Abstracts

2020 Hypertrophic Cardiomyopathy PIPELINE HIGHLIGHTS

Hypertrophic Cardiomyopathy is one of the widely researched conditions during 2020 with 8 companies actively focusing on realizing pipeline's potential. Development of Hypertrophic Cardiomyopathy medicines is identified as integral to the strategy of the majority of companies operating in the industry.

Global Hypertrophic Cardiomyopathy market presents promising new product pipeline with NME Projects, pivotal trials, and rapidly phase-advancing therapeutic candidates. Increasing number of companies are assessing the feasibility of developing treatment options for Hypertrophic Cardiomyopathy.

Good progress is anticipated during 2020 and 2021 with Hypertrophic Cardiomyopathy pipeline molecules advancing from pre-clinical investigation to completion of advanced Phase clinical trials. Hypertrophic Cardiomyopathy pipeline continues to expand and progress with novel mechanisms and diverse routes of administration being tested by companies.

Hypertrophic Cardiomyopathy DRUG DEVELOPMENT PIPELINE OVERVIEW

The "Hypertrophic Cardiomyopathy pipeline Research Monitor, 2020" report is an analytical research study on the progress achieved by pipeline companies during the year along with its historical development, current status, and outlook.

This Hypertrophic Cardiomyopathy pipeline review explores high-potential early to late-stage pipeline projects with a continued focus on new insights, accelerated processes, and pipeline progression.

The competitive intelligence report on Hypertrophic Cardiomyopathy presents detailed insights into therapeutic drug pipeline development, industry news, deals, and analysis

across the length and breadth of the Hypertrophic Cardiomyopathy pipeline. Information on R&D pipeline updates, results of key clinical trials are also included in the report.

Hypertrophic Cardiomyopathy DRUG PROFILES

Hypertrophic Cardiomyopathy development pipeline including projects in early- and late-stage development are detailed in the report. Details of clinical trial data and submissions to regulatory authorities are also provided. For the drug candidates included in the report, the following information is provided-

Current Status of Development including phase advancements, regulatory approvals of phases, acquisitions, licensing and technology transfers, product launches in various markets, and others.

Phase of development

Mechanism of Action

Route of Administration

Companies involved including originator, licensing companies, developer, investors, and others

New molecular entity details

Orphan drug designation and other special status provided by regulators

Hypertrophic Cardiomyopathy COMPANY PROFILES

Both small size and large size pharmaceutical companies are investing their resources in Hypertrophic Cardiomyopathy drug development operations. Further, financial institutions are extending support to small pharmaceutical companies, universities, and other researchers for the development of treatment of Hypertrophic Cardiomyopathy. Partnerships and acquisitions are also increasingly observed in the pipeline.

This research report presents an analysis of 8 Hypertrophic Cardiomyopathy companies including company overview, key snapshot, contact information, and their strategies on accelerating Hypertrophic Cardiomyopathy pipeline development. Mid-stage and early portfolios of these companies are analyzed in detail in the report.

Companies analyzed in the report include- Algomedix Inc, C&C BioPharma LLC, Celltrion Inc, Cytokinetics Inc, Lead Discovery Center GmbH , MyoKardia Inc, Novartis AG, Toa Eiyo Ltd

REASONS TO BUY

The current market conditions are forcing companies and investors worldwide to prioritize their investments and accelerate pipeline candidates only through careful quantitative assessment.

This research work assists decision makers in pharmaceutical companies towards successful pipeline development through critically evaluated pipeline data

Buyers can identify most promising drug candidates for treatment of Hypertrophic Cardiomyopathy

It allows users to strengthen their pipeline through acquisitions, licensing and collaborations

Users can estimate possible delays in the delivery of pipeline or launch of new products

Stay ahead of competition through understanding their pipeline progression, strategies and outlook

The report details all the pipeline candidates under investigation in various stages of development from Phase I through to Phase III to enable business development managers to understand the impact of new launches.

Optimize your licensing and technology transfer strategies through identification of prospect partners

Contents

1. INTRODUCTION TO HYPERTROPHIC CARDIOMYOPATHY

- 1.1 Hypertrophic Cardiomyopathy- Disease overview
- 1.2 Hypertrophic Cardiomyopathy- Market Size
- 1.3 Hypertrophic Cardiomyopathy- Companies Involved

2. HYPERTROPHIC CARDIOMYOPATHY PIPELINE SNAPSHOT- 2020

- 2.1 Hypertrophic Cardiomyopathy Pipeline by Phase
- 2.2 Hypertrophic Cardiomyopathy Pipeline by Mechanism of Action
- 2.3 Hypertrophic Cardiomyopathy Pipeline by Route of Administration
- 2.4 Hypertrophic Cardiomyopathy Pipeline- New Molecular Entities
- 2.5 Hypertrophic Cardiomyopathy Pipeline- Orphan Drug Designation/ Special Designation

3. HYPERTROPHIC CARDIOMYOPATHY DRUG PROFILES

- 3.1 Current Status
- 3.2 Hypertrophic Cardiomyopathy Drug Snapshot
- 3.3 Hypertrophic Cardiomyopathy Therapeutic Candidates- Originator/Licensors
- 3.4 Route of Administration
- 3.5 Mechanism of Action
- 3.6 NME
- 4.1 Algomedix Inc Hypertrophic Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.2 C&C BioPharma LLC Hypertrophic Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.3 Celltrion Inc Hypertrophic Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.4 Cytokinetics Inc Hypertrophic Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.5 Lead Discovery Center GmbH Hypertrophic Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.6 MyoKardia Inc Hypertrophic Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.7 Novartis AG Hypertrophic Cardiomyopathy Pipeline Insights and Clinical Trials
- 4.8 Toa Eiyo Ltd Hypertrophic Cardiomyopathy Pipeline Insights and Clinical Trials

5. HYPERTROPHIC CARDIOMYOPATHY MARKET NEWS AND UPDATES

6. APPENDIX

6.1 Sources and Methodology

6.2 Contact Information
