Abstracts

Short Description

This report presents a strategic analysis of the European baby and child skin care products market and a forecast for its development in the medium term, taking into account the impact of COVID-19 on it. It provides a comprehensive overview of the market value, dynamics, segmentation, characteristics, main players, prices, international trade, trends and insights, growth and demand drivers, challenges, etc. This is the most detailed (COVID-19 updated) and comprehensive report about the European baby and child skin care products market, covering all European countries (37 single countries). The report presents information on each indicator for each of the 37 countries covered, offering unmatched value, accuracy and expert insights.

Report Purpose

The purpose of the report is to describe the state of the European baby and child skin care products market and to present real and expert-verified information about the values, dynamics, segmentation and characteristics of consumption, prices, imports, and exports. The report also presents a forecast for the market development in the medium term and the impact COVID-19 has and will have on it. In addition, the report presents an elaborate analysis of the main market participants, industry trends and insights, growth and demand drivers and challenges and all other factors, influencing the market development.

Questions This Report Answers

The report on the European baby and child skin care products market covers:

Market value and dynamics for the last five years;

Market segmentation (by each covered country; by product groups, etc.) for the last five years;

Analysis of the factors, influencing the market development (market trends and insights, drivers and challenges) and the impact COVID-19 has and will have on the market in both the short and the medium term;

Value chain analysis and structure of price formation;

Analysis of retail price levels and their dynamics for the last five years (broken down by each covered country);

Analysis of the major international trade flows;

Value, dynamics, segmentation (by each covered country) and analysis of imports for the last five years;

Value, dynamics, segmentation (by each covered country) and analysis of exports for the last five years;

Value and dynamics of the average import and export prices for the last five years (broken down by each covered country);

Value, dynamics, segmentation and analysis of per capita consumption for the last five years (broken down by each covered country);

Forecast for market development in the medium term (value and segmentation by each covered country);

Characteristics of the main players on the market;

Analysis of the competitive landscape;

Market shares of the main market players for the whole region;

Distribution channels for retail sales;

Five Forces analysis;

Analysis and forecast for the global economy and demographics.

How Can You Benefit from This Report?

With the help of this report you can:

Discover reliable and expert-verified market data, with which you can confidently make smarter business decisions and drive your business forward;

Track market data, including value, segmentation, forecasts, dynamics and structure – past, present and future;

Quickly and cost-effectively own a strategic analysis and gain competitive intelligence about the market;

Track and identify key market trends and insights and key drivers behind recent market changes;

Strategically assess growth potential, opportunities, demand drivers and challenges on the market and see what impact COVID-19 has and will have on the market in both the short and the medium term;

Own and compare information at both aggregate level (regionally) and for each individual country, covered in the report;

Discover the top-performing markets (strongest and weakest performers) as well as the markets, that are forecast to grow the most in the medium term (rising stars vs. yesterday's news);

Discover the importance of each distribution channel for the retail market;

Build and execute upon a strong strategy based on verified market data and expert insights;

Explore and identify new market opportunities in the countries within the market;

Discover how each of the markets performed in the past (in the last 5 years) and how it will perform in the future (in the next 6 years);

Strategically assess the competitive position of the main market players and their respective market shares;

Evaluate how diversified the market is in terms of competitive intensity, fragmentation and environment and understand competitive threats;

Make important strategic decisions safely and with confidence;

Discover data your competitors might already have and be acting upon;

Evaluate your position on the market, choose a new market to enter or get to know a completely new market;

Receive professional expertise on the market and everything important, connected with its development;

Save your time and resources by not having to compile the whole research by yourself;

Save money by not having to invest in 37 country reports separately;

Get all the data you need in one place;

Empower your marketing, branding, strategy, product and business development, consumption and supply functions with valuable market insights;

Build your investment strategy by assessing market attractiveness, country attractiveness or company attractiveness;

Build your own market entry or market expansion strategy or evaluate your current strategy;
