Abstracts

REPORT BRIEF

The report covers forecast and analysis for the super fine aluminum trihydroxide market on a global and regional level.

The report includes the positive and the negative factors that are influencing the growth of the market.

The details about the market opportunities are discussed in the report.

The revenue generated by the prominent industry players has been analyzed in the report.

The market numbers have been calculated using top-down and the bottom-up approaches.

The super fine aluminum trihydroxide market has been analyzed using Porters Five Forces Analysis.

The market is segmented on the basis of the method of preparation and enduser

which, in turn, is bifurcated on a regional level as well.

All the segments have been evaluated based on the present and the future trends.

The report deals with the in-depth quantitative and qualitative analyses of the super fine aluminum trihydroxide market.

The report includes the detailed company profiles of the prominent market players.

MARKET SUMMARY

Aluminum trihydroxide, $Al(OH)_3$, also known as aluminum hydroxide, is a non-abrasive powder. Aluminum trihydroxide is found naturally as the mineral gibbsite. The super fine aluminum trihydroxide is widely used as a flame retardant in the rubber and plastic industries. For the applications such as wastewater treatment and water purification the super fine aluminum trihydroxide is used. Super fine aluminum trihydroxide is used as raw material in chemical and glass industries. The super fine aluminum trihydroxide is also used in electronic industry for manufacturing the wires, cables, electronic devices, etc.

VALUE

The global super fine aluminum trihydroxide market was valued at around USD 500 million in the year 2016 and it is expected to reach approximately USD 560 million by 2025. The global super fine aluminum trihydroxide market is expected to grow at a CAGR of approximately 1% between 2017 and 2025.

DRIVERS AND RESTRAINTS

The major factor driving the growth of super fine aluminum trihydroxide market is the increasing demand for the flame retardant plastics. The super fine aluminum trihydroxide is an excellent smoke suppressant. It acts as a smoke suppressant in a different range of pollutants. Hence, the aluminum trihydroxide is widely used as a flame retardant. The emergence of stringent safety regulations in various industries is propelling the demand for super fine aluminum trihydroxide globally.

Moreover, the availability of super fine aluminum trihydroxide at an affordable price is expected to propel the growth of super fine aluminum trihydroxide market.

However, lack of awareness about the benefits of aluminum trihydroxide in some of the developing countries may hamper the growth of the super fine aluminum trihydroxide market.

SEGMENTATION

The mechanical method accounted for a major share of around 85% in the global super fine aluminum trihydroxide market. A mechanical method for preparation of fine aluminum trihydroxide is cost-effective, and hence it is expected to register the highest growth rate over the forecast period. Mechanical methods involve mechanical forces such as compression and shear forces that facilitate particle size reduction of bulk materials. In the chemical method, catalyst or chemical agents are used for the production of super fine aluminum trihydroxide powder.

The electronic industry dominated the global super fine aluminum trihydroxide market with the share of around 30% in 2016. In the electronics industry, super fine aluminum trihydroxide is widely used for manufacturing of electronic products such as electronic sealing material, electronic wires, low smoke halogen cable material, and other products. Increasing use of aluminum trihydroxide in the electronics industry for various purposes is expected to keep the segment dominating in the coming years.

The chemical industry segment is expected to register the highest CAGR growth during the forecast period. The wide application of aluminum trihydroxide for wastewater treatment and drinking water purification is expected to significantly contribute to the growth of super fine aluminum trihydroxide market globally.

In the rubber and plastic industry, the super fine aluminum trihydroxide is widely used as an insulator, flame retardant, foam insulation, and silastic.

The other end-user industries include glass industry, papermaking industry, etc.

The Asia Pacific is expected to register the highest CAGR growth of 1.3% during the forecast period. The region accounted for the highest market share of around 43% in the global super fine aluminum trihydroxide market in 2016. In the Asia Pacific, China accounted for more than 55% of market share. China is the largest producer and consumer of super fine aluminum trihydroxide. Different international ventures are

making high investments in the chemical companies that are based in China thus positively contributing to the market growth. After China, India is expected to register a good market growth during the forecast period. The strong consumer base and the growing economy are factors that are influencing the growth of super fine aluminum trihydroxide market in India.

In North America, the U.S. holds the dominant position in the super fine aluminum trihydroxide market. In Europe, the aluminum trihydroxide market is expected to grow at a good rate owing to the presence of a large number of chemical suppliers and producers of alumina in the region.

INDUSTRY PLAYERS

The report includes detailed profiles of the prominent market players that are trending in the market. The major players that are compiled in the report include Albemarle Corporation, Oyak, Huber Engineered Materials, Aluminum Corporation of China Limited, KC Corporation, and Showa Denko K.K., among others.

The growing strategic partnership among the top players of the super fine aluminum trihydroxide market is expected to boost the growth of market globally. For instance, in December 2017, Albemarle launched new Granite technology to expand its FCC product portfolio. Moreover, in 2017, Almatix expanded its tabular alumina production capabilities at Falta, the specialty alumina plant in India. In February 2016, the company had expanded its production in North America.

Contents

CHAPTER 1. INTRODUCTION

- 1.1. Report description and scope
- 1.2. Research scope
- 1.3. Research methodology
 - 1.3.1. Market research process
 - 1.3.2. Market research methodology

CHAPTER 2. EXECUTIVE SUMMARY

- 2.1. Global Super Fine Aluminum Trihydroxide market, 2016 - 2025 (USD Million)
- 2.2. Global Super Fine Aluminum Trihydroxide market: Snapshot

CHAPTER 3. SUPER FINE ALUMINUM TRIHYDROXIDE- MARKET DYNAMICS

- 3.1. Introduction
- 3.2. Market drivers
 - 3.2.1. Global Super Fine Aluminum Trihydroxide market drivers: Impact analysis
 - 3.2.2. Rising Demand for Flame Retardant Plastics
 - 3.2.3. Affordable Cost of Aluminum Trihydroxide
- 3.3. Market Restraints
 - 3.3.1. Global Super Fine Aluminum Trihydroxide market restraints: Impact analysis
 - 3.3.2. Lack of Awareness about The Benefits of Aluminum Trihydroxide
- 3.4. Opportunities
 - 3.4.1. Advance application in the chemical industry
- 3.5. Porters five forces analysis
 - 3.5.1. Bargaining power of suppliers
 - 3.5.2. Bargaining power of buyers
 - 3.5.3. The threat of new entrants
 - 3.5.4. The threat of new substitutes
 - 3.5.5. Degree of competition
- 3.6. Market attractiveness analysis
 - 3.6.1. Market attractiveness analysis, by Method of preparation segment
 - 3.6.2. Market attractiveness analysis, by End-user segment
 - 3.6.3. Market attractiveness analysis, by regional segment

CHAPTER 4. GLOBAL SUPER FINE ALUMINUM TRIHYDROXIDE MARKET -

Super Fine Aluminum Trihydroxide Market by Method of Preparation (Mechanical Method and Chemical Method); by E...

COMPETITIVE LANDSCAPE

4.1. Company Market Share Analysis

4.1.1. Global Super Fine Aluminum Trihydroxide market: company market share, 2016

4.2. Strategic Development

4.2.1. Acquisitions Mergers

4.2.2. New tool Launch

4.2.3. Agreements, Partnerships, Collaborations and Joint Ventures

4.2.4. Research and Development, Product and Regional Expansion

4.3. Product Portfolio

CHAPTER 5. GLOBAL SUPER FINE ALUMINUM TRIHYDROXIDE MARKET - METHOD OF PREPARATION SEGMENT ANALYSIS

5.1. Global Super Fine Aluminum Trihydroxide market: Method of preparation type overview

5.1.1. Global Super Fine Aluminum Trihydroxide market revenue share, by Method of preparation, 2016 and 2025

5.2. Mechanical Method

5.2.1. Global Mechanical Method Market, 2016 - 2025(USD Million)

5.3. Chemical Method

5.3.1. Global Chemical Method Market, 2016 - 2025(USD Million)

CHAPTER 6. GLOBAL SUPER FINE ALUMINUM TRIHYDROXIDE MARKET - END-USER SEGMENT ANALYSIS

6.1. Global Super Fine Aluminum Trihydroxide market: an End-user overview

6.1.1. Global Super Fine Aluminum Trihydroxide market revenue share, by End-user, 2016 - 2024

6.2. Electronic Industry

6.2.1. Global Super Fine Aluminum Trihydroxide market for Electronic Industry, 2016 - 2025 (USD Million)

6.3. Chemical Industry

6.3.1. Global Super Fine Aluminum Trihydroxide market for Chemical Industry, 2016 - 2025(USD Million)

6.4. Plastic Industry

6.4.1. Global Super Fine Aluminum Trihydroxide market for Plastic Industry, 2016 - 2025(USD Million)

6.5. Rubber Industry

6.5.1. Global Super Fine Aluminum Trihydroxide market for Rubber Industry, 2016 - 2025(USD Million)

6.6. Others

6.6.1. Global Super Fine Aluminum Trihydroxide market for others, 2016 - 2025(USD Million)

CHAPTER 7. GLOBAL SUPER FINE ALUMINUM TRIHYDROXIDE MARKET - REGIONAL SEGMENT ANALYSIS

7.1. Global Super Fine Aluminum Trihydroxide market: Regional overview

7.1.1. Global Super Fine Aluminum Trihydroxide market revenue share, by region, 2016 and 2025

7.2. North America

7.2.1. North America Super Fine Aluminum Trihydroxide market revenue, by Method of preparation, 2016 - 2025 (USD Million)

7.2.2. North America Super Fine Aluminum Trihydroxide market revenue, by End user, 2016 - 2025 (USD Million)

7.2.3. U.S. Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025 (USD Million)

7.2.4. Rest of North America Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025 (USD Million)

7.3. Europe

7.3.1. Europe Super Fine Aluminum Trihydroxide market revenue, by Method of preparation, 2016 - 2025(USD Million)

7.3.2. Europe Super Fine Aluminum Trihydroxide market revenue, by End user, 2016 - 2025(USD Million)

7.3.3. Germany Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025(USD Million)

7.3.4. UK Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025(USD Million)

7.3.5. France Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025(USD Million)

7.3.6. Italy Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025(USD Million)

7.3.7. Spain Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025(USD Million)

7.3.8. Rest of Europe Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025(USD Million)

7.4. Asia Pacific

7.4.1. Asia Pacific Super Fine Aluminum Trihydroxide market revenue, by Method of preparation, 2016 - 2025, (USD Million)

7.4.2. Asia Pacific Super Fine Aluminum Trihydroxide market revenue, by End user, 2016 - 2025, (USD Million)

7.4.3. China Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025(USD Million)

7.4.4. Japan Super Fine Aluminum Trihydroxide market revenue,2016 - 2025(USD Million)

7.4.5. China Super Fine Aluminum Trihydroxide market revenue,2016 - 2025(USD Million)

7.4.6. India Super Fine Aluminum Trihydroxide market revenue,2016 - 2025(USD Million)

7.4.7. Australia New Zealand Super Fine Aluminum Trihydroxide market revenue,2016 - 2025(USD Million)

7.4.8. Rest of Asia Pacific Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025(USD Million)

7.5. Latin America

7.5.1. Latin America Super Fine Aluminum Trihydroxide market revenue, by Method of preparation, 2016 - 2025(USD Million)

7.5.2. Latin America Super Fine Aluminum Trihydroxide market revenue, by End user, 2016 - 2025(USD Million)

7.5.3. Brazil Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025(USD Million)

7.5.4. Rest of Latin America Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025(USD Million)

7.6. Middle East and Africa

7.6.1. Middle East and Africa Super Fine Aluminum Trihydroxide market revenue, by Method of preparation, 2016 - 2025 (USD Million)

7.6.2. Middle East and Africa Super Fine Aluminum Trihydroxide market revenue, by End user, 2016 - 2025 (USD Million)

7.6.3. GCC Countries Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025(USD Million)

7.6.4. Southern Africa Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025(USD Million)

7.6.5. Rest of Middle East and Africa Super Fine Aluminum Trihydroxide market revenue, 2016 - 2025(USD Million)

CHAPTER 8. COMPANY PROFILE

- 8.1. Albemarle Corporation
 - 8.1.1. Overview
 - 8.1.2. Financials
 - 8.1.3. Product portfolio
 - 8.1.4. Business strategy
 - 8.1.5. Recent developments
- 8.2. Oyak
 - 8.2.1. Overview
 - 8.2.2. Financials
 - 8.2.3. Productportfolio
 - 8.2.4. Business strategy
 - 8.2.5. Recent developments
- 8.3. Huber Engineered Materials
 - 8.3.1. Overview
 - 8.3.2. Financials
 - 8.3.3. Productportfolio
 - 8.3.4. Business strategy
 - 8.3.5. Recent developments
- 8.4. Aluminum Corporation of China Limited
 - 8.4.1. Overview
 - 8.4.2. Financials
 - 8.4.3. Productportfolio
 - 8.4.4. Business strategy
 - 8.4.5. Recent developments
- 8.5. KC Corporation
 - 8.5.1. Overview
 - 8.5.2. Financials
 - 8.5.3. Productportfolio
 - 8.5.4. Business strategy
 - 8.5.5. Recent developments
- 8.6. Showa Denko K.K.
 - 8.6.1. Overview
 - 8.6.2. Financials
 - 8.6.3. Productportfolio
 - 8.6.4. Business strategy
 - 8.6.5. Recent developments

I would like to order

Product name: Super Fine Aluminum Trihydroxide Market by Method of Preparation (Mechanical Method and Chemical Method); by End-user (Electronic Industry, Chemical Industry, Plastic Industry, Rubber Industry, and Other End Users): Global Industry Analysis, Size, Share, Growth, Trends, and Forecast 2016- 2025

Product link: <https://marketpublishers.com/r/S5C6C35291BEN.html>

Price: US\$ 4,899.00 (Single User License / Electronic Delivery)
