Abstracts

India is fastest growing economy of the world and is fast emerging as business hub of the world.

While information on Indian markets and industry is spread out and difficult to find at one place, it is even more difficult to collect information on different regions of India.

Karnataka has emerged as the knowledge and technical capital of the country. Karnataka has a considerable contribution to India's GDP and is also growing rapidly with industry and services sector being the key pillar of the state's economy.

Karnataka Markets and Industry 2010 serves as a reference document for the decision makers and analysts who want to gain knowledge on varied aspects of Indian state.

This reports analyses the demographics, economic structure, business environment, industrial policies, infrastructure development, market size and characteristics. The comparison of all these aspects of the state with national level scenario renders a unique nature to this report.

Contents

1. INTRODUCTION AND METHODOLOGY
