Abstracts

This report presents a strategic analysis of the signalling, safety and traffic control equipment for railways market in the Baltic countries and a forecast for its development in the medium term. It provides a comprehensive overview of the market, its dynamics, structure, characteristics, main players, growth and demand drivers, etc.

The purpose of the report is to describe the state of the signalling, safety and traffic control equipment for railways market in the Baltic countries, to present actual and retrospective information about the volumes, dynamics, structure and characteristics of production, imports, exports and consumption and to build a forecast for the market in the next five years. In addition, the report presents an elaborate analysis of the main market participants, price fluctuations, growth and demand drivers of the market and all other factors, influencing its development.

This research report has been prepared using the unique WMStrategy's methodology, including a blend of qualitative and quantitative data. The information comes from official sources and insights from market experts (representatives of the main market participants), gathered by semi-structured interviews.

The report on the signalling, safety and traffic control equipment for railways market in the Baltic countries covers the following countries: Estonia, Latvia, and Lithuania.

The report on the signalling, safety and traffic control equipment for railways market in the Baltic countries includes:

Analysis and forecast for the economy of the Baltic countries;

Analysis and forecast of the market size, value and dynamics;

Market structure (by origin, by country (includes breakdown of all indicators by all 33 analyzed countries), by types of products, etc.);

Volume, dynamics and analysis of domestic production (past, current and future);

Analysis of price levels (wholesale, retail, distributors, etc.) and their dynamics (past, current and future);

Volume, dynamics and analysis of imports (past, current and future);

Volume, dynamics and analysis of exports (past, current and future);

Volume, dynamics and analysis of consumption (past, current and future);

Characteristics of the main market participants (manufacturers, distributors, wholesalers, retailers, importers, exporters, Governmental structures, etc.) and the competitive landscape;

Value chain analysis;

Analysis and forecast of the trends and levels of supply and demand on the market;

Analysis of the factors, influencing the development of the market (market growth drivers, restraints, etc.);

Country opportunity analysis;

Analysis of the major trade flows;

Forecast for development of the market in the medium term (including three possible scenarios for development).

This report will allow you to:

Quickly and cost-effectively get a strategic analysis and gain competitive intelligence about the market;

Track market data, including size, value, dynamics, structure, segmentation and forecasts: past, present and future;

Track and identify key market trends, opportunities and threats and key drivers behind recent market changes;

Strategically assess market growth potential, demand drivers and restraints on the market;

Explore and identify new market opportunities in the countries and regions within the market;

Evaluate the key macroeconomic indicators to get insight into the general trends within the economy;

See how the market performed in the past (over the last 5 years) and how it will perform in the future (in the next 5 years);

Get acquainted with the leading companies on the market;

Evaluate how diversified the market is in terms of competitive intensity, fragmentation and environment and understand competitive threats;

Empower your marketing, branding, strategy and market development, consumption and supply functions with useful market insights;

Build your investment strategy by assessing market attractiveness or company attractiveness;

Build your own market entry or market expansion strategy or evaluate your current strategy;

Add weight to pitches and presentations by using official and accurate data and calculations.

If you are interested in the signalling, safety and traffic control equipment for railways market in the Baltic countries, this research report will provide you with a strategic analysis of the market, its recent and future development. In addition, the report will save you time and money while presenting you all the necessary information, empowering you to make informed decisions and move your business forward!

Contents

1. INTRODUCTION

- 1.1. Report description
- 1.2. Research methodology

2. EXECUTIVE SUMMARY

3. CHARACTERISTICS OF SIGNALLING, SAFETY AND TRAFFIC CONTROL EQUIPMENT FOR RAILWAYS

4. CHARACTERISTICS AND ANALYSIS OF RAW MATERIALS BASE

5. STATE OF THE ECONOMY OF THE BALTIC COUNTRIES

- 5.1. Characteristics of the economy of the Baltic countries in 2014-2018
- 5.2. Forecast for the development of the economy of the Baltic countries for 2019-2021

6. OVERVIEW AND ANALYSIS OF THE SIGNALLING, SAFETY AND TRAFFIC CONTROL EQUIPMENT FOR RAILWAYS MARKET IN THE BALTIC COUNTRIES

- 6.1. Volume, value and dynamics of the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018
- 6.2. Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018: production, imports, exports, consumption
- 6.3. Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by types of signalling, safety and traffic control equipment for railways
- 6.4. Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by origin
- 6.5. Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by country
- 6.6. Key recent trends on the signalling, safety and traffic control equipment for railways market in the Baltic countries
- 6.7. Competitive landscape of the market
- 6.8. Country opportunity analysis
- 6.9. Key drivers and restraints for the market development in the medium term
- 6.10. Forecast for development of the signalling, safety and traffic control equipment for

railways market in the Baltic countries for 2019-2024

7. OVERVIEW AND ANALYSIS OF THE DOMESTIC PRODUCTION OF SIGNALLING, SAFETY AND TRAFFIC CONTROL EQUIPMENT FOR RAILWAYS IN THE BALTIC COUNTRIES

7.1. Volume, value and dynamics of the domestic production of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

7.2. Structure of the domestic production of signalling, safety and traffic control equipment for railways by types of signalling, safety and traffic control equipment for railways

7.3. Structure of the Baltic production of signalling, safety and traffic control equipment for railways by countries

7.4. Characteristics of the main producers of signalling, safety and traffic control equipment for railways in the Baltic countries

8. CHARACTERISTICS AND ANALYSIS OF THE PRICES OF SIGNALLING, SAFETY AND TRAFFIC CONTROL EQUIPMENT FOR RAILWAYS IN THE BALTIC COUNTRIES

8.1. Value chain analysis

8.2. Structure of price formation

8.3. Characteristics of the producer prices of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

8.4. Characteristics of other prices of signalling, safety and traffic control equipment for railways

9. FOREIGN TRADE OPERATIONS OF SIGNALLING, SAFETY AND TRAFFIC CONTROL EQUIPMENT FOR RAILWAYS IN THE BALTIC COUNTRIES

9.1. Foreign trade operations of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

10. OVERVIEW AND ANALYSIS OF THE IMPORTS OF SIGNALLING, SAFETY AND TRAFFIC CONTROL EQUIPMENT FOR RAILWAYS TO THE BALTIC MARKET

10.1. Volume, value and dynamics of the imports of signalling, safety and traffic control equipment for railways to the Baltic countries in 2014-2018

10.2. Major trade inflows of signalling, safety and traffic control equipment for railways

imports to the Baltic countries

10.3. Structure of the imports of signalling, safety and traffic control equipment for railways by types of products

10.4. Prices of imported signalling, safety and traffic control equipment for railways in the Baltic countries

11. OVERVIEW AND ANALYSIS OF THE BALTIC EXPORTS OF SIGNALLING, SAFETY AND TRAFFIC CONTROL EQUIPMENT FOR RAILWAYS

11.1. Volume, value and dynamics of the Baltic exports of signalling, safety and traffic control equipment for railways in 2014-2018

11.2. Major trade outflows of signalling, safety and traffic control equipment for railways exports from the Baltic countries

11.3. Structure of the Baltic exports of signalling, safety and traffic control equipment for railways by types of products

11.4. Prices of Baltic exports of signalling, safety and traffic control equipment for railways

12. CHARACTERISTICS OF THE CONSUMPTION OF SIGNALLING, SAFETY AND TRAFFIC CONTROL EQUIPMENT FOR RAILWAYS IN THE BALTIC COUNTRIES

12.1. Volume, value and dynamics of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

12.2. Structure of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018 (by origin, by channel, by type of signalling, safety and traffic control equipment for railways)

12.3. Structure of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries by country

12.4. Volume, value and dynamics of the per capita consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

12.5. Balance between supply and demand on the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018 and forecast for 2019-2024

13. FORECAST FOR DEVELOPMENT OF THE SIGNALLING, SAFETY AND TRAFFIC CONTROL EQUIPMENT FOR RAILWAYS MARKET IN THE BALTIC COUNTRIES FOR 2019-2024

13.1. Factors, influencing the development of the signalling, safety and traffic control

equipment for railways market in the Baltic countries in the medium term

13.2. Forecast for market development in the medium term under three possible scenarios

LIST OF FIGURES

Volume and dynamics of the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018

Value and dynamics of the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018, in volume terms

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018, in value terms

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by types of signalling, safety and traffic control equipment for railways, in volume terms

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by types of signalling, safety and traffic control equipment for railways, in value terms

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by origin in volume terms in 2014-2018

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by origin in value terms in 2014-2018

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by country in 2014-2018, in volume terms

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by country in 2014-2018, in value terms

Volume and dynamics of the domestic production of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

Value and dynamics of the domestic production of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

Structure of the domestic production of signalling, safety and traffic control equipment for railways by types of signalling, safety and traffic control equipment for railways, in volume terms

Structure of the domestic production of signalling, safety and traffic control equipment for railways by types of signalling, safety and traffic control equipment for railways, in value terms

Structure of the domestic production of signalling, safety and traffic control equipment

for railways in the Baltic countries by producing countries in 2014-2018, in volume terms
Structure of the domestic production of signalling, safety and traffic control equipment for railways in the Baltic countries by producing countries in 2014-2018, in value terms
Value chain analysis of the signalling, safety and traffic control equipment for railways market in the Baltic countries

Structure of the signalling, safety and traffic control equipment for railways price formation in the Baltic countries, in %

Deviation of the average producer prices of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

Trade balance of signalling, safety and traffic control equipment for railways foreign trade in the Baltic countries in 2014-2018, in volume terms

Trade balance of signalling, safety and traffic control equipment for railways foreign trade in the Baltic countries in 2014-2018, in value terms

Volume and dynamics of the imports of signalling, safety and traffic control equipment for railways to the Baltic countries in 2014-2018

Value and dynamics of the imports of signalling, safety and traffic control equipment for railways to the Baltic countries in 2014-2018

Main countries, importing signalling, safety and traffic control equipment for railways to the Baltic countries in 2014-2018, in volume terms

Main countries, importing signalling, safety and traffic control equipment for railways to the Baltic countries in 2014-2018, in value terms

Volume and dynamics of the imports of signalling, safety and traffic control equipment for railways by types of signalling, safety and traffic control equipment for railways in 2014-2018

Value and dynamics of the imports of signalling, safety and traffic control equipment for railways by types of signalling, safety and traffic control equipment for railways in 2014-2018

Average prices of imported signalling, safety and traffic control equipment for railways to the Baltic countries in 2014-2018

Volume and dynamics of the Baltic exports of signalling, safety and traffic control equipment for railways in 2014-2018

Value and dynamics of the Baltic exports of signalling, safety and traffic control equipment for railways in 2014-2018

Recipient countries of the Baltic exports of signalling, safety and traffic control equipment for railways in 2014-2018, in volume terms

Recipient countries of the Baltic exports of signalling, safety and traffic control equipment for railways in 2014-2018, in value terms

Structure of the Baltic exports of signalling, safety and traffic control equipment for railways by types of signalling, safety and traffic control equipment for railways in

2014-2018, in volume terms

Structure of the Baltic exports of signalling, safety and traffic control equipment for railways by types of signalling, safety and traffic control equipment for railways in 2014-2018, in value terms

Average prices of the Baltic exports of signalling, safety and traffic control equipment for railways in 2014-2018

Volume and dynamics of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

Value and dynamics of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

Structure of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018, in volume terms

Structure of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018, in value terms

Structure of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries by types of signalling, safety and traffic control equipment for railways, in volume terms

Structure of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries by types of signalling, safety and traffic control equipment for railways, in value terms

Structure of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries by consuming countries in 2014-2018

Volume and dynamics of the per capita consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

Value and dynamics of the per capita consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

Balance between supply and demand on the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018 and forecast for 2019-2024, in volume terms

Balance between supply and demand on the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018 and forecast for 2019-2024, in value terms

Forecast for the total supply of signalling, safety and traffic control equipment for railways in the Baltic countries for 2019-2024 (under the framework of the base scenario), in physical and value terms

Forecast for the total supply of signalling, safety and traffic control equipment for railways in the Baltic countries for 2019-2024 (under the framework of the pessimistic scenario), in physical and value terms

Forecast for the total supply of signalling, safety and traffic control equipment for

railways in the Baltic countries for 2019-2024 (under the framework of the optimistic scenario), in physical and value terms

About

ABOUT WMSTRATEGY

This report is 75% ready and is in completion stage. The final version of the research report will be presented up to 5 working days after your order. If you purchase the Corporate License, you will get an Excel sheet with all the quantitative information in up to 2 working days after your purchase. Feel free to contact us for more information or to request a demo version!

List Of Tables

LIST OF TABLES

Key indicators on the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018

Key indicators of the economy of the Baltic countries in 2014-2018

Forecast for the economy of the Baltic countries for 2019-2021

Volume and dynamics of the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018

Value and dynamics of the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018, in volume terms

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018, in value terms

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by types of signalling, safety and traffic control equipment for railways, in volume terms

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by types of signalling, safety and traffic control equipment for railways, in value terms

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by origin in 2014-2018, in volume terms

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by origin in 2014-2018, in value terms

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by country in 2014-2018, in volume terms

Structure of the signalling, safety and traffic control equipment for railways market in the Baltic countries by country in 2014-2018, in value terms

Country opportunity analysis

Volume and dynamics of the domestic production of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

Value and dynamics of the domestic production of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

Structure of the domestic production of signalling, safety and traffic control equipment for railways by types of signalling, safety and traffic control equipment for railways, in volume terms

Structure of the domestic production of signalling, safety and traffic control equipment

for railways by types of signalling, safety and traffic control equipment for railways, in value terms

Structure of the domestic production of signalling, safety and traffic control equipment for railways in the Baltic countries by producing countries in 2014-2018, in volume terms

Structure of the domestic production of signalling, safety and traffic control equipment for railways in the Baltic countries by producing countries in 2014-2018, in value terms

Value chain analysis of the signalling, safety and traffic control equipment for railways market in the Baltic countries

Cost breakdown of the price formation of signalling, safety and traffic control equipment for railways in the Baltic countries, in %

Volume and dynamics of the average producer prices of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

Volume and dynamics of other prices of signalling, safety and traffic control equipment for railways in the Baltic countries (wholesale, distributor, retail, etc.) in 2014-2018

Trade balance of signalling, safety and traffic control equipment for railways foreign trade in the Baltic countries in 2014-2018, in volume terms

Trade balance of signalling, safety and traffic control equipment for railways foreign trade in the Baltic countries in 2014-2018, in value terms

Volume and dynamics of the imports of signalling, safety and traffic control equipment for railways to the Baltic countries in 2014-2018

Value and dynamics of the imports of signalling, safety and traffic control equipment for railways to the Baltic countries in 2014-2018

Main countries, importing signalling, safety and traffic control equipment for railways to the Baltic countries in 2014-2018, in volume terms

Main countries, importing signalling, safety and traffic control equipment for railways to the Baltic countries in 2014-2018, in value terms

Structure of the imports of signalling, safety and traffic control equipment for railways by types of signalling, safety and traffic control equipment for railways in 2014-2018, in volume terms

Structure of the imports of signalling, safety and traffic control equipment for railways by types of signalling, safety and traffic control equipment for railways in 2014-2018, in value terms

Average prices of imported signalling, safety and traffic control equipment for railways to the Baltic countries in 2014-2018

Volume and dynamics of the Baltic exports of signalling, safety and traffic control equipment for railways in 2014-2018

Value and dynamics of the Baltic exports of signalling, safety and traffic control equipment for railways in 2014-2018

Recipient countries of the Baltic exports of signalling, safety and traffic control

equipment for railways in 2014-2018, in volume terms

Recipient countries of the Baltic exports of signalling, safety and traffic control equipment for railways in 2014-2018, in value terms

Structure of the Baltic exports of signalling, safety and traffic control equipment for railways by types of signalling, safety and traffic control equipment for railways in 2014-2018, in volume terms

Structure of the Baltic exports of signalling, safety and traffic control equipment for railways by types of signalling, safety and traffic control equipment for railways in 2014-2018, in value terms

Average prices of the Baltic exports of signalling, safety and traffic control equipment for railways in 2014-2018

Volume and dynamics of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

Value and dynamics of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

Structure of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018, in volume terms

Structure of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018, in value terms

Structure of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries by types of signalling, safety and traffic control equipment for railways, in volume terms

Structure of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries by types of signalling, safety and traffic control equipment for railways, in value terms

Structure of the consumption of signalling, safety and traffic control equipment for railways in the Baltic countries by consuming countries in 2014-2018

Volume and dynamics of the per capita consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

Value and dynamics of the per capita consumption of signalling, safety and traffic control equipment for railways in the Baltic countries in 2014-2018

Balance between supply and demand on the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018 and forecast for 2019-2024, in volume terms

Balance between supply and demand on the signalling, safety and traffic control equipment for railways market in the Baltic countries in 2014-2018 and forecast for 2019-2024, in value terms

Forecast for the total supply of signalling, safety and traffic control equipment for railways in the Baltic countries for 2019-2024 (under the framework of the base

scenario), in physical and value terms

Forecast for the total supply of signalling, safety and traffic control equipment for railways in the Baltic countries for 2019-2024 (under the framework of the pessimistic scenario), in physical and value terms

Forecast for the total supply of signalling, safety and traffic control equipment for railways in the Baltic countries for 2019-2024 (under the framework of the optimistic scenario), in physical and value terms
