Abstracts

This new report from LeadingMarketResearch.com provides analysis of the global respiratory disease testing market, including emerging tests, technologies, instrumentation, sales forecasts by country, market shares, and strategic profiles of leading suppliers. The report is available by section, and can be customized to specific information needs and budget. About this Report This report presents detailed analysis of the Respiratory Disease market in the US, Europe (France, Germany, Italy, Spain, UK) and Japan. Current scientific views on epidemiology and etiology are provided for Adenovirus, Influenza, Legionella, Mononucleosis, Mycoplasma, Pneumonia, RSV and Tuberculosis. The report provides test volume and sales forecasts by country and market segment, including: - Hospitals - Commercial/Private Labs - Physician Offices - Public Health Labs In addition to test volume and sales projections, the report presents sales and market share estimates for major suppliers of respiratory disease diagnostic products, by test and country. Also, the report examines market applications of Molecular Diagnostics, Monoclonal Antibodies, Immunoassays, IT and other emerging technologies. - Reviews features and operating characteristics of major analyzers used for respiratory disease testing; - Profiles key suppliers and potential market entrants developing innovative technologies and products and - Analyzes emerging

opportunities, alternative market penetration strategies, market entry barriers/risks, and strategic planning issues. Methodology The report is based on a combination of primary and secondary information sources, including interviews with laboratory directors, and executives of leading diagnostics companies and start-up firms developing innovative products in the U.S., five major European countries and Japan. In addition to primary sources of information, a comprehensive review of the most recent technical and business publications, manufacturer product and financial literature, as well as LeadingMarketResearch's proprietary data files was conducted.
