## **Abstracts**

**This is the upcoming report. The report will be fully prepared and delivered on the date of publication.**

### **Global E-Waste Management Market: Overview**

The rejected electronic devices and components or the waste materials that are involved in their manufacturing are known as electronic waste or e-waste. The e-waste contains computers, televisions, mobile phones, white goods such as washing machines, tablets, dryers, stereo systems, kettles, fridges, toys, digital cameras, home entertainment systems, toasters; almost any of the components that involve power or the battery supply. As the manufacturing of the electronic appliances is on the rise; the generation of the e-waste has thus increased rapidly.

### **Global E-Waste Management Market: Segmentation**

The global e-waste management market is segmented into its material recovery, source type, and regions. On the basis of material recovery, the global market is segregated into plastic, metals, glass, PCBs, ceramics, wood, and others. Based on the source type, the market is categorized into household appliances, entertainment and consumer electronics, IT Telecommunications, and others. Region-wise, the e-waste management market is diversified into Asia Pacific, North America, Europe, and Rest of the World.

### **Global E-Waste Management Market: Growth Factors**

The key reason for the growth of the e-waste is the increasing innovation of the products, especially in the electronics and home appliances middle East sector, for

example, big huge size televisions are now replaced by the flat screen televisions. In addition, the economic growth along with industrialization and urbanization, and the increase in the growth of the production of electronic goods and its low cost has increased the growth of the e-waste globally. This growth will continue to grow in the coming years. The e-waste management market has a good scope in the global market owing to its potential to recover and recycle the materials such as plastics, metals such as ferrous metals and the non-ferrous metals, glass, and others. These materials are recovered from different types of electronic waste resources. These waste may contain harmful toxic substances which can adversely affect the human health, thus the government of various regions is taking initiatives to invest in the e-waste management, thus triggering the market growth. Various measures are being adopted to reduce the amount of e-waste which includes the technical intervention such as, production process modification, product design, the use of renewable materials and energy, and much more.

### Global E-Waste Management Market: Regional Analysis

Region-wise, the e-waste management market is diversified into Asia Pacific, North America, Europe, Latin America, and the Middle East and Africa. The region that dominates the world in generating the e-waste is the North America. To be specific, in the North American region the US is the region that produces the maximum e-waste. North America is followed by Europe and Asia-Pacific. The regions that produced the lowest e-waste is Haiti and Afghanistan. Many countries such as Egypt, China, Switzerland, England, Japan, and many others along with many IT and electronic goods manufacturing organizations have joined hands with the global organization StEP which helps in improving the methods to dispose the e-waste.

### Global E-Waste Management Market: Competitive Players

The major market players in the e-waste management market include Aurubis AG, MBA Polymers, Inc., Global Electric Electronic Processing Inc., Stena Technoworld AB, Enviro-Hub Holdings Ltd., Boliden AB, Electronic Recyclers International, Inc., Umicore S.A., Tetronics (International) Ltd., and Sims Metal Management Ltd.

### Global E-Waste Management Market: Regional Segment Analysis

North America

U.S.

Europe

UK

France

Germany

Asia Pacific

China

Japan

India

Latin America The Middle East

Brazil

Mand Africa

What Reports Provides

Full in-depth analysis of the parent market

Important changes in market dynamics

Segmentation details of the market

Former, on-going, and projected market analysis in terms of volume and value

Assessment of niche industry developments

Market share analysis

Key strategies of major players

Emerging segments and regional markets

Testimonials to companies in order to fortify their foothold in the market

## I would like to order

Product name: E-Waste Management Market: Global Industry Analysis, Size, Share, Growth, Trends, and Forecasts 2016–2024

Product link: <https://marketpublishers.com/r/E03FFDE3A54EN.html>

Price: US\$ 3,599.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/E03FFDE3A54EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
