Abstracts

Report Brief

The report covers forecast and analysis for the in-pipe inspection robots market on a global and regional level.

The report includes the positive and the negative factors that are influencing the growth of the market.

Market opportunities are discussed in detail in the report.

The revenue generated by the prominent industry players has been analyzed in the report.

The market numbers have been calculated using top-down and the bottom-up approaches.

The in-pipe inspection robots market has been analyzed using Porters Five Forces Analysis.

The market is segmented on the basis of product type, application, and

organization size which in turn is bifurcated on a regional level as well.

All the segments have been evaluated based on the present and the future trends.

The report deals with the in-depth quantitative and qualitative analyses of the in-pipe inspection robots market.

The report includes the detailed company profiles of the prominent market players.

Overview

Robots that are meant for inspecting the residues that are built up inside the pipe are known as in-pipe inspection robots. Such robots have the capability to send video feedbacks from the ground to the controller of the robot. By this, the users can verify the actual condition of the pipe and can also measure the thickness of the deposition on the walls of the pipe. In-pipe inspection robots have applications in water supply facilities, oil refineries, gas fields and processing units, and several manufacturing plants.

Value

The global in-pipe inspection robots market was valued at around USD 605 million in the year 2017 and is expected to reach over USD 2,450 million by the end of 2026 growing at a CAGR of more than 16.5% between 2018 and 2026.

Drivers and Restraints

Robots are being used increasingly in various verticals in order to reduce the human intervention from work environments that are dangerous. In various industrial plants, the pipeline networks are inspected regularly for efficiency and security. The operations such as cleaning, maintenance, and inspection are expensive thus applications of robots appear to be an attractive solution. Pipeline networks are laid down for the transportation of oil and gas, drinking waters, etc. These pipelines face the problem of corrosion, aging, cracks, and various another type of damages. Thus keeping a check on these pipeline networks is very essential. Manual inspection of pipelines requires a lot of manpower. This incurs additional cost for the companies. Usage of in-pipe inspection robots, though expensive, works with accuracy and generates positive cash

flow over a period of time. This is likely to boost the use of in-pipe inspection robots market over the forecast period. Moreover, the petrochemical industry is increasingly adopting pipeline transport. As the demand for oil and gas is increasing across the globe, it is expected that the pipeline network will increase in length in the near future thereby increasing the popularity of the in-pipe inspection robots market.

However, the in-pipe inspection robots market is expected to face some challenges such as high capital investment and inability to move in T-shape pipe. This is projected to negatively impact the in-pipe inspection robots over the forecast period.

Segmentation

Diameter robot product type segment registered the highest market share of over 37.09% in 2017 and it is also expected to grow at a high CAGR of around 17.62% over the forecast period. Diameter robots are capable of moving through very small pipes. This robot can be used to inspect and perform operations in various sizes of pipes ranging from 150 mm to 5000 mm. Hence diameter robots are being widely used in several applications and is projected to grow at a significant CAGR over the forecast period. In the coming years, welding pipe robot is expected to grow with the highest CAGR of over 18%. This is owing to the fact that automation has stepped in as an alternative to manual welding. Robotic automation along with the flexibility of the human operator anticipates increasing the demand for the welding pipe robot.

By application, gas pipeline accounted for the largest market share of more than 37.22% in 2017. The gas pipeline applications were valued at around USD 606.53 million in the year 2017 and is expected to reach over USD 225.75 million by the end of 2026 growing at a CAGR of more than 16.39% between 2018 and 2026. The growth in the usage of in-pipe inspection robots in the gas pipeline application is mainly due to the deposition of a wax-like substance on the walls of the pipelines. Such deposition occurs very often owing to change in the pipeline wall temperature. Moreover, negative radial temperature gradient present in the flow may also result in deposition of a crystalline or wax-like substance on the walls of the pipeline. The deposition on the walls of the pipelines is more frequent in gas pipelines. Hence in-pipe inspection robots are widely used in the inspection of gas pipelines.

Asia Pacific is expected to grow at the highest CAGR of 20.23% over the forecast period. The growth in Asia Pacific in-pipe inspection robots market is owing to increasing investment in the transportation of petrochemical products through the pipeline network. This is estimated to create ample opportunities for in-pipe inspection

robots in the Asia Pacific. North America held the highest market share of the global in-pipe inspection robots market in 2017. This is owing to the large network of pipeline in North America which accounts for around 2,325,032 km.

Industry Players

The report includes detailed profiles of the prominent market players that are trending in the market. The lists of the players that are compiled in the report are CUES Inc., Envirosight LLC, GE Inspection Robotics, IBAK Helmut Hunger GmbH Co. KG., Medit Inc. (Fiberscope), RedZone Robotics, Inc., Inuktun Services Ltd., MISTRAS Group Inc., RIEZLER Inspektions Systeme GmbH Co. KG, Xylem, Inc., and Honeybee Robotics, Ltd., among others.

The prominent market players maintain the competitive edge in the global market by making investments in the mergers and acquisitions and by increasing their product portfolio. On 11th December 2017, Xylem Inc. acquired Calgary-based water and oil and gas pipeline monitoring specialist Pure Technologies Ltd. for \$509 million.

Contents

CHAPTER 1. INTRODUCTION

- 1.1. Report description and scope
- 1.2. Research scope
- 1.3. Research methodology
 - 1.3.1. Market research process
 - 1.3.2. Market research methodology

CHAPTER 2. EXECUTIVE SUMMARY

- 2.1. Global In-Pipe Inspection Robots market, (USD Million)
- 2.2. Global In-Pipe Inspection Robots market: Snapshot

CHAPTER 3. IN-PIPE INSPECTION ROBOTS MARKET DYNAMICS

- 3.1. Introduction
- 3.2. Market drivers
- 3.3. Restraints
- 3.4. Opportunities
- 3.5. Porters five forces analysis
 - 3.5.1. Bargaining power of suppliers
 - 3.5.2. Bargaining power of buyers
 - 3.5.3. The threat of new entrants
 - 3.5.4. The threat of new substitutes
 - 3.5.5. Degree of competition
- 3.6. Market attractiveness analysis
 - 3.6.1. Market attractiveness analysis, by Product Type segment
 - 3.6.2. Market attractiveness analysis, by Application Type segment
 - 3.6.3. Market attractiveness analysis, by Organization Type segment
 - 3.6.4. Market attractiveness analysis, by Regional segment

CHAPTER 4. GLOBAL IN-PIPE INSPECTION ROBOTS MARKET COMPETITIVE LANDSCAPE

- 4.1. Company market share, 2016 (Subject To Data Availability)
- 4.2. Strategic Development
 - 4.2.1. Acquisitions Mergers

- 4.2.2. New Product Launch
- 4.2.3. Agreements, Partnerships, Collaborations and Joint Ventures
- 4.2.4. Research and Development, Product and Regional Expansion

CHAPTER 5. GLOBAL IN-PIPE INSPECTION ROBOTS MARKET PRODUCT TYPE SEGMENT ANALYSIS

5.1. Global In-Pipe Inspection Robots market: Product Type overview

5.1.1. Global In-Pipe Inspection Robots market revenue share, by Product Type, 2017 and 2026

5.2. Thickness Measuring Robot

5.2.1. Thickness Measuring Robot In-Pipe Inspection Robots market, 2017-2026 (USD Million)

5.3. Diameter Robot

5.3.1. Diameter Robot In-Pipe Inspection Robots market, 2017-2026 (USD Million)

5.4. Welding Pipe Robot

5.4.1. Welding Pipe Robot In-Pipe Inspection Robots market, 2017-2026 (USD Million)

5.5. Others

5.5.1. Others In-Pipe Inspection Robots market, 2017-2026 (USD Million)

CHAPTER 6. GLOBAL IN-PIPE INSPECTION ROBOTS MARKET APPLICATION TYPE SEGMENT ANALYSIS

6.1. Global In-Pipe Inspection Robots market: Application Type overview

6.1.1. Global In-Pipe Inspection Robots market revenue share, by Application Type, 2017 and 2026

6.2. Water Supply Facilities

6.2.1. Global In-Pipe Inspection Robots market by Water Supply Facilities 2017-2026 (USD Million)

6.3. Oil Pipeline

6.3.1. Global In-Pipe Inspection Robots market by Oil Pipeline 2017-2026 (USD Million)

6.4. Gas Pipeline

6.4.1. Global In-Pipe Inspection Robots market by Gas Pipeline 2017-2026 (USD Million)

6.5. Plant

6.5.1. Global In-Pipe Inspection Robots market by Plant 2017-2026 (USD Million)

CHAPTER 7. GLOBAL IN-PIPE INSPECTION ROBOTS MARKET REGIONAL

SEGMENT ANALYSIS

7.1. Global In-Pipe Inspection Robots market: Regional overview

7.1.1. Global In-Pipe Inspection Robots market revenue share, by region, 2017 and 2026

7.2. North America

7.2.1. North America In-Pipe Inspection Robots market revenue, by Product Type, 2017-2026 (USD Million)

7.2.2. North America In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.2.3. North America In-Pipe Inspection Robots market revenue, by Organization Type, 2017-2026 (USD Million)

7.2.4. The U.S.

7.2.4.1. The U.S. In-Pipe Inspection Robots market revenue, by Product Type, 2017-2026 (USD Million)

7.2.4.2. The U.S. In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.2.5. Rest of North America

7.2.5.1. Rest of North America In-Pipe Inspection Robots market revenue, by Product Type, 2017-2026 (USD Million)

7.2.5.2. Rest of North America In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.3. Europe

7.3.1. Europe In-Pipe Inspection Robots market revenue, by Product Type, 2017-2026 (USD Million)

7.3.2. Europe In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.3.3. The U.K.

7.3.3.1. The U.K. In-Pipe Inspection Robots market revenue, by Product Type , 2017-2026 (USD Million)

7.3.3.2. The U.K. In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.3.4. Germany

7.3.4.1. Germany In-Pipe Inspection Robots market revenue, by Product Type , 2017-2026 (USD Million)

7.3.4.2. Germany In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.3.5. France

7.3.5.1. France In-Pipe Inspection Robots market revenue, by Product Type,

2017-2026 (USD Million)

7.3.5.2. France In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.3.6. Italy

7.3.6.1. Italy In-Pipe Inspection Robots market revenue, by Product Type , 2017-2026 (USD Million)

7.3.6.2. Italy In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.3.7. Spain

7.3.7.1. Spain In-Pipe Inspection Robots market revenue, by Product Type , 2017-2026 (USD Million)

7.3.7.2. Spain In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.3.8. Rest of Europe

7.3.8.1. Rest of Europe In-Pipe Inspection Robots market revenue, by Product Type , 2017-2026 (USD Million)

7.3.8.2. Rest of Europe In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.4. Asia Pacific

7.4.1. Asia Pacific In-Pipe Inspection Robots market revenue, by Product Type, 2017-2026 (USD Million)

7.4.2. Asia Pacific In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.4.3. China

7.4.3.1. China In-Pipe Inspection Robots market revenue, by Product Type , 2017-2026 (USD Million)

7.4.3.2. China In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.4.4. Japan

7.4.4.1. Japan In-Pipe Inspection Robots market revenue, by Product Type , 2017-2026 (USD Million)

7.4.4.2. Japan In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.4.5. India

7.4.5.1. India In-Pipe Inspection Robots market revenue, by Product Type , 2017-2026 (USD Million)

7.4.5.2. India In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.4.6. South East Asia

7.4.6.1. South East Asia In-Pipe Inspection Robots market revenue, by Product Type , 2017-2026 (USD Million)

7.4.6.2. South East Asia In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.4.7. Rest of Asia Pacific

7.4.7.1. Rest of Asia Pacific In-Pipe Inspection Robots market revenue, by Product Type , 2017-2026 (USD Million)

7.4.7.2. Rest of Asia Pacific In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.5. Latin America

7.5.1. Latin America In-Pipe Inspection Robots market revenue, by Product Type, 2017-2026 (USD Million)

7.5.2. Latin America In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.5.3. Brazil

7.5.3.1. Brazil In-Pipe Inspection Robots market revenue, by Product Type , 2017-2026 (USD Million)

7.5.3.2. Brazil In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.5.4. Rest of Latin America

7.5.4.1. Rest of Latin America In-Pipe Inspection Robots market revenue, by Product Type , 2017-2026 (USD Million)

7.5.4.2. Rest of Latin America In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.6. Middle East and Africa

7.6.1. Middle East and Africa In-Pipe Inspection Robots market revenue, by Product Type, 2017-2026 (USD Million)

7.6.2. Middle East and Africa In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.6.3. GCC Countries

7.6.3.1. GCC Countries In-Pipe Inspection Robots market revenue, by Product Type, 2017-2026 (USD Million)

7.6.3.2. GCC Countries In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.6.4. Southern Africa

7.6.4.1. Southern Africa In-Pipe Inspection Robots market revenue, by Product Type , 2017-2026 (USD Million)

7.6.4.2. Southern Africa In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

7.6.5. Rest of MEA

7.6.5.1. Rest of MEA In-Pipe Inspection Robots market revenue, by Product Type , 2017-2026 (USD Million)

7.6.5.2. Rest of MEA In-Pipe Inspection Robots market revenue, by Application Type, 2017-2026 (USD Million)

CHAPTER 8. COMPANY PROFILE

8.1. CUES Inc.

8.1.1. Overview

8.1.2. Financials

8.1.3. Product portfolio

8.1.4. Business strategy

8.1.5. Recent developments

8.2. Envirosight LLC

8.2.1. Overview

8.2.2. Financials

8.2.3. Product portfolio

8.2.4. Business strategy

8.2.5. Recent developments

8.3. GE Inspection Robotics

8.3.1. Overview

8.3.2. Financials

8.3.3. Product portfolio

8.3.4. Business strategy

8.3.5. Recent developments

8.4. IBAK Helmut Hunger GmbH Co. KG

8.4.1. Overview

8.4.2. Financials

8.4.3. Product portfolio

8.4.4. Business strategy

8.4.5. Recent developments

8.5. Medit Inc.

8.5.1. Overview

8.5.2. Financials

8.5.3. Product portfolio

8.5.4. Business strategy

8.5.5. Recent developments

8.6. RedZone Robotics, Inc.

- 8.6.1. Overview
- 8.6.2. Financials
- 8.6.3. Product portfolio
- 8.6.4. Business strategy
- 8.6.5. Recent developments
- 8.7. Inuktun Services Ltd.
 - 8.7.1. Overview
 - 8.7.2. Financials
 - 8.7.3. Product portfolio
 - 8.7.4. Business strategy
 - 8.7.5. Recent developments
- 8.8. MISTRAS Group Inc.
 - 8.8.1. Overview
 - 8.8.2. Financials
 - 8.8.3. Product portfolio
 - 8.8.4. Business strategy
 - 8.8.5. Recent developments
- 8.9. RIEZLER Inspektions systeme GmbH Co. KG
 - 8.9.1. Overview
 - 8.9.2. Financials
 - 8.9.3. Product portfolio
 - 8.9.4. Business strategy
 - 8.9.5. Recent developments
- 8.10. Radiodetection Limited
 - 8.10.1. Overview
 - 8.10.2. Financials
 - 8.10.3. Product portfolio
 - 8.10.4. Business strategy
 - 8.10.5. Recent developments
- 8.11. Honeybee Robotics, Ltd
 - 8.11.1. Overview
 - 8.11.2. Financials
 - 8.11.3. Product portfolio
 - 8.11.4. Business strategy
 - 8.11.5. Recent developments
- 8.12. Aries Industries, Inc.
 - 8.12.1. Overview
 - 8.12.2. Financials
 - 8.12.3. Product portfolio

8.12.4. Business strategy
