Date: September 2020

Pages: 297

Price: US\$ 7,500.00 (Single User License)

ID: CD1E60809A78EN

Abstracts

This new 297-page report from VPGMarketResearch contains 72 tables and provides analysis of the global immunoprotein diagnostic market, including emerging tests, technologies, instrumentation, sales forecasts by country, market shares, and strategic profiles of leading suppliers.

The report is available by section, and can be customized to specific information needs and budget.

The report provides test volume and sales forecasts by country and market segment for the following assays:

C3

C4

Free Light Chains

Haptoglobin

IgA

IgE Specific

IgE Total

IgG

IgM

Immunofixation

Prealbumin

Protein Electrophoresis

During the next decade, the immunoprotein testing market will undergo significant transformation. The changes will be caused by convergence of new and more stringent regulations; advances in diagnostic technologies, system engineering, automation, and IT; and intensifying competition. Some segments will start resembling commodity markets, where product positioning and cost per test are more critical than underlying technology. This evolving marketplace will create exciting opportunities for a variety of new instruments, reagent systems, and auxiliary products, such as specimen preparation devices, controls, calibrators and others.

This unique worldwide market and technology assessment is designed to help current suppliers and potential market entrants identify and evaluate emerging opportunities and developed effective strategic responses. The study explores future trends in the U.S., Europe, Japan; provides test volume and sales forecasts by country, market segment and individual test; compares features of leading analyzers; and profiles key competitors.

Contains 297 pages and 72 tables
