Abstracts

2020 Scar PIPELINE HIGHLIGHTS

Scar is one of the widely researched conditions during 2020 with 13 companies actively focusing on realizing pipeline's potential. Development of Scar medicines is identified as integral to the strategy of the majority of companies operating in the industry.

Global Scar market presents promising new product pipeline with NME Projects, pivotal trials, and rapidly phase-advancing therapeutic candidates. Increasing number of companies are assessing the feasibility of developing treatment options for Scar.

Good progress is anticipated during 2020 and 2021 with Scar pipeline molecules advancing from pre-clinical investigation to completion of advanced Phase clinical trials. Scar pipeline continues to expand and progress with novel mechanisms and diverse routes of administration being tested by companies.

Scar DRUG DEVELOPMENT PIPELINE OVERVIEW

The "Scar pipeline Research Monitor, 2020" report is an analytical research study on the progress achieved by pipeline companies during the year along with its historical development, current status, and outlook.

This Scar pipeline review explores high-potential early to late-stage pipeline projects with a continued focus on new insights, accelerated processes, and pipeline progression.

The competitive intelligence report on Scar presents detailed insights into therapeutic drug pipeline development, industry news, deals, and analysis across the length and breadth of the Scar pipeline. Information on R&D pipeline updates, results of key clinical trials are also included in the report.

Scar DRUG PROFILES

Scar development pipeline including projects in early- and late-stage development are detailed in the report. Details of clinical trial data and submissions to regulatory authorities are also provided. For the drug candidates included in the report, the following information is provided-

Current Status of Development including phase advancements, regulatory approvals of phases, acquisitions, licensing and technology transfers, product launches in various markets, and others.

Phase of development

Mechanism of Action

Route of Administration

Companies involved including originator, licensing companies, developer, investors, and others

New molecular entity details

Orphan drug designation and other special status provided by regulators

Scar COMPANY PROFILES

Both small size and large size pharmaceutical companies are investing their resources in Scar drug development operations. Further, financial institutions are extending support to small pharmaceutical companies, universities, and other researchers for the development of treatment of Scar. Partnerships and acquisitions are also increasingly observed in the pipeline.

This research report presents an analysis of 13 Scar companies including company overview, key snapshot, contact information, and their strategies on accelerating Scar pipeline development. Mid-stage and early portfolios of these companies are analyzed in detail in the report.

Companies analyzed in the report include- BirchBioMed Inc, Cellastra Inc, Cotinga Pharmaceuticals Inc, Ember Therapeutics Inc, FBM Therapeutics LLC , Kringle Pharma Inc, Moerae Matrix Inc, Pharmaxis Ltd, Phio Pharmaceuticals Corp, Promore Pharma

AB, Resolys Bio Inc, Synedgen Inc, Temple Therapeutics BV

REASONS TO BUY

The current market conditions are forcing companies and investors worldwide to prioritize their investments and accelerate pipeline candidates only through careful quantitative assessment.

This research work assists decision makers in pharmaceutical companies towards successful pipeline development through critically evaluated pipeline data

Buyers can identify most promising drug candidates for treatment of Scar

It allows users to strengthen their pipeline through acquisitions, licensing and collaborations

Users can estimate possible delays in the delivery of pipeline or launch of new products

Stay ahead of competition through understanding their pipeline progression, strategies and outlook

The report details all the pipeline candidates under investigation in various stages of development from Phase I through to Phase III to enable business development managers to understand the impact of new launches.

Optimize your licensing and technology transfer strategies through identification of prospect partners

Contents

1. INTRODUCTION TO SCAR

- 1.1 Scar- Disease overview
- 1.2 Scar- Market Size
- 1.3 Scar- Companies Involved

2. SCAR PIPELINE SNAPSHOT- 2020

- 2.1 Scar Pipeline by Phase
- 2.2 Scar Pipeline by Mechanism of Action
- 2.3 Scar Pipeline by Route of Administration
- 2.4 Scar Pipeline- New Molecular Entities
- 2.5 Scar Pipeline- Orphan Drug Designation/ Special Designation

3. SCAR DRUG PROFILES

- 3.1 Current Status
- 3.2 Scar Drug Snapshot
- 3.3 Scar Therapeutic Candidates- Originator/Licensor
- 3.4 Route of Administration
- 3.5 Mechanism of Action
- 3.6 NME
- 4.1 BirchBioMed Inc Scar Pipeline Insights and Clinical Trials
- 4.2 Cellastra Inc Scar Pipeline Insights and Clinical Trials
- 4.3 Cotinga Pharmaceuticals Inc Scar Pipeline Insights and Clinical Trials
- 4.4 Ember Therapeutics Inc Scar Pipeline Insights and Clinical Trials
- 4.5 FBM Therapeutics LLC Scar Pipeline Insights and Clinical Trials
- 4.6 Kringle Pharma Inc Scar Pipeline Insights and Clinical Trials
- 4.7 Moerae Matrix Inc Scar Pipeline Insights and Clinical Trials
- 4.8 Pharmaxis Ltd Scar Pipeline Insights and Clinical Trials
- 4.9 Phio Pharmaceuticals Corp Scar Pipeline Insights and Clinical Trials
- 4.10 Promore Pharma AB Scar Pipeline Insights and Clinical Trials
- 4.11 Resolys Bio Inc Scar Pipeline Insights and Clinical Trials
- 4.12 Synedgen Inc Scar Pipeline Insights and Clinical Trials
- 4.13 Temple Therapeutics BV Scar Pipeline Insights and Clinical Trials

5. SCAR MARKET NEWS AND UPDATES

6. APPENDIX

6.1 Sources and Methodology
