The North American Mobile Phones Industry Report Description

This report presents an overview of the North American mobile phones industry for the period 2020-2024, the effect of recent high-impact world events on it, and a forecast for the industry development in the medium term (2025F-2030F). It is a comprehensive industry report, analyzing multiple products within the beer industry, segmented into several main categories.

This research report provides a strategic analysis of the North American mobile phones industry and describes the industry size, main market participants, growth and demand drivers, challenges, and other factors that influence the development of the industry.

This analysis includes information about the market volume and value, import, export, foreign trade, and pricing of the main product groups within the industry.

This report covers mobile phones - including smartphones (mobile devices with an advanced operating system, capable of running downloaded apps) and feature phones (mobile devices with minimal functionality), and is broken down by:

Product groups: Smartphones; Feature phones

Price segments: Mass; Mid-priced; Premium

Distribution channels (online vs. offline): Online; Offline

Retail distribution channels: Mobile network providers; Electronics specialist retailers; Independent retailers; Supermarkets and hypermarkets

The report on the North American mobile phones industry covers the following countries:

Canada, Mexico, United States of America

You will receive the industry research report within five working days after order confirmation. Contact us to learn if a shorter delivery time would be possible. After the delivery, you can study the report thoroughly and ask questions within the following three months.

We also offer similar market research reports and special terms for bundle purchases. Within the same industry, we also provide feasibility studies, business plans, due diligence reports, market entry, market development, product launch and product development studies, direct access to millions of potential new consumers, partner search and selection, and more. Contact us for more information.

State of the Global Demographics and Economy

This section of the report presents you with historical and forecast data about key macroeconomic indicators of the global demographics and economy:

What are the values of key global economic indicators (GDP, inflation, unemployment, government debt, etc.)?

What are the values of key global demographic indicators (population, growth rate, life expectancy, age and gender, etc.)?

Analysis of the North American Mobile Phones Industry

This section of the report provides an overview of the market size and dynamics of the mobile phones industry in North America, segmented by the main product groups in volume and value terms for the period 2020-2024. It answers the following questions:

What are the size and dynamics of the North American mobile phones industry in volume and value terms?

How has the North American mobile phones industry been segmented by country in volume and value terms over the past five years?

How has the North American mobile phones industry been segmented by product groups in volume and value terms over the past five years?

How is the industry broken down by segments?

What are the major trends affecting the industry?

Which are the major companies on the North American mobile phones industry and what are their main characteristics?

How fragmented is the competitive landscape?

What is the degree of competition, based on Porter's five forces?

What are the drivers and challenges affecting the industry development?

North American Mobile Phones Prices

The price section of the industry research report answers:

How is the industry value chain formed?

What is the structure of price formation?

What are the average retail prices of mobile phones in North America and how have they changed over the last five years?

What are the average retail prices of the main product groups within the industry?

How have the mobile phones retail prices in North America developed in each of the analyzed countries over the last five years?

Foreign Trade Operations of Mobile Phones in North America

The foreign trade operations section of the industry report answers:

How has the trade balance developed over the last five years?

Does North America import more mobile phones than it exports within each of the main product groups in the industry?

Which North American countries are net importers and which - net exporters of mobile phones?

Imports of Mobile Phones to North America

The import section of the industry research report answers:

How has the volume and value of mobile phones imports to North America changed over the past five years?

How are the North American mobile phones imports segmented by main product groups?

Which are the major North American countries importing mobile phones?

Which are the major countries that export mobile phones to North America?

What are the average prices of mobile phones imported to each North American country and how have they changed over the last five years?

Exports of Mobile Phones from North America

The export section of the industry report answers:

How has the volume and value of mobile phones exports from North America changed over the past five years?

How are the North American mobile phones exports segmented by main product groups?

Which are the major North American countries exporting mobile phones?

Which are the main recipient countries of the North American exports of mobile

phones?

What are the average prices of mobile phones exported from each North American country and how have they changed over the last five years?

Consumption of Mobile Phones in North America

This section of the report answers:

What is the per capita consumption of mobile phones in each North American country in volume and value terms? How has it changed over the past five years?

North American Mobile Phones Industry Forecast

The final section of the industry report presents a forecast for the industry development in the medium term, based on three scenarios - base, pessimistic, and optimistic. The forecast section answers:

How will the mobile phones industry in North America develop over the next six years for each scenario?

What are the forecasted market dynamics of the main product groups within the industry under the base scenario?

Short Methodology

The industry research report is prepared using WMStrategy's proven research methodology. It includes a blend of qualitative and quantitative data. The information comes from official sources and includes insights from market experts (representatives of the main market participants), gathered through semi-structured interviews.

For this particular industry report, at least 20 interviews have been conducted with market experts from the leading companies (producers, distributors, retailers, suppliers, etc.). A detailed methodology is available upon request.

Customization

The report will be updated as of the current month of purchase and will be dispatched within five working days after order confirmation. It can be amended to fit your specific data needs and preferences to cover your individual goals. Contact us to share your particular requirements!

Report Benefits

Discover how the mobile phones industry in North America performed in the past (in the last five years) and how it will perform in the future (in the next six years);

Track and identify key industry trends and insights behind recent industry changes;

Understand the overall local demand for the main mobile phones product groups;

Discover which are the most promising markets and segments;
Strategically assess the competitive position of the main industry players;
Evaluate how diversified the industry is in terms of competitive intensity, fragmentation, and environment in order to understand competitive threats;
Assess growth potential, opportunities, demand drivers, and challenges in the industry;
Quickly and cost-effectively receive a complete strategic analysis of the industry;
Improve your pitches and presentations by using verified industry data and expert insights;
Make important strategic decisions safely and with confidence;
Receive professional expertise on the industry and its development;
Empower your marketing, branding, strategy, product and business development with valuable industry insights;
Build your investment strategy by assessing industry attractiveness or company attractiveness;
Evaluate the key macroeconomic indicators to get insight into the general trends within the economy and demographics;
Acquire data your competitors might already have and be acting upon.

Report Users

This industry research report is ideal for people who want to gain a comprehensive understanding of the mobile phones industry in North America. It is also tailored to help people who need a clear and fact-based analysis of the market size and dynamics, import, export, foreign trade, and pricing of the main product groups and country markets within the industry. Most often, these people are professionals actively working in the industry as:

C-suite executives;
Directors;
Industry strategists;
Marketing professionals;
