## **Abstracts**

The global Total Ankle Replacement market size is poised to register 6.9% growth from 2024 to 2032, presenting significant growth prospects for companies operating in the industry. The industry study analyzes the global Total Ankle Replacement market across By Design (HINTEGRA Total Ankle Replacement, Scandinavian Total Ankle Replacement, Salto Total Ankle Replacement, BOX Total Ankle Replacement, Zenith Total Ankle Replacement, Mobility Total Ankle Replacement, Others), By End-User (Hospitals, Orthopedic Clinics, Others)

With the increasing demand for alternatives to ankle fusion and improved functional outcomes for patients with end-stage ankle arthritis, there is a rising interest in total ankle replacement (TAR) as a surgical treatment option to restore mobility and reduce pain. Market growth is driven by factors such as expanding aging population, the rising incidence of osteoarthritis and post-traumatic arthritis affecting the ankle joint, and technological advancements in implant design and surgical techniques. Additionally, the expanding applications of TAR in orthopedic surgery centers, foot and ankle clinics, and sports medicine practices, as well as the growing adoption of patient-specific implants

and minimally invasive approaches, contribute to market expansion. Further, the development of durable and anatomically accurate implant options, the integration of advanced imaging and navigation systems for preoperative planning and intraoperative guidance, and the emphasis on long-term implant survivorship and patient-reported outcomes are expected to further accelerate market growth in the coming years.
