Abstracts

2020 Primary Hyperoxaluria PIPELINE HIGHLIGHTS

Primary Hyperoxaluria is one of the widely researched conditions during 2020 with 9 companies actively focusing on realizing pipeline's potential. Development of Primary Hyperoxaluria medicines is identified as integral to the strategy of the majority of companies operating in the industry.

Global Primary Hyperoxaluria market presents promising new product pipeline with NME Projects, pivotal trials, and rapidly phase-advancing therapeutic candidates. Increasing number of companies are assessing the feasibility of developing treatment options for Primary Hyperoxaluria.

Good progress is anticipated during 2020 and 2021 with Primary Hyperoxaluria pipeline molecules advancing from pre-clinical investigation to completion of advanced Phase clinical trials. Primary Hyperoxaluria pipeline continues to expand and progress with novel mechanisms and diverse routes of administration being tested by companies.

Primary Hyperoxaluria DRUG DEVELOPMENT PIPELINE OVERVIEW

The "Primary Hyperoxaluria pipeline Research Monitor, 2020" report is an analytical research study on the progress achieved by pipeline companies during the year along with its historical development, current status, and outlook.

This Primary Hyperoxaluria pipeline review explores high-potential early to late-stage pipeline projects with a continued focus on new insights, accelerated processes, and pipeline progression.

The competitive intelligence report on Primary Hyperoxaluria presents detailed insights into therapeutic drug pipeline development, industry news, deals, and analysis across the length and breadth of the Primary Hyperoxaluria pipeline. Information on R&D

pipeline updates, results of key clinical trials are also included in the report.

Primary Hyperoxaluria DRUG PROFILES

Primary Hyperoxaluria development pipeline including projects in early- and late-stage development are detailed in the report. Details of clinical trial data and submissions to regulatory authorities are also provided. For the drug candidates included in the report, the following information is provided-

Current Status of Development including phase advancements, regulatory approvals of phases, acquisitions, licensing and technology transfers, product launches in various markets, and others.

Phase of development

Mechanism of Action

Route of Administration

Companies involved including originator, licensing companies, developer, investors, and others

New molecular entity details

Orphan drug designation and other special status provided by regulators

Primary Hyperoxaluria COMPANY PROFILES

Both small size and large size pharmaceutical companies are investing their resources in Primary Hyperoxaluria drug development operations. Further, financial institutions are extending support to small pharmaceutical companies, universities, and other researchers for the development of treatment of Primary Hyperoxaluria. Partnerships and acquisitions are also increasingly observed in the pipeline.

This research report presents an analysis of 9 Primary Hyperoxaluria companies including company overview, key snapshot, contact information, and their strategies on accelerating Primary Hyperoxaluria pipeline development. Mid-stage and early portfolios of these companies are analyzed in detail in the report.

Companies analyzed in the report include- Allena Pharmaceuticals Inc, Alnylam

Pharmaceuticals Inc, Amarna Therapeutics BV, BridgeBio Inc, Dicerna Pharmaceuticals Inc, Inositec AG, Intellia Therapeutics Inc, OxThera AB, Precision Biosciences Inc

REASONS TO BUY

The current market conditions are forcing companies and investors worldwide to prioritize their investments and accelerate pipeline candidates only through careful quantitative assessment.

This research work assists decision makers in pharmaceutical companies towards successful pipeline development through critically evaluated pipeline data

Buyers can identify most promising drug candidates for treatment of Primary Hyperoxaluria

It allows users to strengthen their pipeline through acquisitions, licensing and collaborations

Users can estimate possible delays in the delivery of pipeline or launch of new products

Stay ahead of competition through understanding their pipeline progression, strategies and outlook

The report details all the pipeline candidates under investigation in various stages of development from Phase I through to Phase III to enable business development managers to understand the impact of new launches.

Optimize your licensing and technology transfer strategies through identification of prospect partners

Contents

1. INTRODUCTION TO PRIMARY HYPEROXALURIA

- 1.1 Primary Hyperoxaluria- Disease overview
- 1.2 Primary Hyperoxaluria- Market Size
- 1.3 Primary Hyperoxaluria- Companies Involved

2. PRIMARY HYPEROXALURIA PIPELINE SNAPSHOT- 2020

- 2.1 Primary Hyperoxaluria Pipeline by Phase
- 2.2 Primary Hyperoxaluria Pipeline by Mechanism of Action
- 2.3 Primary Hyperoxaluria Pipeline by Route of Administration
- 2.4 Primary Hyperoxaluria Pipeline- New Molecular Entities
- 2.5 Primary Hyperoxaluria Pipeline- Orphan Drug Designation/ Special Designation

3. PRIMARY HYPEROXALURIA DRUG PROFILES

- 3.1 Current Status
- 3.2 Primary Hyperoxaluria Drug Snapshot
- 3.3 Primary Hyperoxaluria Therapeutic Candidates- Originator/Licensors
- 3.4 Route of Administration
- 3.5 Mechanism of Action
- 3.6 NME
- 4.1 Allena Pharmaceuticals Inc Primary Hyperoxaluria Pipeline Insights and Clinical Trials
- 4.2 Alnylam Pharmaceuticals Inc Primary Hyperoxaluria Pipeline Insights and Clinical Trials
- 4.3 Amarna Therapeutics BV Primary Hyperoxaluria Pipeline Insights and Clinical Trials
- 4.4 BridgeBio Inc Primary Hyperoxaluria Pipeline Insights and Clinical Trials
- 4.5 Dicerna Pharmaceuticals Inc Primary Hyperoxaluria Pipeline Insights and Clinical Trials
- 4.6 Inositec AG Primary Hyperoxaluria Pipeline Insights and Clinical Trials
- 4.7 Intellia Therapeutics Inc Primary Hyperoxaluria Pipeline Insights and Clinical Trials
- 4.8 OxThera AB Primary Hyperoxaluria Pipeline Insights and Clinical Trials
- 4.9 Precision Biosciences Inc Primary Hyperoxaluria Pipeline Insights and Clinical Trials

5. PRIMARY HYPEROXALURIA MARKET NEWS AND UPDATES

6. APPENDIX

6.1 Sources and Methodology

6.2 Contact Information
