Pipeline Insights and Clinical Trials
- 4.11 Umeocrine Cognition AB Hepatic Encephalopathy Pipeline Insights and Clinical Trials
- 4.12 Versantis AG Hepatic Encephalopathy Pipeline Insights and Clinical Trials
