## **Abstracts**

The global Roll Dried Starch Market is estimated to generate \$992.3 Million in 2026. Further, between 2026 and 2032, the market size is forecast to grow at a CAGR of 3.7% to reach \$1234 Million in 2032. This Roll Dried Starch report provides a comprehensive analysis across By Type (Corn Starch, Potato Starch, Tapioca Starch, Wheat Starch, Others), By Grade (Food Grade, Industrial Grade, Pharmaceutical Grade), By Application (Food and Beverages, Paper and Pulp, Textiles, Pharmaceuticals, Adhesives and Glues, Others), By Distribution Channel (Direct Sales, Distributors and Wholesalers, Online Retail), across 5 geographic regions, and 22 countries.

### **Instant Viscosity and Cold-Process Efficiency Sustain Roll-Dried Starch Demand**

The roll-dried starch industry supplies pregelatinized starch produced by cooking starch slurry on heated rotating drums and drying it into flakes or powders that hydrate rapidly in cold water. These ingredients are used in instant soups, sauces, bakery fillings, dry mixes, confectionery, processed foods, pharmaceuticals, adhesives and paper applications. Demand is supported by manufacturers seeking immediate viscosity, simplified preparation and reduced thermal-processing requirements. Roll-dried starch can provide binding, moisture retention, texture and suspension in formulations where conventional native starch would require cooking. Buyers assess botanical source, hydration speed, particle size, viscosity profile and resistance to shear, acidity or storage conditions. Competition from spray-dried and chemically modified starches is increasing, particularly where customers require smoother texture, higher gloss or

stronger clean-label positioning.

## **Clean-Label Instant Starches and Process-Tolerant Systems Reshape Supplier Portfolios**

Starch manufacturers are broadening instant-texturizer portfolios beyond conventional drum-dried products. Cargill has expanded its SimPure range with cold-process options such as SimPure Bright, developed to provide rapid viscosity, brighter appearance and stability in dairy, bakery fillings and fruit preparations. Its current portfolio also includes native and modified instant starches designed for cold-prepared foods requiring water binding and shelf-life consistency. Ingredion offers organic NOVATION 9460, a spray-dried instant functional native starch positioned as an alternative to traditional drum-dried products, with intact granules supporting improved gloss, texture and syneresis control. The company also continues to operate drum-drying lines for pregelatinized modified starches. These developments show suppliers combining roll drying with newer thermal technologies to improve cold-water functionality, label simplicity and application-specific performance.

## **Thermal-Efficiency Upgrades and Specialized Instant Texture Systems Advance**

Manufacturer-led trends indicate that roll-dried starch is increasingly positioned within broader instant-starch platforms rather than marketed solely by drying method. Suppliers are differentiating products according to rapid hydration, paste smoothness, flavour release and compatibility with cold manufacturing processes. Clean-label functional native starches are gaining attention as food companies seek declarations such as corn, tapioca or potato starch instead of chemically modified starch. Spray drying and controlled thermal processing are also being used where intact granules, gloss and low-gelling texture are required, creating competitive pressure on traditional drum-dried grades. Application-specific systems for bakery creams, sauces, plant-based foods, pet food and pharmaceutical formulations are expanding. Manufacturers are additionally optimizing dryer controls, moisture specifications and batch coding to strengthen consistency, traceability and energy management across instant-starch production.

## **Shifting Consumer Expectations and Industry Transformation**

Young and adult consumers across markets are increasingly scrutinizing products beyond price and brand, seeking greater visibility into ingredients or materials, their origin, manufacturing location, quality, sourcing practices, and environmental attributes.

This is increasing the importance of ingredient lists, nutrition labeling, allergen declarations, certifications, sourcing information and other product claims, while also raising the bar for transparency and substantiation.

In addition, the industry is being reshaped by advances in AI, ingredient and formulation technologies, automation, digital commerce, packaging technology and data analytics, creating new opportunities to accelerate product development, improve product quality and optimize operations. However, these capabilities require higher capital commitments, particularly as companies invest in store expansion and refurbishment, automation, AI-enabled systems, digital infrastructure and other productivity-enhancing technologies.

Competitive dynamics are also shifting as private-label and disruptor brands raise value expectations across selected price points, pushing established players to sharpen their entry, core and premium propositions. Private-label expansion, adjacent-category opportunities, M&A and AI are consequently creating new avenues for growth for manufacturers, suppliers and other industry participants across both developed and developing markets.

### **Impact of Tariffs and Inflation Rates on Roll Dried Starch Markets and Companies**

Tariffs and elevated inflation are directly reshaping the cost structure and pricing strategies of Food & Beverages and Consumer Goods companies. The impact is particularly visible in imported ingredients and raw materials, packaging materials, energy, transportation, and other internationally sourced inputs, while higher consumer prices are increasing pressure on household purchasing decisions. The IMF WEO Data 2026 projects global headline inflation at 4.7% in 2026, while the continued use of tariffs and other trade measures is increasing uncertainty around sourcing and cross-border costs.

The report quantifies the impact of tariff changes and inflation on the market by analyzing country-level inflation trends, tariff exposure, import dependence, input-cost movements and pricing conditions, and assesses their implications for market volumes, revenues and margins.

### **Key Value-Creating Activities and Participants Across the Roll Dried Starch Industry Value Chain**

Roll Dried Starch value chains are becoming more cost-sensitive and closely integrated,

with changes in input prices, sourcing concentration, production efficiency, packaging costs, logistics and channel economics directly influencing margins and competitive positioning at each stage.

The report maps the value chain from upstream suppliers to end-use channels, identifies the principal participants and value-adding activities at each stage, and assesses the relative importance of procurement, manufacturing, packaging, logistics, distribution and retail in the forecast period.

### **Roll Dried Starch Pricing analysis- How Input Costs, Competition and Positioning Influence Roll Dried Starch Market Pricing**

Pricing analysis in the report establishes how prices differ across products, segments, countries and channels and what is driving those differences. The report provides historical and current price benchmarks, country-level and regional comparisons, product-level pricing, and an assessment of the principal factors influencing price movements.

### **Five forces analysis- How Competitive Forces Are Shaping the Roll Dried Starch Industry**

The chapter in the Roll Dried Starch report evaluates competitive rivalry, threat of new entrants, bargaining power of suppliers, bargaining power of buyers, and threat of substitutes, with each force assessed against the market's actual operating conditions. It analyzes market factors including fragmentation, product differentiation, manufacturing and distribution requirements, switching costs, supplier concentration, raw-material availability, retailer purchasing power, and the ability of consumers to substitute between brands. The report also examines how e-commerce and marketplaces are lowering certain barriers to market access while intensifying price transparency, and how established distribution networks, brand recognition, scale and customer relationships continue to protect incumbents across categories.

### **Critical Success Factors- Key Factors Determining Competitive Success in the Roll Dried Starch Industry**

The report identifies the critical success factors that fuel growth in the Roll Dried Starch market, in addition to market trends and company capabilities. The Roll Dried Starch report evaluates critical success factors against the market's competitive environment and assesses how leading participants are strengthening them. Further, the chapter

identifies the factors with strongest influence on market-share retention, customer loyalty, pricing power, operating performance, and long-term competitive differentiation.

### **Segmentation analysis- How Demand Is Distributed Across Key Segments of the Roll Dried Starch Market**

The report analyzes the global and regional markets across key types, applications, and other segments from 2021 to 2025. Further, forecasts are provided from 2026 to 2032. Key segments included in the study are By Type (Corn Starch, Potato Starch, Tapioca Starch, Wheat Starch, Others), By Grade (Food Grade, Industrial Grade, Pharmaceutical Grade), By Application (Food and Beverages, Paper and Pulp, Textiles, Pharmaceuticals, Adhesives and Glues, Others), By Distribution Channel (Direct Sales, Distributors and Wholesalers, Online Retail).

### **US Roll Dried Starch Market - Strong Consumer Spending, Private-Label Expansion and Premium Product Demand**

The US Roll Dried Starch companies are focusing on value positioning, distribution strength, product differentiation, and operating efficiency as private-label products gain ground against national brands. The US store-brand sales reached \$282.8 billion in 2025, growing 3.3% versus 1.2% for national brands, while store brands reached a record 21.3% dollar share and 23.5% unit share according to the Private Label Manufacturers Association. The report provides the US Roll Dried Starch market size outlook from 2021 to 2032 and the key factors shaping the market along with key strategies adopted by leading companies.

### **Canada Roll Dried Starch Market - Affordability, Retail Concentration and Supply-Chain Resilience Shape Market Growth**

Over the past two years, Canadian companies have been focusing on value, supply-chain resilience and manufacturing efficiency to overcome trade and cost pressures. Retail demand also remained firm, with food and beverage retail sales increasing 4.4% year-on-year in December 2025, led by packaged dry foods, fresh meat and poultry, and snacks, according to Statistics Canada. The report identifies competitive pricing and product value, retailer access, diversified sourcing, productivity, brand positioning, and portfolio innovation as key success factors across the Canadian Roll Dried Starch value chain.

### **Mexico Roll Dried Starch Market- Rising Consumption, Manufacturing Expansion**

## **and Export Integration Drive Market Development**

Mexico's Roll Dried Starch market is supported by a large domestic consumer base, established manufacturing capabilities, and strong export integration, while pricing remains an important consideration for consumers and manufacturers. The INEGI reported that the consumer prices for food, beverages and tobacco increased 5.13% year-on-year in May 2026, compared with 3.94% for overall consumer prices, keeping affordability and price management central to category performance. Leading companies are focusing on domestic manufacturing scale, ingredient availability, export competitiveness, product differentiation, efficient sourcing and supply-chain execution to gain profit margins.

## **Germany Roll Dried Starch Market- Private-Label Strength, Price Sensitivity and Manufacturing Efficiency Shape Competition**

Value-for-money, private-label competitiveness, efficient sourcing, and cost control are central to market performance and continue to shape the market outlook. German food prices remained structurally above their pre-inflation baseline: the food and non-alcoholic beverages CPI reached 136.2 in 2025 (2020=100), compared with 121.9 for the overall CPI, although annual food inflation moderated to 2.0% in 2025. The market is also being influenced by Germany's policy push toward healthier eating and greater development of alternative protein products, creating additional opportunities for reformulation and product innovation.

## **France Roll Dried Starch Market- Premium Food Culture, Retail Transformation and Selective Consumer Spending Drive Demand**

France's Roll Dried Starch market is being shaped by moderating food inflation, cautious household consumption and a shift in retail demand toward value and specialized formats. Household final consumption expenditure increased only 0.4% in volume in 2025, while household purchasing power declined 0.4%, keeping affordability and price-value positioning important despite the easing of inflation. Roll Dried Starch companies operating in France are balancing value-oriented pricing with quality and differentiation, strengthening supermarket and alternative-format distribution, managing procurement and supply-chain costs, and responding to increasingly selective household spending.

## **UK Roll Dried Starch Market- Import Dependence, Retail Concentration and Product Portfolio Expansion Influence Market Growth**

The UK Roll Dried Starch market is strongly influenced by import dependence, household affordability, and retail concentration. Consumer expenditure on food and alcoholic drinks reached ?303.3 billion in real terms in 2025, up 1.1%, with spending on food and drink eaten outside the home increasing 2.3% to ?137.7 billion, while household food expenditure was broadly flat. The structure of the industry also favors companies able to operate efficiently at scale: approximately 98.8% of UK food and drink manufacturing businesses are SMEs, creating a large and fragmented supplier base alongside major manufacturers and retailers. Over the forecast period, competitive pricing, procurement efficiency, product differentiation, retailer and foodservice relationships, import management and the ability to respond remain key success factors.

### **Spain Roll Dried Starch Market- Household Consumption, Tourism and Export-Oriented Manufacturing Support Demand**

Spain's Roll Dried Starch market is supported by strong household food expenditure, a large tourism-driven consumption base and a highly export-oriented food industry, although consumers remain sensitive to price increases. Tourism provides an additional demand channel: international tourists spent €11.7 billion in Spain in April 2026 alone, up 7.4% year-on-year, including €1.99 billion on food and drinks, up 6.8%. Spain's food industry also reached a record level of exports in 2025, reinforcing its importance as an export manufacturing base and exposing producers to international trade conditions and supply-chain developments.

### **Italy Roll Dried Starch Market- Product Quality, Heritage and Export Competitiveness Remain Key Market Drivers**

Italy's consumption structure favors companies capable of maintaining value across differentiated price points: household consumption expenditure averaged €2,738 per month in 2023, up 4.3% from 2022, although the increase reflected both higher spending and price effects. Italy's large manufacturing and export base supports demand for products with strong quality, provenance, and differentiation, particularly where Italian origin provides a competitive advantage. Companies that can combine Italy's established food-manufacturing capabilities with tighter cost control and differentiated products are better positioned to navigate slower domestic consumption and renewed price pressure.

### **China Roll Dried Starch Market- Digital Commerce, Brand Trust and Selective**

## **Consumer Spending Reshape Demand**

China's Roll Dried Starch markets are being shaped by large-scale domestic consumption, rapid online retail expansion, increasingly selective spending and a widening performance gap between categories. Total retail sales of consumer goods reached RMB 50.1 trillion in 2025, up 3.7%, significantly outperforming beverages at 1.0%. Online retail is particularly important: physical-goods online sales reached RMB 13.1 trillion, representing 26.1% of total consumer-goods retail sales, while online sales of food increased 14.5% according to the National Bureau of Statistics of China. Established brands retain an advantage where consumers prioritize familiarity and brand authority, while the rapid expansion of online food sales creates opportunities for digitally native brands and manufacturers capable of using data, AI, and platform ecosystems.

## **India Roll Dried Starch Market- Rising Consumption, Increasing Investment and Expanding Distribution Create Growth Opportunities**

India's Roll Dried Starch market is being supported by rising household consumption, a large and increasingly diversified consumer base, expansion of food processing and continued investment in formal food manufacturing. India's rural monthly per-capita consumption expenditure reached ₹4,122 in 2023–24, up from ₹3,773 in 2022–23, while urban MPCE increased to ₹6,996, highlighting the continued expansion of household purchasing capacity across both rural and urban markets. The supply side is also becoming more organized and processing-intensive. Digital commerce and AI-enabled consumer engagement are also becoming increasingly relevant, particularly as Indian consumers adopt digital tools across product discovery and purchasing.

## **Japan Roll Dried Starch Market- Aging Consumers, Household Price Sensitivity and Digital Purchasing Reshape the Market**

Japan's Roll Dried Starch markets are being shaped by high food expenditure, renewed price pressure and increasingly cautious real household consumption, alongside a structurally mature consumer base. Price pressure has also remained visible in 2026, with Japan's headline CPI increasing 1.5% year-on-year in May 2026, while core inflation excluding fresh food increased 1.4%. Meanwhile, online purchasing remains an important route to consumers: 55.3% of two-or-more-person households used online shopping in May 2026, with food contributing materially to the increase in online-shopping expenditure. Companies also need to manage smaller household sizes and differing consumption patterns by age, while maintaining strong product differentiation in

a mature market where incremental volume growth is more difficult to achieve.

### **Brazil Roll Dried Starch Market- Strong Domestic Consumption and Export-Oriented Manufacturing Drive Growth**

Brazil's Roll Dried Starch market is supported by a large domestic consumption base, a highly integrated agricultural and food-processing sector, and exceptional export competitiveness, while renewed food-price pressure is keeping affordability important. The country's food and beverage industry generated R\$1.388 trillion in revenue in 2025, equivalent to 10.9% of national GDP, with domestic sales reaching R\$1.02 trillion; retail accounted for R\$732 billion and foodservice R\$287.9 billion. Real industry sales increased 2.2%, while companies invested R\$41.3 billion, up 6.8%, including R\$26.7 billion in innovation, plant modernization and new technologies.

### **Middle East Africa Roll Dried Starch Market- Import Dependence and Value-Added Products Gaining Steady Demand Growth**

The Middle East Roll Dried Starch markets are being shaped by high dependence on food imports, food-security investment, urbanization, tourism, premium retail and increasingly selective consumer spending, with conditions differing substantially between Gulf markets and the wider region. The GCC recorded overall inflation of only 1.8% in 2025, while food and beverage prices increased 1.2%, indicating relatively contained consumer-price pressure compared with many global markets. Across the region, this combination of import exposure and localization is increasing the importance of supplier diversification, local production, inventory management, and efficient logistics, while strong tourism, hospitality, and modern retail ecosystems are supporting demand for differentiated, convenience-oriented, and premium products.

### **Roll Dried Starch Competitive Landscape**

The Roll Dried Starch competitive landscape is becoming more fragmented as established multinational brands compete simultaneously with private-label products, regional manufacturers, digitally native brands and category-focused disruptors. Competitive advantage is increasingly determined by the ability to balance price, product quality, innovation, distribution reach and speed of response rather than by brand scale alone. The report provides detailed analysis of leading companies including business profile, SWOT analysis, products and services, and financial profiles of Cargill, Incorporated, Archer Daniels Midland Company, Ingredion Incorporated, Tate & Lyle PLC, Roquette Frères, Emsland Group, Royal Avelbe U.A., AGRANA Beteiligungs-AG,

Grain Processing Corporation, Tereos S.A..

## **Roll Dried Starch Market Segmentation**

### **By Type**

Corn Starch

Potato Starch

Tapioca Starch

Wheat Starch

Others

### **By Grade**

Food Grade

Industrial Grade

Pharmaceutical Grade

### **By Application**

Food and Beverages

Paper and Pulp

Textiles

Pharmaceuticals

Adhesives and Glues

Others

### **By Distribution Channel**

Direct Sales

Distributors and Wholesalers

Online Retail

## **Geographical Coverage**

North America (US, Canada, Mexico)

Europe (Germany, UK, Spain, France, Italy, Russia, Rest of Europe)

Asia Pacific (China, India, Japan, South Korea, Southeast Asia, Rest of APAC)

Latin America (Brazil, Argentina, Rest of South and Central America)

Middle East and Africa (Saudi Arabia, UAE, MENA, South Africa, Sub-Saharan Africa)

## **Leading Companies in Roll Dried Starch Industry**

Cargill, Incorporated

Archer Daniels Midland Company

Ingredion Incorporated

Tate & Lyle PLC

Roquette Frères

Emsland Group

Royal Avela U.A.

AGRANA Beteiligungs-AG

Grain Processing Corporation

Tereos S.A.

## Frequently Asked Questions

### 1. What is the current size of the Roll Dried Starch market?

The Roll Dried Starch market is estimated at US\$992.3 Million in 2026, based on the report's market sizing methodology. Demand is supported by new product launches, while competition from local labels is influencing near-term market performance. The market is expected to reach US\$1234 Million by 2032, reflecting the investment expansion of leading companies.

### 2. How fast is the Roll Dried Starch market expected to grow through the forecast period?

The Roll Dried Starch market is projected to expand at a 3.7% CAGR between 2026 and 2032, with growth concentrated in Asia Pacific.

### 3. Which segment currently accounts for the largest share of the Roll Dried Starch market?

The report analyzes the report across By Type (Corn Starch, Potato Starch, Tapioca Starch, Wheat Starch, Others), By Grade (Food Grade, Industrial Grade, Pharmaceutical Grade), By Application (Food and Beverages, Paper and Pulp, Textiles, Pharmaceuticals, Adhesives and Glues, Others), By Distribution Channel (Direct Sales, Distributors and Wholesalers, Online Retail).

### 4. Which regions are generating the largest demand for Roll Dried Starch products?

Differences in consumer preferences, pricing, regulation and distribution infrastructure continue to create significant variations in market performance across regions. Asia Pacific is the fastest growing market driven by China, India, Southeast Asia, and other emerging markets.

## 5. Which companies are leading the Roll Dried Starch market?

The Roll Dried Starch market includes major participants such as Cargill, Incorporated, Archer Daniels Midland Company, Ingredion Incorporated, Tate & Lyle PLC, Roquette Frères, Emsland Group, Royal Avebe U.A., AGRANA Beteiligungs-AG, Grain Processing Corporation, Tereos S.A.. Leading companies compete through product portfolio, distribution, technology, while recent competitive activity includes M&A, product launches, capacity expansion, and geographic expansion. Market leadership varies significantly by product category and geography.

## Contents

### CHAPTER 1- EXECUTIVE SUMMARY

- 1.1. Market Snapshot: Market Size, CAGR, and Growth Outlook to 2032
- 1.2. Key Industry Highlights, 2026
- 1.3. Premium Market Insights
  - 1.3.1. Potential Roll Dried Starch Market Types and Applications
  - 1.3.2. Fastest Growing Countries Over the forecast period
- 1.4. Market Scope and Segmentation
  - 1.4.1. Key Market Segments
  - 1.4.2. Key Countries and Regions
  - 1.4.3. Top Companies in the Roll Dried Starch Industry
- 1.5. Macroeconomic and Demographic Outlook
  - 1.5.1. GDP Outlook by Top 20 Countries, 2010-2030
  - 1.5.2. Population Forecast by Country, 2010-2030
  - 1.5.3. Inflation Trends in Leading Countries
- 1.6. Impact of Trade Policies, Regulations, and Sustainability
  - 1.6.1. Trade tariffs and localization requirements
  - 1.6.2. ESG and sustainability pressures
  - 1.6.3. Compliance-driven structural changes in the value chain

### CHAPTER 2- RESEARCH METHODOLOGY

- 2.1. Report Coverage
- 2.2. Secondary Research
- 2.3. Primary Research
- 2.4. Data Triangulation
- 2.5. Market Modeling and Forecasting

### CHAPTER 3- GLOBAL ROLL DRIED STARCH MARKET TRENDS, GROWTH DRIVERS, CHALLENGES, AND OPPORTUNITIES THROUGH 2032

- 3.1. An Introduction to Global Roll Dried Starch Markets in 2026
- 3.2. Global Historic and Forecast Roll Dried Starch Market Size Outlook, USD Million, 2021-2032
- 3.3. Annual Market Size Growth Rate (Y-o-Y), %, 2021-2032
- 3.4. Market Dynamics
  - 3.4.1. Key Roll Dried Starch Market Driving Forces and Their Impact on Market

## Outlook

- 3.4.2. Short and Long-Term Trends and Insights Shaping the Future
- 3.4.3. Potential Roll Dried Starch Market Opportunities for Industry Stakeholders
- 3.4.4. Potential Challenges across Roll Dried Starch Value Chain

## **CHAPTER 4- ROLL DRIED STARCH MARKET COMPETITIVE LANDSCAPE, STRATEGIC ANALYSIS, AND VALUE CHAIN ASSESSMENT**

- 4.1. Porter's Five Forces Analysis
  - 4.1.1. Bargaining Power of Buyers
  - 4.1.2. Bargaining Power of Suppliers
  - 4.1.3. Threat of Substitutes
  - 4.1.4. Threat of New Entrants
  - 4.1.5. Intensity of Competitive Rivalry
  - 4.1.6. Market Attractiveness Analysis by Segment
  - 4.1.7. Market Attractiveness Analysis by Country
- 4.2. Competitive Landscape
  - 4.2.1 Product Analysis of Leading Roll Dried Starch Companies
  - 4.2.2 Recent Strategic Developments
  - 4.2.3 Mergers, Acquisitions, and Partnerships
  - 4.2.4 Key Success Factors
- 4.3. Value Chain Analysis
  - 4.3.1. Key Value Chain Segments
  - 4.3.2. Dominant players by value-chain stage
- 4.4. SWOT Analysis
  - 4.4.1. Key Strengths and Opportunities
  - 4.4.2. Major Weaknesses and Threats
- 4.5 Technology Roadmap

## **CHAPTER 5- ROLL DRIED STARCH MARKET OUTLOOK BY SEGMENTS**

- 5.1. Market Size Outlook by Type, USD Million, 2021- 2025 and 2026-2032
  - 5.2. Market Size Outlook by Application, USD Million, 2021- 2025 and 2026-2032
  - 5.3. Market Size Outlook by Country, USD Million, 2021- 2025 and 2026-2032
- By Type
- Corn Starch
  - Potato Starch
  - Tapioca Starch
  - Wheat Starch

Others

By Grade

Food Grade

Industrial Grade

Pharmaceutical Grade

By Application

Food and Beverages

Paper and Pulp

Textiles

Pharmaceuticals

Adhesives and Glues

Others

By Distribution Channel

Direct Sales

Distributors and Wholesalers

Online Retail

## **CHAPTER 6- SCENARIO ANALYSIS AND OUTLOOK**

### **6.1. Base Case Scenario**

6.1.1. Definitions and Insights

6.1.2. Market Size Outlook to 2032

### **6.2. Low Growth Case Scenario**

6.2.1. Definitions and Insights

6.2.2. Market Size Outlook to 2032

### **6.3. High Growth Case Scenario**

6.3.1. Definitions and Insights

6.3.2. Market Size Outlook to 2032

## **CHAPTER 7- NORTH AMERICA ROLL DRIED STARCH MARKET SIZE ANALYSIS AND OUTLOOK**

### **7.1. North America Roll Dried Starch Market Overview**

### **7.2. Leading Companies Operating in North America**

- 10.9. Argentina
  - 10.9.1. Key Statistics
  - 10.9.2. Argentina Roll Dried Starch Market Size Outlook, 2021- 2032

10.9.3. Key Market Drivers and Industry Developments in Argentina Roll Dried Starch Companies

10.10. Rest of Latin America

10.10.1. Key Statistics

10.10.2. Rest of Latin America Roll Dried Starch Market Size Outlook, 2021- 2032

10.10.3. Key Market Drivers and Industry Developments in Rest of Latin America Roll Dried Starch Companies

## **CHAPTER 11- MIDDLE EAST AND AFRICA ROLL DRIED STARCH MARKET SIZE ANALYSIS AND OUTLOOK**

11.1. Middle East and Africa Roll Dried Starch Market Overview

11.2. Leading Companies Operating in Middle East and Africa

11.3. Key Industry Statistics, 2026

11.4. Middle East and Africa Roll Dried Starch Market Trends and Growth Opportunities to

11.5. Middle East and Africa Roll Dried Starch Market Size Outlook by Type

11.6. Middle East and Africa Roll Dried Starch Market Size Outlook by Application

11.7. Middle East and Africa Roll Dried Starch Market Size Outlook by Country

11.8. Saudi Arabia

11.8.1. Key Statistics

11.8.2. Saudi Arabia Roll Dried Starch Market Size Outlook, 2021- 2032

11.8.3. Key Market Drivers and Industry Developments in Saudi Arabia Roll Dried Starch Companies

11.9. United Arab Emirates

11.9.1. Key Statistics

11.9.2. The UAE Roll Dried Starch Market Size Outlook, 2021- 2032

11.9.3. Key Market Drivers and Industry Developments in the UAE Roll Dried Starch Companies

11.10. Africa

11.10.1. Key Statistics

11.10.2. Africa Roll Dried Starch Market Size Outlook, 2021- 2032

11.10.3. Key Market Drivers and Industry Developments in Africa Roll Dried Starch Companies

## **CHAPTER 12- COMPANY PROFILES**

12.1. Top Companies in Roll Dried Starch Industry

Cargill, Incorporated

Archer Daniels Midland Company

Ingredion Incorporated

Tate & Lyle PLC

Roquette Frères

Emsland Group

Royal Avelbe U.A.

AGRANA Beteiligungs-AG

Grain Processing Corporation

Tereos S.A.

12.2. Business Description

12.3. SWOT Profiles

12.4. Products and Services

## **CHAPTER 13- APPENDIX**

Glossary of Terms

Research Methodology & Data Sources

Conclusion & Strategic Recommendations

## I would like to order

Product name: Roll Dried Starch Market Size, Share & Growth Report, H2-2026: Industry Outlook By Type, By Grade, By Application, By Distribution Channel, Companies and Countries to 2032

Product link: <https://marketpublishers.com/r/R6CE6E3365AFEN.html>

Price: US\$ 3,285.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
