Abstracts

Bacillus thuringiensis is one of typical and popular biological pesticides. In China, bacillus thuringiensis has entered a rapid development stage since 2000. Most research institutes and manufacturers have been applying fermentation engineering to optimize fermentation process and strain breeding technology, the product yield of liquid bacillus thuringiensis has been enhanced by 5-7 times. The formulation varieties have also been developed greatly in recent years, from simple powder formulations to various formulations. Due to the improvement in production process, the quality and the efficiency of production have been enhanced greatly.

Bacillus thuringiensis industry has entered a mature period with many years development, compared with other bio-pesticides. How about the detail market situation of Chinese bacillus thuringiensis? How about the future development of Chinese bacillus thuringiensis? In order to solve these questions, WBISS carries out a special market research on China bacillus thuringiensis and publish this report.

The China bacillus thuringiensis Market Report 2015 Edition is a professional and trusted study on the current state of the Chinese bacillus thuringiensis industry.

The report provides trusted data and analysis for the supply and demand situation of bacillus thuringiensis in recent 5-6 years. The detailed information includes total supply volume and development trend, major producers and their bacillus thuringiensis production situations, price trend in recent few years and the influence factors, export situation, total consumption volume and value and the detail consumption situation by formulation and by crop.

Some of the detail export data in recent years is listed and the supply and demand

forecast of bacillus thuringiensis in 2015-2020 also analyzed in this report. Brief introduction and contact information of key bacillus thuringiensis producers are also provided.

This report has been presented by tables and figures. It's a valuable source of guidance and direction for companies and individuals interested in the market. All of the data and information in this report are primary or consolidated.
