Abstracts

The global Stoma Care market size is poised to register 5.2% growth from 2024 to 2032, presenting significant growth prospects for companies operating in the industry. The industry study analyzes the global Stoma Care market across By Type (Ostomy bags, Ostomy accessories), By Surgery (Colostomy, Ileostomy, Urosotmy), By End-User (Hospitals and Specialty clinics, Home care settings, Ambulatory Surgical Centers, Others)

In the Stoma Care market, the increasing prevalence of stomas due to colorectal cancer, inflammatory bowel disease, and other gastrointestinal disorders is driving demand for stoma care products and services to support stoma patients' quality of life and independence. Stoma care encompasses a range of products, including ostomy pouches, skin barriers, adhesives, and accessories, as well as patient education and support services, aimed at managing stoma complications, promoting skin health, and enhancing patient comfort and confidence. With the growing emphasis on patient-centered care, holistic support, and innovative product solutions, there is a rising need for stoma care products that offer flexibility, discretion, and reliable performance. Further, advancements in material science, adhesive technology, and product design are driving market growth by enabling more comfortable, leak-resistant, and user-friendly stoma care solutions. By 2030, the market is expected to witness substantial expansion as healthcare providers, stoma care nurses, and patients increasingly

prioritize stoma care as an integral part of postoperative recovery and long-term management.
