EXECUTIVE SUMMARY

The sparkling wine market in Czech Republic was equal to 56.00 million USD (calculated in retail prices) in 2014. Until 2024, the wine market in Czech Republic is forecast to reach 115.71 million USD (in retail prices), thus increasing at a CAGR of 4.24% per annum for the period 2019-2024. This is a decrease, compared to the growth of about 12.28% per year, registered in 2014-2018.

The average consumption per capita in value terms reached 5.30 USD per capita (in retail prices) in 2014. In the next five years, it grew at a CAGR of 12.07% per annum. In the medium term (by 2024), the indicator is forecast to slow down its growth and increase at a CAGR of 4.29% per annum.

Sparkling wine has become increasingly popular in the past few years and is a major driver of growth in the overall wine category. Its share in the global wine sales is rapidly growing, especially in spring and summer, when

consumers are in demand for more light and refreshing beverages. Based on type, the category has been driven by prosecco, which is especially popular among millennials. Geographically, consumption in Germany is fading, while in the new wine markets such as China, Brazil, Japan, South Korea, Russia and some regions in Africa, it is gaining a momentum. Demand for sparkling wines from the new world such as Chile, Australia, New Zealand and Brazil is also rising.

Another interesting trend on the sparkling wine market is linked with the alternative packaging. There are many companies, which are exploring unconventional ways of packaging, including cans and single-serving bottles.

Those types are more practical in the summer, as they can be used in outdoor places and events, where glass bottles typically cannot, and are convenient to carry.

Another important development on the market is the cooperation between the German sparkling wine producer Henkell and the Spanish leading company – Freixenet S.A. In the second half of 2018, Henkell completed the acquisition of the Spanish wine maker by acquiring 50.67% of its shares. Thus, the two companies form the world's largest sparkling wine group.
