Abstracts

This is the upcoming report. The report will be fully prepared and delivered on the date of publication.

Air Curtains Market: Overview

The air curtains are used for the purpose of preventing the air or the pollutants that move in the open space from entering inside. Generally, the air curtains are used in the downward-facing blower fans that are placed over the entrances of the building or in between the spaces that are conditioned at different temperatures. In order to conserve the energy, air curtains are the best alternative. The air curtains reduce the emission of the pollutants.

Air Curtains Market: Facts

It is very important to choose the right type of air curtains that is the right type and the size of the doorway is required for the new or the retrofit installations. The right air curtain is the one that covers the door width and also has an airflow that matches the mounting height of the air curtain. Electrically heated, water heated, or unheated units of the air curtains are available in the market. Mostly, the unheated units are used in the cold storage applications.

Air Curtains Market: Segmentation

The global market for the air curtains is fragmented into its type and applications. Based on the type, the global market is segregated into re-circulating air curtains and non-re-circulating air curtains. Based on the type, the market is categorized into industrial climate control, industrial oven openings, dust and humidity control, air-conditioned

areas, and mines.

Air Curtains Market: Growth Factors

The factors that are favoring the growth of the air curtains market are the increasing demand for the good quality devices that are energy efficient and the increasing awareness among the people. Increasing focus on the energy efficiency is positively affecting the air curtains market. The requirements of the customers are changing such as they want to keep out the humid air in the hot climate and want the supply of heat in the winter season. Another significant segment of this market is the re-circulating air curtains which will experience a good growth in the coming years. The end-user industry that is contributing a significant share in the air curtains market is the industrial segment. There are certain factors that will restrain the growth of the air curtains market such as the poor standard installation and the low standard design.

Air Curtains Market: Regional Analysis

The key factor that is contributing to the market growth in the regions is the significant growth of the commercial sectors. The air curtains market is flourishing in the Asia Pacific region. The trends are changing among the consumers in different regions and this is due to the fact that the retailers are creating attractive formats of sales. The regions such as North America and Europe are contributing a good share in the market. In the coming years, the market will experience a rapid growth in the Latin American and the Middle East and Africa regions.

Air Curtains Market: Competitive Players

The key market players that are involved in the air curtains market include Airtecnicos, Thermoscreens, Solar and Palau, Panasonic, Frico, Meech International, Biddle, Novovent, and Systemair.
