Date: June 2014

Pages: 123

Price: US\$ 950.00 (Single User License)

ID: T395CBEFC40EN

## **Abstracts**

The report is half ready. The updating and translating process takes 3-5 business days after the order confirmation.

### **Project Idea**

Within the project the construction of cottage village is supposed on a plots of total area \*\*\* ha, which is located in the territory of the Crimea Republic, \*\*\*. The lot is situated within the protected zone 1 of the Black Sea, outside the secured and sanitary protected zones of enterprises.

According to the project \*\*\* of residential blocks will be constructed, existing block will be reconstructed, a café will be built. A medicine center, infrastructure facilities of the appropriate level, beach and walking areas, water park and hydro constructions will also be located on its territory.

### **Market Situation**

The main factors and tendencies of real estate market of the Crimea and Southern coast of the Crimea (SCC): \*\*\* % of Russians are ready to consider buying of the house for non-permanent residence in modern secured settlements on the Black Sea coast. The demand for finished houses is \*\*\*%. \*\*\*% of potential buyers prefer the purchase of house in cottage village. The demand is shifting from the individual cottages and massifs of chaotic building to villages, which are implemented in a single architectural building concept. Such concept envisages the obligatory presence of the whole complex of communications, service sphere, security, rest zone, green areas. Luxury cottages, which are situated in the unique recreation zones of Southern coast of the Crimea, are demanded. They are characterized by an individual project, a large area and high

quality finishing. 63% of Russians buy the real estate in Crimea for a rest and dividends. The clients are interested in real estate, situated in zones of elevated profitability. Such zones are situated in places with developed infrastructure near the sea. The average payback period of liquid real estate is about \*\*\* years.

### **Competitive Environmental of Project**

In the district, which are chosen for location and construction of cottage village «\*\*\*», the level of competition corresponds to general level on the south coast: on the required territory the facilities are represented by the following categories: \* park-hotel, \* recreational complex (town), boathouse— \* units, hotel – \* units, the total amount is \* facilities; all complexes are characterized by development infrastructure, have a wide rooms fund, include such additional medicine services as SPA-centers, gyms, the presence of children's playground and centers, swimming pools and restaurants are obligatory; the rooms fund of researching projects is different: from «standard» (economical variants) to «apartment» and «super lux» with higher comfort; all facilities are located at a distance of about 10 km from cottage village «\*\*\*», what means that they make a direct competition in terms of geography; the main advantage of all projects is stepping accessibility of the sea (1st coastal line), maximum distance – 400-500 m and also characteristics of kinds of plots due to close location to the Black Sea.

### **Finance**

Project Payback Period – 14 quarters.

Net Present Value (NPV): \$ \*\*\*.

Quarterly Internal Rate of Revenue (IRR): 3,331%.

### **Offer for investors**

Necessary investment: \$ \*\*\*.

Net profit of the investor: \$ \*\*\*.

## Contents

### **EXECUTIVE SUMMARY**

#### **1.0. DETAILED ANALYSIS OF PLOTS**

- 1.1. Description of Plots
- 1.2. Location of Project, Main Factors of It
- 1.3. Landscape characteristics of Project and Climate
- 1.4. Entrances to Plots
- 1.5. Analysis of Transport Flows in Close Proximity to Plots
- 1.6. Image of District and Region
- 1.7. Plans of Territory Development by Government and Local Authorities

#### **2.0. ANALYSIS OF DISTRICT CLOSING TO PLOTS**

- 2.1. District Short Characteristic
- 2.2. District Infrastructure Description
- 2.3. Description of Nearest Settlements (Towns, Villages, Cottage Villages)

#### **3.0. ANALYSIS OF MARKET SITUATION**

- 3.1. Analysis of Existing Competitive Environmental
- 3.2. Summary and Conclusions on Existing Competitive Environmental
- 3.3. Analysis of Similar Facilities. Strong and Weak Sides
- 3.4. Analysis of Existing and Projected Demand by the Main Client Groups of Consumers
  - 3.4.1. Forecast of Cost of Commercial and Resident Real Estate

#### **4.0. SALES**

- 4.1. Plan of Sales of Village Facilities
- 4.2. Positioning of Building Houses and Target Audience
- 4.3. Methods of Sales Promotion
- 4.4. Advertising Policy and Program of PR-Activities
- 4.5. Budget of Advertising Policy

#### **5.0. PROJECT PRICING**

- 5.1. Analysis of Market Information
- 5.2. Definition of Typical Household Cost of Similar Projects
- 5.3. Definition of Initial Cost of Typical Household (Cottage) in Village «\*\*\*» (Both Rent and Sale)

## **6.0. ARCHITECTURAL AND BUILDING CONCEPT**

- 6.1. Amount, Footage of Residential Blocks (Cottages) and Plots Area
  - 6.1.1. Justification of Land Plots Area Considering the Marketing Concept
  - 6.1.2. The optimal ratio of Areas of Development Spots to Plots Total Area
  - 6.1.3. Justification of Nomenclature of Households and Their Areas
- 6.2. Architectural and Planning Solutions
  - 6.2.1. Definition of Optimal Architectural Style of Village
  - 6.2.2. Justification of Material and Technologies of Construction
  - 6.2.3. Justification of Most Effective Planning Solutions
- 6.3. Infrastructure, Beautification, Security
  - 6.3.1. External Infrastructure (Quantitative and Qualitative Assessment of Infrastructure)
  - 6.3.2. Internal Infrastructure (Technical, Recreational, Social and Domestic)
  - 6.3.3. Beautification Planning of Territory by Volumes and Terms
- 6.4. Preliminary Master Plan of Plots Development
  - 6.4.1. Zoning of Plots in Accordance with Types and Stage of Development
  - 6.4.3. Transportation and Pedestrian-Bicycle Scheme

## **7.0. CONCLUSION ON THE BEST PLOTS USE**

- 7.1. SWOT-Analysis of Project, Strong and Weak Sides of Plots
- 7.2. Assessment of Plots for Compliance to Hypotheses and Market Conditions
- 7.3. Forecast of Project Costs

## **8.0. GENERAL CONCLUSION**

- 8.1. Analysis of Project Risks
- 8.2. Project Financial Result

## List Of Figures

### LIST OF FIGURES, TABLES AND DIAGRAMS

#### Figures

- Figure 1. Location of Village \*\*\* on Map
