## **Abstracts**

Complete report \$19,700. DataPack (test volumes, sales forecasts, supplier shares) \$12,800 VPGMarketResearch.com's new five-country report is a strategic analysis of major business opportunities emerging in the clinical chemistry and immunodiagnostic markets during the next five years. The report explores future trends in major European countries (France, Germany, Italy, Spain, UK); provides estimates of the specimen, test and sales volumes, as well as major suppliers sales and market shares; compares features of leading analyzers; profiles key competitors; and identifies specific product and marketing opportunities emerging during the next five years. The report provides five-year volume and sales forecasts for over 100 clinical chemistry, TDM, endocrine, cancer, immunoprotein and abused drug assays performed in hospitals, commercial laboratories, physician offices, and ambulatory care centers, including controls, calibrators and consumables.

### **Rationale**

The clinical chemistry and immunodiagnostic markets are undergoing significant transformation, caused by convergence of new and more stringent regulations; advances in diagnostic technologies, system engineering, automation, and IT; and intensifying competition. Some segments, like routine chemistry, are already resembling commodity markets, where product positioning and cost per test are more critical than underlying technology.

This evolving marketplace creates exciting opportunities for a variety of new

instruments, reagent systems, and auxiliary products, such as specimen preparation devices, controls, and calibrators. Worldwide Market Overview

Estimates of facilities performing clinical chemistry and immunodiagnostic tests by country.

Test volume and sales projections by country. Strategic Recommendations

New product development opportunities with significant market appeal.

Alternative market penetration strategies.

Potential market entry barriers and risks. Competitive Assessments

Strategic assessments of major suppliers and emerging market entrants, including their sales, product portfolios, marketing tactics, collaborative arrangements and new products in R&D.
