Abstracts

This 549-page report presents an overview of the clinical significance and market needs for major current and emerging NAT assays, as well as extensive listings of companies developing and marketing innovative technologies and products.

This report also presents strategic assessments of current and emerging suppliers of nucleic acid testing products, including their sales, product portfolios, marketing tactics, technological know-how, new products in R&D, collaborative arrangements and business strategies.

Contains 549 pages and 22 tables
